Debra – Great to hear from you and thanks for responding with a thumbs up on interest! It appears that Regions III and IV offer Workshop travel assistance so you may be in luck. I have copied in Sheila Prior who can provide a more thorough response to your question.

Hope to see you in Minneapolis. In the meantime, all the best,

Anne

Anne,

This event sounds so relevant and informative.

I would love to attend! I would have to pay my own way because we are currently under a travel ban due to the state of Alaska's current fiscal crisis.

Are there any grants available through AAMVA for this event?

So wonderful to hear from you.

Sincerely,

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Subject: RE: NMVTIS

Good afternoon, Susan,

I saw the email, but I did not receive the questionnaires you referred to from October. However, I am not the person who would be filling them out. I administer UNI I've been asked to coordinate setting up all casual testing. Could you please re-send the questionnaires to David Nolen, Patrick Brosnan, Patrick Anderson, Dillon Salsman and myself? All our emails are on this chain.

I have been told that our NMVTIS application is ready for a casual test of all messages. However, our User Interface piece is not yet complete, but this should be done soon. We do understand that you need some time to set up the casual testing, so this is why we are giving you a heads up. Let's set up a meeting for next week to discuss timelines. Are you and your team available on Wednesday, Feb 22 at 1pm Eastern/9am Alaska? If so, let me know who to invite and I will set up a GoToMeeting.

Thank you for your prompt response!

Hi Mina,

I will be supporting you for your NMVTIS system re-write. Please let me know what you need. I can set up some test data that you can use for casual testing and provide you the VINs along with high level of what that VIN is set up to test. We are an agile shop so I will need to add this task during our iteration planning session so I need a little notice of when you need it.

Also, I sent an email a week ago asking for a status as well as follow up for your mapping and questionnaires that I need to find out about (see attached). Would you be able to let me know about that?

Thanks,

Amir-

As Mina stated before,

AWP

AWP

The SPEX team sent us a casual test plan document which has proved to be invaluable. A similar document for NMVTIS would be appreciated. We will need some technical assistance for sending IT and UB messages.

We will want to begin NMVTIS casual testing as soon as January 2017 but no later April 2017, targeting formal testing no later than June 2017.

Let me know if you have any other further questions.

Thank you-

Damian Schroder

Hi Amir,

We have two teams working on SPEXS – mainframe UNI (myself and one contractor, Katrina) and another (Damian) working on .Net. Damian is working on ALL UNI, not just SPEXS, which includes NMVTIS. He is also working on SSOLV and PDPS, and needs AAMVA assistance for all these applications.

I need to be involved in any discussions regarding SPEXS, SSOLV, or PDPS. If you wish to discuss NMVTIS UNI, please work with our vehicles programmer, David Nolen (cc'd).

Hi Mina,

I am unaware that AK was re-writing their system. I would like to know a bit more information on your efforts and this would require revisions of mappings and questionnaires. Also we know have Web services available and would like you to consider that rather than UNI route, can we setup a meeting to go over the initial plans, I have copied Tom Manual on this email, he will work with you to setup the meeting.

Thank You

Mina/Damian,

You are set for NMVTIS Application. I have included Amir. He will help you for all NMVTIS related question.

I have also included Sruti. She will help you for all CDLIS and PDPS related question.

Sruti/Amir

Alaska is going to use AI for their application rewrite (CDLIS, PDPS, and NMVTIS).

Please let Me know if you have any UNI related question

Thanks

Hi Damian,

Hi Damian,

Please see Hab's attached response on 9/18.

If it is still not working, please feel free to interact directly with AAMVA.

I am checking to see if there is any information or action on this request. The test web service configured to accept messages is logging the following error "9999 25ROUTING VALIDATION ERROR - CANNOT RECEIVE". Perhaps this additional error information could be useful for troubleshooting the issue.

Thanks-
Damian

Subject: New UNI Testing

Mina-

I've wired up real simple service to accept messages. I used the UNI Interface (Tools > System Message > Text Message) to test the samples provided by AAMVA. The sample files are located:
C:\Program Files\AAMVA\UNI 4.5\WebUI\Examples

I tested all text-based samples. Only the CDLIS example appeared to send, however, the inbound NCB had an error. My service captured the inbound message and the Message Status (MSGSTA) of the Message Control Block returned 1 (The transaction was completed with no errors. All expected responses were received with no errors).

Below is a few of the samples I ran. I am not including all of them because the error messages are similar.

Sample file	Error Message
UNI Help - CDLIS IO Sample.txt	Detail: [REDACTED] AWP
UNI Help - NMVTIS IB Sample.txt	Detail: [REDACTED] [REDACTED] AWP B
UNI Help - PDPS HG Sample.txt	Detail: [REDACTED] [REDACTED] AWP [REDACTED]

For samples that return [REDACTED] AWP

I have begun logging configuration changes. I've made 2 changes that were necessary to have my service receive messages. The log can be found here:

C:\UniConfigurationLog\ UniConfigurationLog.txt

I am inclined to believe there may be additional configuration on AAMVA's side.

Thanks
-Damian

Thanks Mina,

Actually February 22 is our iteration planning day. How about Tuesday, February 21st from 2 pm – 3 pm ET (10 am – 11 am AKT). That way I will have an idea of any support required for next iteration which begins Wednesday, Feb 22.

I have attached the emails regarding the mapping and questionnaires.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS

Good afternoon, Susan,

I saw the email, but I did not receive the questionnaires you referred to from October. However, I am not the person who would be filling them out. I administer UNI I've been asked to coordinate setting up all casual testing. Could you please re-send the questionnaires to David Nolen, Patrick Brosnan, Patrick Anderson, Dillon Salsman and myself? All our emails are on this chain.

I have been told that our NMVTIS application is ready for a casual test of all messages. However, our User Interface piece is not yet complete, but this should be done soon. We do understand that you need some time to set up the casual testing, so this is why we are giving you a heads up. Let's set up a meeting for next week to discuss timelines. Are you and your team available on Wednesday, Feb 22 at 1pm Eastern/9am Alaska? If so, let me know who to invite and I will set up a GoToMeeting.

Thank you for your prompt response!

Subject: RE: NMVTIS

Hi Mina,

I will be supporting you for your NMVTIS system re-write. Please let me know what you need. I can set up some test data that you can use for casual testing and provide you the VINs along with high level of what that VIN is set up to test. We are an agile shop so I will need to add this task during our iteration planning session so I need a little notice of when you need it.

Also, I sent an email a week ago asking for a status as well as follow up for your mapping and questionnaires that I need to find out about (see attached). Would you be able to let me know about that?

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Subject: The National Driver Register will conduct a Cleanfile on March 19, 2017

Importance: High

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19th, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8th, 2017, and plan to send your file to NDR no later than March 15th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Hi Debra,

Thanks for your interest in attending this year's Workshop and Law Institute.

Region IV has indeed made travel grant funds available for members who do not have jurisdictional funding to attend the Workshop. Attached is the travel grant application. Please return the completed application to me.

Please let me know if you have questions or need additional information.

Thanks much!

Sheila

Debra – Great to hear from you and thanks for responding with a thumbs up on interest! It appears that Regions III and IV offer Workshop travel assistance so you may be in luck. I have copied in Sheila Prior who can provide a more thorough response to your question.

Hope to see you in Minneapolis. In the meantime, all the best,

Anne

Anne,

This event sounds so relevant and informative.

I would love to attend! I would have to pay my own way because we are currently under a travel ban due to the state of Alaska's current fiscal crisis.

Are there any grants available through AAMVA for this event?

So wonderful to hear from you.

Sincerely,

Debra L. Leonardo, Office Manager II

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the

popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Reason for Travel Funds Request		
Is your agency sending other attendees to the Workshop & Law Institute in Minneapolis? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please list names of other attendees if known:		
Please confirm that travel approval has been received from the appropriate manager/director prior to submission of this travel grant request. <input type="checkbox"/> Yes <input type="checkbox"/> No Name and title of individual from whom approval was received:		
Please provide information on anticipated travel expenses for the person(s) listed above. <i>(check all that apply) Please first review travel award criteria on the following page.</i> <input type="checkbox"/> airfare –estimated airfare cost of \$ <i>(please check airline website or Expedia for estimate. Travel dates are March 14 arrival and March 17 departure)</i> <input type="checkbox"/> hotel – # of nights: <input type="checkbox"/> conference registration fee of \$500 <i>(If possible, we are asking that your agency cover the registration fee. If that is not possible, funding should be requested to cover the fee.</i>		
Please provide any additional information that would be helpful in evaluating the grant application.		

Region IV Workshop Travel Grant Funding Award Criteria

1. Applicant must be from a Region or IV jurisdictional driver licensing, motor vehicle or law enforcement agency.
2. In order to be eligible for travel grant monies, all AAMVA dues must be paid in full.
3. Applicants must have a genuine need for travel assistance, e.g., full or partial jurisdictional funding is not available.
4. Priority consideration / approval will be given to those agencies that will not be able send anyone to the workshop without grant funding and to those who do not have representation on one of the three Standing Committees. However, that should not prevent you from requesting funding.
5. If submitting more than one application per jurisdiction, ideally multiple disciplines should be represented (*e.g., driver representative, vehicle representative, law enforcement representative*)
6. If possible, the agency is requested to pay the individual's workshop registration fee. If not, the Region will cover the expense.
7. All of the hotel room charges for those approved for travel grant funding will be placed on the master account and billed directly to the Region.
8. If an individual(s) opts to drive to the conference, mileage reimbursement cannot exceed what would have been spent on airfare. Travel recipient will be advised of travel budget for those driving.
9. Appropriate jurisdictional / agency travel approvals (*e.g., Director, Secretary, etc.*) must be received by the applicant PRIOR to submission of the travel grant request.
10. Individuals receiving travel grant funding must attend meetings for the full Workshop. Early departure is not permissible.
11. Funding does not include per diem costs.

This is a reminder that you have enrolled in 20170215 SPEXS/S2S Web UI and Reports (intermediate), which begins in about two hours.

Beginning 15 minutes before the session start time (1:30 PM Eastern Time), you can enter the meeting room by clicking this link: http://aamva.intevista.com/_xejigsm/20170215_spexss2s_web_ui_and_reports_intermediate.aspx

Room Passcode: **spexs15**

The call-in information is:

Conference number: **1-888-394-8197**

Telephone Passcode: **574965**

If you are unable to attend this session, please reply to this email letting us know.

We look forward to seeing you online!

Subject: Arizona Dry Run Exercise

Greetings,

Arizona will be joining S2S on 26th February 2017, and we have completed the dry-run exercise.

The Bulk Add process identified **4605 pairs of non-type-7** and **1709 pairs of type-7** potential duplicates between Arizona and Alaska.

The files that contain the details about these records have been placed in the Alaska's CD34 output FTP folder identified with the following filenames:

- [AK CD34 POTNL DT7NA 20170202142634 ADD](#)
- [AK CD34 POTNL DUPLC 20170202142634 ADD](#)

You may reach out to the contact listed below (also copied on this email), to begin reviewing the duplicates.

- Rachelle Johnson - RJohnson3@azdot.gov
- Angie Richardson - ARichardson@azdot.gov

Thank you,

Madhu Chandrasekharan

Greetings Mina,

The files had a 'Text Document' extension that may have caused the problem. They have now the same type of extension 'File' as the other files, and we checked that there are records in those files. Could you please try to pull the records again and let me know if the issue was resolved?

Thanks,

Tony Bauza (PSEPM)

Subject: RE: Discussion on State Access to AAMVA Test System - AK

Hi Mina,

As a follow up to our meeting we had in November, we had a few additional questions. As AAMVA works on a long term solution to assist with testing and setting up pointers, we would like to gather a little more feedback from you on your current process. Please respond via email to the following two questions by 2/16 COB. AAMVA will assess whether your current processes will work for you in the interim as we continue our analysis.

1. Can you please sure with us the name of any states you work/worked with for setting up pointers for your testing?
2. How has the level of support and assistance you are receiving from the states you are currently working with for pointer setup worked out for you?
3. Do you feel you would need further level of support and assistance from additional states/AAMVA?

Thank you in advance for taking the time to respond to our ongoing questions!

Agenda

1. Purpose of meeting
2. State's suggestions and high level requirements for AAMVA test system access (see discussion questions below).
3. Overview of AVATTAR

State, please be prepared to discuss the following:

1. What pain points would be addressed by having a tool?
2. What are your high-level requirements?
3. At what point in the state's development life cycle do you envision using the tool?
4. Who at the state would use tool (testers, developers, etc.)?
5. Do you want the tool for testing online, batch or both?
6. What are your expectations in terms of availability?
7. What other thoughts/suggestions do you have?

Sent: Wednesday, February 15, 2017 8:21 AM
To: Haque, Mohammed; Mallow, Barbara
Subject: RE: Discussion on State Access to AAMVA Test System - AK

Good morning,

Thank you for resending this....I thought I remembered seeing this request but thought it was from one of my contractors and couldn't find it!!

Yes, I contacted several states for assistance. Specifically for State-to-State issues, I received wonderful help from Iowa, North Dakota, Maryland, and Wisconsin. I also have an ongoing testing relationship with 2 CDLIS-only states, Nevada and Washington.

As to whether we need further support from additional states or AAMVA, I would say it depends on which effort you are referring to. Our most recent project, SPEXS on the mainframe, has been deployed a couple weeks ago, and I don't anticipate needing much if any further help with that. However, we have a concurrent project to get off the mainframe, which means we will need a LOT of testing with both other states and AAMVA. I've already reached out to AAMVA to start discussing testing NMVTIS, which is the only application our contractors have ready. However, in the coming months, we will need to begin testing that application with other states as well.

It is my preference to test with other states. It's been my experience that since AAMVA creates templates for specific message types rather than actually participating as a pseudo state, and those templates sometimes create false errors which has resulted in hours of unnecessary investigation on our part. Of course, we will have to use AAMVA templates for casual and structured testing, but I probably won't be requesting any pointers from AAMVA beyond that. Currently our .Net UNI is using pseudo code AI, so we can literally test with ourselves by sending messages to and from AK.

Subject: R-IV Board Volunteers Needed REMINDER
Attachments: R-IV Board of Director's Guide 12-16.doc

Hello Region IV Administrators,

I'm sending a reminder that the Region IV Board of Directors is looking for two volunteers to serve on the Region IV Board. The Member at Large positions can be filled by either a DMV or LE Administrator or Deputy Administrator. Each position is a two (2) year commitment, with the possibility of moving into the Secretary position and up the leadership chain.

Expectations are to attend two in-person Board meetings a year (*a day and a half meeting usually held in mid-December and a one day meeting immediately preceding the Region IV conference*). In addition, several conference calls are usually held throughout the year. Travel expenses to the Board meetings and the Regional Conference will be covered by the Region.

I've attached a listing of current Board members in case you want to reach out and talk to them about the opportunity. I am confident Board members will tell you that they have found serving on the Board to be both an informative and rewarding experience.

I've also attached a copy of the Region IV Board of Directors Guide which provides details on expectations of Board members.

If you are interested in volunteering, please reach out to me or to Tom McClellan, Administrator of Oregon's Driver and Motor Vehicle Services, who is serving as Chair of this year's nominations committee. You can reach Tom by email at Thomas.I.mcclellan@odot.state.or.us or (503) 945-5100. We would appreciate hearing from you no later than February 24. Telephone interviews will then be scheduled with interested candidates and the nominations committee.

Please let me know if you have questions or need additional information.

Thanks much!

Sheila

1.0 INTRODUCTION

The American Association of Motor Vehicle Administrators is a voluntary, nonprofit, tax exempt, educational organization of state and provincial officials in the United States and Canada, responsible for the administration and enforcement of laws pertaining to the motor vehicle and its use.

The AAMVA's scope of operation encompasses the states of the U.S., the Canadian provinces, and the territories of both countries. Its principle endeavors are:

- Developing model programs in disciplines related to motor vehicle administration, traffic law enforcement, and highway safety, and acting as a repository for specific programs in these disciplines;
- Serving as an information clearinghouse for these same disciplines; and
- Serving as a united voice for these interests and related issues.

The founders wisely perceived that while many problems of motor vehicle administration and police traffic services would be national and international in scope, much of the strength and actual operation of the total organization would depend on continued influence and functioning of regional organizations. Hence, the AAMVA Bylaws provides for four geographical regions. But it is equally apparent that there are many advantages to be gained by maintaining a national/international pattern of operation, designed to contribute to the overall strength of the Association.

For purposes of Regional/International continuity, this guide has been prepared to assist the Region IV, Inc. Board and its Officers in understanding their respective responsibilities and meeting these obligations.

2.0 THE GOVERNING STRUCTURE

The Region IV, Inc. governing body is the Board of Directors composed of the following officers and members:

- President
- Vice-President
- Treasurer
- Secretary
- Immediate Past President
- Two Members at Large representing all jurisdictions in Region IV including the Region Member serving on the International Executive Committee, if not an Officer or At Large Member
- One Law Enforcement Member at Large representing the law enforcement community of Region IV
- Any individual serving on the International Board of Directors, not listed, shall be a Member of the Region IV Board
- AAMVA President and CEO serves an Ex-Officio member of the Board.

Please note the difference in terminology used for the AAMVA International Board. The Executive Committee at the International level is composed of the four officers and the past International Chair only. The Treasurer is a non-voting member of the AAMVA Executive Committee. The Board of Directors is the over all governing body and is composed of the four officers, the four immediate past presidents of the International, and three members from each of the regions.

All Region IV, Inc. officers shall hold office for one year. Their term of office begins and expires at the Region IV, Inc. Annual Meeting held at the Regional Conference.

According to the Region IV Bylaws, the Vice-President shall be nominated for a three (3) year term on the International Board of Directors. The term of an International Board Member begins and ends at the International Conference. Every fourth year, the Region will appoint a member to the International Executive Committee position of Secretary. (See Region IV Inc. Bylaws.)

NOTE: Traditionally, AAMVA Regional Officers “graduate” in succession from the office of Secretary to President. Thus Region IV, Inc. Officers should participate in AAMVA meetings and conferences to prepare themselves to assume the presidency.

3.0 Board Member Expectations

This section provides information regarding the expectations for individuals serving on the Region IV Board of Directors. All Board members should actively participate in all Board meetings and should represent the interest of Regional members vs. solely representing their own jurisdiction / agency.

3.1 Secretary Expectations

1. Serve as mentor to new Board members.
2. Serve as mentor/guide to new Regional Conference attendees.
3. Provide outreach and communications with jurisdictional members as appropriate.
4. Take minutes at all Board meetings, membership meetings, and conference calls.
5. Review prior meeting minutes at Board meetings and annual membership meeting.
6. Attend Region IV Board meetings and the Regional conference, as well as scheduled conference calls.
 - a. Actively participate in discussions at Board meetings and conference calls, representing the interests of Regional members.
 - b. Travel to the winter planning meeting and the Region IV conference will be paid by the Region.
7. Represent the interests of Regional members in discussions / decisions.
8. Reach out to Regional members, administrators as appropriate and as requested by Regional President and/or Regional Director.
9. Expect to assume Treasurer's position at conclusion of term as Secretary.

3.2 Treasurer Expectations

1. Serve as mentor to incoming Secretary and new Board members.
2. Serve as mentor/guide to first time Regional Conference attendees.
3. Provide outreach and communications with jurisdictional members as appropriate.
4. Review financial statements monthly. Financials will be posted to the Region IV Board SharePoint site each month by AAMVA's finance department.
 - a. Pose questions as appropriate/necessary to Regional Director.

- b. Report any concerns to the Regional President.
- 5. Report financial status of the Region to the Board at each Board meeting.
- 6. Report the financial status to the membership at the Annual Membership Meeting, held during the Regional conference.
- 7. Attend Region IV Board meetings and the Regional conference, as well as scheduled conference calls.
 - a. Actively participate in discussions at Board meetings and conference calls, representing the interests of Regional members.
 - b. Travel to the winter planning meeting and the Region IV conference will be paid by the Region.
- 8. Lead the Memorial Service held during the Regional conference.
- 9. Reach out to Regional members, administrators as appropriate and as requested by Regional President and/or Regional Director.
- 10. Expect to assume the Vice-President position at the conclusion of Treasurer's term.
- 11. Pick potential locales for Regional conference.
 - a. Regional Director will issue an RFP and will assist in selecting final location.

3.3 Vice-President Expectations

- 1. Serve as mentor to incoming Treasurer and new Board members.
- 2. Serve as mentor/guide to first time attendees at Regional Conference.
- 3. Chair/lead Board meetings and/or conference calls in the absence of the President.
- 4. Provide outreach and communications with jurisdictional members as appropriate.
- 5. Attend Region IV Board meetings and the Regional conference, as well as scheduled conference calls.
 - a. Actively participate in discussions at Board meetings and conference calls, representing the interests of Regional members.
 - b. Travel to the winter planning meeting and the Region IV conference will be paid by the Region.

6. Appoint conference coordinator.
 - a. Conference coordinator should attend winter Board meetings held during term as President.
 - i. Travel expenses for conference coordinator will be paid by the Region.
7. Prepare “come to XX” video to show at prior year’s conference at the cost of the jurisdiction.
8. Expect to assume President’s position at conclusion of term as Vice-President.
9. Reach out to Regional members, administrators as appropriate and as requested by Regional President and/or Regional Director.
10. Expect to be nominated to the International Board of Directors during term as Vice-President.
 - a. Travel expenses to attend International Board meetings will be covered by AAMVA.

3.4 President Expectations

1. Chair/lead Board meetings and conference calls.
 - a. At a minimum, meetings include the winter planning meeting (*December timeframe*), and pre-conference (May/June) Board meeting.
 - b. Conference calls will be scheduled on an ad hoc basis.
2. Serve as mentor to incoming Board members.
3. Serve as mentor/guide to first time Regional conference attendees.
4. Complete outreach (*phone call, with follow-up e mail*) to new Administrators as appropriate to introduce AAMVA and discuss the benefits of getting involved.
5. Attend Region IV Board meetings and the Regional conference, as well as scheduled conference calls.
 - a. Actively participate in discussions at Board meetings and conference calls, representing the interests of Regional members.
 - b. Travel to the winter planning meeting and the Region IV Conference will be paid by the Region.
6. Serve as host for Regional Conference and work with Regional Director and conference coordinator on planning activities.

- a. Work with Regional Director and conference coordinator as required on planning activities. Participate in planning of conference content, topics, and issues that are desired to be part of the sessions by the Committee Chairs, AAMVA staff, industry, federal partners, etc.
 - b. Make recommendations and assist as needed in selection of off-site locations, optional activities, keynote speaker, entertainment, opening session officials, potential sponsors and exhibitors, etc.
 - c. Identify beneficiary for charity auction.
 - d. Determine special awards or contests to be given/held.
 - e. Store flags and flag stands and other materials from previous year's conference in a secure location for conference.
7. Chair Membership Meeting at Regional conference.
8. Make appointments.
- a. Appoint Region IV Committee Chairs and Vice-Chairs as appropriate.
 - b. Appoint Nominations Committee eight (8) to 16 weeks prior to Regional conference.
9. Review and approve/modify Regional conference related travel expenditures for the Regional Director.
10. Anticipated expenses to the jurisdiction:
- a. Printing / copying of conference materials (*registration list, pre-newsletter, tent cards, continuities, drink tickets, etc.*)
 - b. Vehicles are sometimes provided for on-site transportation needs at the President's discretion.
11. Reach out to Regional members, administrators as appropriate, and as requested by the Regional Director.
12. Serve as a Regional representative on the AAMVA International Board of Directors.
- a. Travel expenses to attend International Board meetings will be covered by AAMVA.
13. Work with Regional Director to review/approve travel grant funding requests.
14. Identify any unique or emerging issues/priorities for the Board during the term of office.

3.5 Immediate Past-President Expectations

1. Serve as mentor to incoming President and new Board members.
2. Serve as mentor/guide to first time Regional conference attendees.
3. Provide outreach and communications with jurisdictional members as appropriate.
4. Attend Region IV Board meetings and the Regional Conference, as well as scheduled conference calls.
 - a. Actively participate in discussions at Board meetings and conference calls, representing the interests of Regional members.
 - b. Travel to the winter planning meeting and the Region IV conference will be paid by the Region.
5. Chair Nominations Committee, participate in the interview process, and present the Committee's nominations during the Annual Membership Meeting.
6. Reach out to Regional members, administrators as appropriate and as requested by the Regional President and/or Regional Director.
7. Serve as a Regional representative on the AAMVA International Board.
 - a. Travel expenses to attend International Board meetings will be covered by AAMVA.

3.6 Member at Large / Law Enforcement Member at Large / Expectations

1. Serve as a mentor to incoming Board members.
2. Serve as mentor/guide to new Regional Conference attendees.
3. Provide outreach and communications with jurisdictional members as appropriate.
4. Attend Region IV Board meetings and the Regional conference, as well as scheduled conference calls.
 - a. Actively participate in discussions at Board meetings and conference calls, representing the interests of Regional members.
 - b. Travel to the winter planning meeting and Region IV conference will be paid by the Region.
5. Reach out to Regional members, administrators as appropriate and as requested by Regional President and/or Regional Director.

4.0 Conference Coordinator Expectations

1. Assist Regional Director with conference planning activities.
 - a. Work as part of conference team during previous year's conference (*may wish to also participate in conference calls prior related to previous year's conference planning activities*) to learn the ropes.
 - b. Participate in regularly scheduled conference calls (*frequency increases as conference nears*).
 - c. Keep Regional President informed on planning progress and ask for guidance/decisions, as needed on conference planning activities.
 - d. Keep Regional Director advised of Regional President's wishes/concerns.
 - e. Identify and coordinate conference staff (*for pre-conference and on-site needs*).
 - f. Provide list of potential local exhibitors/sponsors (*include company name, contact name, address, telephone number and e mail address*) no later than December 1 of the year prior to conference.
 - g. Facilitate communication/assignments among conference staff.
 - h. Provide recommendations, contacts and potentially pricing for local events / speakers / conference needs.
 - i. Secure and confirm honor guard, anthem singers, and individual(s) to provide welcome for opening ceremony.
 - j. Request local entities / organizations to donate trinkets for registration bag.
 - k. Print conference materials (*registration list, pre-newsletter, tent cards, continuities, drink tickets, etc.*).
 - l. Serve as on-site jurisdictional coordinator during conference.
2. Travel as necessary:
 - a. Planning meeting held prior to the conference (*December timeframe*).
 - b. A minimum of one (1) trip to conference locale for planning purposes.
 - c. Attend conference and two (2) to three (3) days of pre-conference activities).
 - d. All appropriate travel expenses for required trips will be paid by the Region.

Hi Debra,

Thanks for your interest in attending this year's Workshop and Law Institute.

Region IV has indeed made travel grant funds available for members who do not have jurisdictional funding to attend the Workshop. Attached is the travel grant application. Please return the completed application to me.

Please let me know if you have questions or need additional information.

Thanks much!

Sheila

Anne,

This event sounds so relevant and informative.

I would love to attend! I would have to pay my own way because we are currently under a travel ban due to the state of Alaska's current fiscal crisis.

Are there any grants available through AAMVA for this event?

So wonderful to hear from you.

Sincerely,

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Anne Ferro, President & CEO | American Association of Motor Vehicle Administrators

Hello,

The January 2017 charges are attached. Please reply to billing@aamva.org with any questions.

Note: **Effective January 1, 2017, AAMVA will no longer accept credit card payments.** Please see the attached remittance details and update your records to pay via check or EFT/ACH in the future. Thank you.

November 15, 2016

Dear Jurisdiction Member:

Due to the high cost of credit card processing fees, effective January 31, 2017, AAMVA is no longer accepting credit card payments for payment of IT fees. We appreciate you paying these fees by check, wire transfer or EFT/ACH payment moving forward. I have attached the information you will need to process payments to AAMVA under these three alternatives.

Thank you for supporting the AAMVA IT programs with this important step to contain program costs.

Please let me or my team know if you need any assistance in implementing this change. My phone number and email are below.

Thank you,

Request for Taxpayer Identification Number and Certification

Give Form to the
requester. Do not
send to the IRS.

Print or type
See Specific Instructions on page 2.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank. American Association of Motor Vehicle Administrators	
2 Business name/disregarded entity name, if different from above	
3 Check appropriate box for federal tax classification; check only one of the following seven boxes: <input type="checkbox"/> Individual/sole proprietor or single-member LLC <input type="checkbox"/> Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ Note. For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner. <input type="checkbox"/> Other (see instructions) ▶	<input checked="" type="checkbox"/> C Corporation <input type="checkbox"/> S Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate
4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3): Exempt payee code (if any) 5 Exemption from FATCA reporting code (if any) (Applies to accounts maintained outside the U.S.)	
5 Address (number, street, and apt. or suite no.) 4401 Wilson Boulevard Suite 700	Requester's name and address (optional)
6 City, state, and ZIP code Arlington, VA 22203	
7 List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

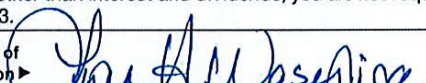

Social security number								
			-			-		
or								
Employer identification number								
5	3	-	0	1	7	2	3	1

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Sign Here	Signature of U.S. person ▶ 	Date ▶ Aug 10, 2015
------------------	----------------------------------------------------------------------------------------------------------------	----------------------------

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/fw9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
- Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

Hi Debra,

Thanks for your interest in attending this year's Workshop and Law Institute.

Region IV has indeed made travel grant funds available for members who do not have jurisdictional funding to attend the Workshop. Attached is the travel grant application. Please return the completed application to me.

Please let me know if you have questions or need additional information.

Thanks much!

Sheila

Debra – Great to hear from you and thanks for responding with a thumbs up on interest! It appears that Regions III and IV offer Workshop travel assistance so you may be in luck. I have copied in Sheila Prior who can provide a more thorough response to your question.

Hope to see you in Minneapolis. In the meantime, all the best,

Anne

Anne,

This event sounds so relevant and informative.

I would love to attend! I would have to pay my own way because we are currently under a travel ban due to the state of Alaska's current fiscal crisis.

Are there any grants available through AAMVA for this event?

So wonderful to hear from you.

Sincerely,

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Reason for Travel Funds Request The state of Alaska has a freeze on all travel funding.		
Is your agency sending other attendees to the Workshop & Law Institute in Minneapolis? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If yes, please list names of other attendees if known:		
Please confirm that travel approval has been received from the appropriate manager/director prior to submission of this travel grant request. <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No Name and title of individual from whom approval was received: DMV Director Marla Thompson		
Please provide information on anticipated travel expenses for the person(s) listed above. <i>(check all that apply) Please first review travel award criteria on the following page.</i> <input checked="" type="checkbox"/> airfare –estimated airfare cost of \$ <i>(please check airline website or Expedia for estimate. Travel dates are March 14 arrival and March 17 departure)</i> <input checked="" type="checkbox"/> hotel – # of nights: 3 <input checked="" type="checkbox"/> conference registration fee of \$500 <i>(If possible, we are asking that your agency cover the registration fee. If that is not possible, funding should be requested to cover the fee.)</i>		
Please provide any additional information that would be helpful in evaluating the grant application. As the person conducting title fraud investigations for my Division and working on the change management team, information learned at these workshops would be of great benefit to my state.		

Region IV Workshop Travel Grant Funding Award Criteria

1. Applicant must be from a Region or IV jurisdictional driver licensing, motor vehicle or law enforcement agency.
2. In order to be eligible for travel grant monies, all AAMVA dues must be paid in full.
3. Applicants must have a genuine need for travel assistance, e.g., full or partial jurisdictional funding is not available.
4. Priority consideration / approval will be given to those agencies that will not be able send anyone to the workshop without grant funding and to those who do not have representation on one of the three Standing Committees. However, that should not prevent you from requesting funding.
5. If submitting more than one application per jurisdiction, ideally multiple disciplines should be represented (*e.g., driver representative, vehicle representative, law enforcement representative*)
6. If possible, the agency is requested to pay the individual's workshop registration fee. If not, the Region will cover the expense.
7. All of the hotel room charges for those approved for travel grant funding will be placed on the master account and billed directly to the Region.
8. If an individual(s) opts to drive to the conference, mileage reimbursement cannot exceed what would have been spent on airfare. Travel recipient will be advised of travel budget for those driving.
9. Appropriate jurisdictional / agency travel approvals (*e.g., Director, Secretary, etc.*) must be received by the applicant PRIOR to submission of the travel grant request.
10. Individuals receiving travel grant funding must attend meetings for the full Workshop. Early departure is not permissible.
11. Funding does not include per diem costs.

Hi Debra,

Thanks for your interest in attending this year's Workshop and Law Institute.

Region IV has indeed made travel grant funds available for members who do not have jurisdictional funding to attend the Workshop. Attached is the travel grant application. Please return the completed application to me.

Please let me know if you have questions or need additional information.

Thanks much!

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your

own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Please provide any additional information that would be helpful in evaluating the grant application. As the person conducting title fraud investigations for my Division and working on the change management team, information learned at these workshops would be of great benefit to my state.		

Region IV Workshop Travel Grant Funding Award Criteria

1. Applicant must be from a Region or IV jurisdictional driver licensing, motor vehicle or law enforcement agency.
2. In order to be eligible for travel grant monies, all AAMVA dues must be paid in full.
3. Applicants must have a genuine need for travel assistance, e.g., full or partial jurisdictional funding is not available.
4. Priority consideration / approval will be given to those agencies that will not be able send anyone to the workshop without grant funding and to those who do not have representation on one of the three Standing Committees. However, that should not prevent you from requesting funding.
5. If submitting more than one application per jurisdiction, ideally multiple disciplines should be represented (*e.g., driver representative, vehicle representative, law enforcement representative*)
6. If possible, the agency is requested to pay the individual's workshop registration fee. If not, the Region will cover the expense.
7. All of the hotel room charges for those approved for travel grant funding will be placed on the master account and billed directly to the Region.
8. If an individual(s) opts to drive to the conference, mileage reimbursement cannot exceed what would have been spent on airfare. Travel recipient will be advised of travel budget for those driving.
9. Appropriate jurisdictional / agency travel approvals (*e.g., Director, Secretary, etc.*) must be received by the applicant PRIOR to submission of the travel grant request.
10. Individuals receiving travel grant funding must attend meetings for the full Workshop. Early departure is not permissible.
11. Funding does not include per diem costs.

Subject: SPEXS security

Hi PY,

Our legislature is again questioning AAMVA's security with regard to SPEXS, looking toward the future of Real ID. We have already explained it AND provided all the documentation you've sent, but have been asked for "a quick description of how AAMVA protects data to make people more confident that security is looked at? I'm assuming they are encrypted. Does AAMVA have any information regarding the security of the data bases that states can access through their "bridges"?"

Can you write us up something simple that we can provide our director and the legislature? I realize it may be a regurgitation of what we've told them and the documents we've forwarded them, but maybe it will help to have something simple that comes from AAMVA, rather than us stating it on your behalf it. Can you please help us out?

NMVTIS DATA CHANGE REQUEST FORM

1 VIN per Form

Comments

I have emailed Louisiana twice asking them to please
update NMVTIS. We have a customer who is trying to title
their vehicle in Alaska.

Importance: High

Thank you Mina and Pierre,

Pierre ~ anything you can provide (high level, plain language would help and diagrams would be even better!) to address the integrity of "AAMVA 'database' security" would be great ... unfortunately, this is a hot potato in legislative committee at the moment so we will need to provide a response as quickly as possible (today).

Thanks,
Patrick.

Subject: SPEXS security

Hi PY,

Our legislature is again questioning AAMVA's security with regard to SPEXS, looking toward the future of Real ID. We have already explained it AND provided all the documentation you've sent, but have been asked for "a quick description of how AAMVA protects data to make people more confident that security is looked at? I'm assuming they are encrypted. Does AAMVA have any information regarding the security of the data bases that states can access through their "bridges"?"

Can you write us up something simple that we can provide our director and the legislature? I realize it may be a regurgitation of what we've told them and the documents we've forwarded them, but maybe it will help to have something simple that comes from AAMVA, rather than us stating it on your behalf it. Can you please help us out?

From: Haque, Mohammed <MHaque@aamva.org>
Sent: Wednesday, February 15, 2017 11:31 AM
To: Peters, Mina L (DOA); Mallow, Barbara
Subject: RE: Discussion on State Access to AAMVA Test System - AK

Mina,

Thank you for your prompt and valuable feedback, we truly appreciate it. The question was referring to the SPEXS project and it seems like AK is content with the current level of support from other states.

Hope you have a great evening!

From: Peters, Mina L (DOA) [mailto:mina.peters@alaska.gov]
Sent: Wednesday, February 15, 2017 12:21 PM
To: Haque, Mohammed <MHaque@aamva.org>; Mallow, Barbara <BMallow@aamva.org>
Subject: RE: Discussion on State Access to AAMVA Test System - AK

Good morning,

Thank you for resending this....I thought I remembered seeing this request but thought it was from one of my contractors and couldn't find it!!

Yes, I contacted several states for assistance. Specifically for State-to-State issues, I received wonderful help from Iowa, North Dakota, Maryland, and Wisconsin. I also have an ongoing testing relationship with 2 CDLIS-only states, Nevada and Washington.

As to whether we need further support from additional states or AAMVA, I would say it depends on which effort you are referring to. Our most recent project, SPEXS on the mainframe, has been deployed a couple weeks ago, and I don't anticipate needing much if any further help with that. However, we have a concurrent project to get off the mainframe, which means we will need a LOT of testing with both other states and AAMVA. I've already reached out to AAMVA to start discussing testing NMVTIS, which is the only application our contractors have ready. However, in the coming months, we will need to begin testing that application with other states as well.

It is my preference to test with other states. It's been my experience that since AAMVA creates templates for specific message types rather than actually participating as a pseudo state, and those templates sometimes create false errors which has resulted in hours of unnecessary investigation on our part. Of course, we will have to use AAMVA templates for casual and structured testing, but I probably won't be requesting any pointers from AAMVA beyond that. Currently our .Net UNI is using pseudo code AI, so we can literally test with ourselves by sending messages to and from AK.

Hi Mina,

As a follow up to our meeting we had in November, we had a few additional questions. As AAMVA works on a long term solution to assist with testing and setting up pointers, we would like to gather a little more feedback from you on your current process. Please respond via email to the following two questions by 2/16 COB. AAMVA will assess whether your current processes will work for you in the interim as we continue our analysis.

1. Can you please sure with us the name of any states you work/worked with for setting up pointers for your testing?
2. How has the level of support and assistance you are receiving from the states you are currently working with for pointer setup worked out for you?
3. Do you feel you would need further level of support and assistance from additional states/AAMVA?

Thank you in advance for taking the time to respond to our ongoing questions!

From: Mallow, Barbara

Sent: Tuesday, October 25, 2016 5:01 PM

To: Kapil, Abhi; Haque, Mohammed; Singaraju, Sruti; mina.peters@alaska.gov

Subject: Discussion on State Access to AAMVA Test System - AK

When: Friday, October 28, 2016 10:00 AM-11:00 AM (UTC-05:00) Eastern Time (US & Canada).

Where: Teleconference

GoTo Meeting Link: <https://www.gotomeet.me/TestSystemUpgrade>

Dial In: 1 (408) 650-3123

Access Code: 546-083-669

Agenda

1. Purpose of meeting
2. State's suggestions and high level requirements for AAMVA test system access (see discussion questions below).
3. Overview of AVATTAR

State, please be prepared to discuss the following:

1. What pain points would be addressed by having a tool?
2. What are your high-level requirements?
3. At what point in the state's development life cycle do you envision using the tool?
4. Who at the state would use tool (testers, developers, etc.)?
5. Do you want the tool for testing online, batch or both?
6. What are your expectations in terms of availability?
7. What other thoughts/suggestions do you have?

Thank you Mina and Pierre,

Pierre ~ anything you can provide (high level, plain language would help and diagrams would be even better!) to address the integrity of "AAMVA 'database' security" would be great ... unfortunately, this is a hot potato in legislative committee at the moment so we will need to provide a response as quickly as possible (today).

Thanks,
Patrick.

Subject: SPEXS security

Hi PY,

Our legislature is again questioning AAMVA's security with regard to SPEXS, looking toward the future of Real ID. We have already explained it AND provided all the documentation you've sent, but have been asked for "a quick description of how AAMVA protects data to make people more confident that security is looked at? I'm assuming they are encrypted. Does AAMVA have any information regarding the security of the data bases that states can access through their "bridges"?"

Can you write us up something simple that we can provide our director and the legislature? I realize it may be a regurgitation of what we've told them and the documents we've forwarded them, but maybe it will help to have something simple that comes from AAMVA, rather than us stating it on your behalf it. Can you please help us out?

Hi Sruti,

I know this is not your area, but I am hoping you can direct me. Our legal office is asking us to give them an accounting of the fees we will pay for SPEXS usage. I realize that the up-front licensing fees were waived because we were a pilot, but we need to get an idea of what the AAMVA fee structure is, so we can identify how much more it will cost us to be on SPEXS.

Please forward this as required. Thank you for your assistance.

Subject: Workshop Travel Grant

Hi Debra,

I am delighted to advise that President Pat Kohler has approved your travel grant applications to attend this year's Workshop and Law Institute. Expenses to be covered by the Region includes airfare, three nights hotel, and your registration fee.

You can make your own flight arrangements and expense the cost, or I am happy to make them on your behalf. Please let me know your preference.

I will need the following information to book your flights:

Full name as listed on DL/passport:

Date of birth:

Cell phone number:

Departure airport:

Date of departure:

Time of departure / airline preference (*If you can find the specific flights you prefer, please include that info as it will save us both time and effort*):

Return date:

Return time / airline (ditto above):

Seat preference (aisle or window):

Frequent flyer number:

Please provide this information as soon as possible so we can take advantage of early airfares.

Registration is now open. Please register at any time at <http://www.aamva.org/2017-Workshop-and-Law-Institute-Home/>. Please note that you must be logged on with your credentials in order to register. You should not be asked to submit payment and will be asked for your hotel check-in/out dates.

Please let me know if you have questions or issues. I look forward to seeing you in Minneapolis!

Thanks!

Sheila

Subject: RE: SPEXS security

Pierre,

Ok ... the email Subject is misleading as it mentions SPEXS only ... the first high level diagram pertaining to SPEXS architecture was very helpful. (second diagram is probably getting too technical).

I'm actually inquiring about AAMVA applications in general ... so ... SSOLV, PDPS, CDLIS, NMVTIS ... would you happen to have equivalent high level architecture diagrams for these other applications?

As you said, these diagrams, with perhaps some selected "best practice" extracts from the PIA, should allow us to formulate a pretty clear response.

Thanks,
Patrick.

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Thanks Melissa,

The benefit of sending me to this Workshop will be passed on to All DMV employees. I have been serving as the motor vehicle subject matter expert since our former Operations Manager resigned. I have been independently serving as the Divisions Title Dispute Administrator, conducting title fraud investigations and VIN fraud investigations for the state. The subjects on the agenda for the workshop are incredibly relevant to the work that I am performing with regard to motor vehicles. Alaska is seeing more and more imported vehicles and vehicle fraud of all kinds. It is imperative that SOA remain current in aspects of fraud detection and investigation.

I hope this helps -

Great, thank you. I will get everything together and submit for approval tomorrow. Hopefully, we hear back soon. I'm going to go ahead and reserve the hotel since they say after February 21st, they cannot guarantee a room or rate. I can always call back and cancel, if you are not approved. I would hold off on the airfare and registration though.

Thanks,
Melissa

I went on the website and it looked like you had to reserve it yourself, but maybe they were going to do it because you are paid through the grant. I see she wanted you to put the dates for check in/out when you register for the workshop. I'm not sure if you want to go ahead and register to secure a room and spot. I was kind of hesitant to book anything other than hotel since they may not approve you. I guess it's up to you on what you feel comfortable with.

Subject: SPEXS security

Hi PY,

Our legislature is again questioning AAMVA's security with regard to SPEXS, looking toward the future of Real ID. We have already explained it AND provided all the documentation you've sent, but have been asked for "a quick description of how AAMVA protects data to make people more confident that security is looked at? I'm assuming they are encrypted. Does AAMVA have any information regarding the security of the data bases that states can access through their "bridges"?"

Can you write us up something simple that we can provide our director and the legislature? I realize it may be a regurgitation of what we've told them and the documents we've forwarded them, but maybe it will help to have something simple that comes from AAMVA, rather than us stating it on your behalf it. Can you please help us out?

Subject: Fees

Hi Sruti,

I know this is not your area, but I am hoping you can direct me. Our legal office is asking us to give them an accounting of the fees we will pay for SPEXS usage. I realize that the up-front licensing fees were waived because we were a pilot, but we need to get an idea of what the AAMVA fee structure is, so we can identify how much more it will cost us to be on SPEXS.

Please forward this as required. Thank you for your assistance.

Subject: Workshop Travel Grant

Hi Debra,

I am delighted to advise that President Pat Kohler has approved your travel grant applications to attend this year's Workshop and Law Institute. Expenses to be covered by the Region includes airfare, three nights hotel, and your registration fee.

You can make your own flight arrangements and expense the cost, or I am happy to make them on your behalf. Please let me know your preference.

I will need the following information to book your flights:

Full name as listed on DL/passport:

Date of birth:

Cell phone number:

Departure airport:

Date of departure:

Time of departure / airline preference *(If you can find the specific flights you prefer, please include that info as it will save us both time and effort):*

Return date:

Return time / airline (ditto above):

Seat preference (aisle or window):

Frequent flyer number:

Please provide this information as soon as possible so we can take advantage of early airfares.

Registration is now open. Please register at any time at <http://www.aamva.org/2017-Workshop-and-Law-Institute-Home/>. Please note that you must be logged on with your credentials in order to register. You should not be asked to submit payment and will be asked for your hotel check-in/out dates.

Please let me know if you have questions or issues. I look forward to seeing you in Minneapolis!

Thanks!

Sheila

Thanks Mina,

Actually February 22 is our iteration planning day. How about Tuesday, February 21st from 2 pm – 3 pm ET (10 am – 11 am AKT). That way I will have an idea of any support required for next iteration which begins Wednesday, Feb 22.

I have attached the emails regarding the mapping and questionnaires.

Thanks,

Subject: RE: NMVTIS

Good afternoon, Susan,

I saw the email, but I did not receive the questionnaires you referred to from October. However, I am not the person who would be filling them out. I administer UNI I've been asked to coordinate setting up all casual testing. Could you please re-send the questionnaires to David Nolen, Patrick Brosnan, Patrick Anderson, Dillon Salsman and myself? All our emails are on this chain.

I have been told that our NMVTIS application is ready for a casual test of all messages. However, our User Interface piece is not yet complete, but this should be done soon. We do understand that you need some time to set up the casual testing, so this is why we are giving you a heads up. Let's set up a meeting for next week to discuss timelines. Are you and your team available on Wednesday, Feb 22 at 1pm Eastern/9am Alaska? If so, let me know who to invite and I will set up a GoToMeeting.

Thank you for your prompt response!

Hi Mina,

I will be supporting you for your NMVTIS system re-write. Please let me know what you need. I can set up some test data that you can use for casual testing and provide you the VINs along with high level of what that VIN is set up to test. We are an agile shop so I will need to add this task during our iteration planning session so I need a little notice of when you need it.

Also, I sent an email a week ago asking for a status as well as follow up for your mapping and questionnaires that I need to find out about (see attached). Would you be able to let me know about that?

Thanks,

Thanks Mina,

Actually February 22 is our iteration planning day. How about Tuesday, February 21st from 2 pm – 3 pm ET (10 am – 11 am AKT). That way I will have an idea of any support required for next iteration which begins Wednesday, Feb 22.

I have attached the emails regarding the mapping and questionnaires.

Thanks,

Subject: RE: NMVTIS

Good afternoon, Susan,

I saw the email, but I did not receive the questionnaires you referred to from October. However, I am not the person who would be filling them out. I administer UNI I've been asked to coordinate setting up all casual testing. Could you please re-send the questionnaires to David Nolen, Patrick Brosnan, Patrick Anderson, Dillon Salsman and myself? All our emails are on this chain.

I have been told that our NMVTIS application is ready for a casual test of all messages. However, our User Interface piece is not yet complete, but this should be done soon. We do understand that you need some time to set up the casual testing, so this is why we are giving you a heads up. Let's set up a meeting for next week to discuss timelines. Are you and your team available on Wednesday, Feb 22 at 1pm Eastern/9am Alaska? If so, let me know who to invite and I will set up a GoToMeeting.

Thank you for your prompt response!

Subject: RE: NMVTIS

Hi Mina,

I will be supporting you for your NMVTIS system re-write. Please let me know what you need. I can set up some test data that you can use for casual testing and provide you the VINs along with high level of what that VIN is set up to

test. We are an agile shop so I will need to add this task during our iteration planning session so I need a little notice of when you need it.

Also, I sent an email a week ago asking for a status as well as follow up for your mapping and questionnaires that I need to find out about (see attached). Would you be able to let me know about that?

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Subject: Final Request for Assistance

Importance: High

DHS/TSA is currently performing developmental testing on the CAT (Credential Authentication Technology). They need 1 newer driver's licenses and 1 under 21 license, so they can test them to verify that the CAT can validate the driver's license from each state. The test articles are strictly for DHS purposes and would not be shared with anyone outside of DHS. The driver's license will be safely stored inside the facility I work in at the TSA Systems Integration Facility (TSIF) in Arlington, VA.

The CAT doesn't record any images or the information on the credential. Once the driver's license is scanned, the CAT just displays a green/red (pass/fail) result, indicating whether or not the security features (e.g., UV) are valid. They are planning on conducting a round of testing on their Credential Authentication Technology (CAT) systems at the TSA Systems Integration Facility (TSIF) in Arlington, VA in February.

Please let me know if you would like to participate in the testing. I look forward to hearing from you.

Comment:

Katie,

We really need the form that's not copied. I've tried every combination of the VIN and it's not coming up. We need to be able to copy and paste to keep from making an error. Please resubmit the request form so we can see if we can get this issue resolved.

Thank You,

Subject: HB 74 REAL ID: security concerns

Good morning!

Does AAMVA have any information regarding the security of the data bases that states can access through their "bridges"? I've heard Rep. Wool talking about his concerns about security breaches in other subcommittees and want to provide him some info related to DMV data bases, if possible.

Thoughts?

Thanks!
Minta

Subject: RE: NMVTIS

Good afternoon, Susan,

I saw the email, but I did not receive the questionnaires you referred to from October. However, I am not the person who would be filling them out. I administer UNI I've been asked to coordinate setting up all casual testing. Could you please re-send the questionnaires to David Nolen, Patrick Brosnan, Patrick Anderson, Dillon Salsman and myself? All our emails are on this chain.

I have been told that our NMVTIS application is ready for a casual test of all messages. However, our User Interface piece is not yet complete, but this should be done soon. We do understand that you need some time to set up the casual testing, so this is why we are giving you a heads up. Let's set up a meeting for next week to discuss timelines. Are you and your team available on Wednesday, Feb 22 at 1pm Eastern/9am Alaska? If so, let me know who to invite and I will set up a GoToMeeting.

Thank you for your prompt response!

Hi Mina,

I will be supporting you for your NMVTIS system re-write. Please let me know what you need. I can set up some test data that you can use for casual testing and provide you the VINs along with high level of what that VIN is set up to test. We are an agile shop so I will need to add this task during our iteration planning session so I need a little notice of when you need it.

Also, I sent an email a week ago asking for a status as well as follow up for your mapping and questionnaires that I need to find out about (see attached). Would you be able to let me know about that?

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Subject: Post Implementation: Updates on Duplicate Resolution
Location: Please dial into 703.908.2900 Passcode:5000

Start: Wed 2/22/2017 11:00 AM
End: Wed 2/22/2017 12:00 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Prakash, Srividhya

Greetings all,

Please feel free to forward the invite to anyone in your team who may benefit information shared in this meeting. This meeting is primarily to share knowledge and experience by other States who are live now and have started duplicate processing. AK, AZ, teams, please bring any questions you may have related to duplicate processing. The meeting should cover for business and technical solutions that have benefited other states.

I would like to request atleast one participant per state if possible in case you have conflicts.

<https://global.gotomeeting.com/join/336010693>

Agenda:

1. Duplicate Files Transmission Status
2. What priority States are giving for Duplicate pointer resolution (CDLIS, DLs, Real IDs)? CDLIS, DLs, Real IDs
3. Knowledge sharing on automation
4. Any feedback or suggestions on how to go about the duplicate resolution that would benefit teams involved in duplicate resolution
5. Expectation that along with go-live, even duplicates from online transactions will be resolved.
6. What technology being used to generate the duplicate files with additional supplemental information.

Subject: Workshop Hotel
Importance: High

Hello All,

I've learned over the past couple of days that several travel grant recipients have made their own hotel reservations. That's fine, but in order to ensure that we don't double book anyone, please be so kind as to shoot me a quick email and let me know if you've indeed made your own hotel reservations.

If you have, please keep the reservation and expense the cost after the Workshop.

Either way, please let me know as soon as you can!

Thanks!

Sheila

Good morning, Mina.

I am copying Loffie and Pam on this email. They should be able to help you with this.

Thank you.

Subject: Fees

Hi Sruti,

I know this is not your area, but I am hoping you can direct me. Our legal office is asking us to give them an accounting of the fees we will pay for SPEXS usage. I realize that the up-front licensing fees were waived because we were a pilot, but we need to get an idea of what the AAMVA fee structure is, so we can identify how much more it will cost us to be on SPEXS.

Please forward this as required. Thank you for your assistance.

Regards,

Mina Peters

Subject: State to State Service Agreement

Dear Ms. Thompson,

We have made some minor edits to the post-pilot S2S User Agreement and I have attached it for your review and signature. As mentioned in previous communication one of the changes we made is to insert the effective date of this Agreement to reflect March 1, 2017 which is the end date of the current pilot period.

Please review, and if the Agreement meets your approval enter your Jurisdiction/Agency in the preamble on the first page and the contact information in Section 8 on page 6 (highlighted). Once signed please return to me prior to March 1st and I will have the Agreement fully executed and returned to you.

If, after review, you have some edits/changes you would like to make to the document please track the changes and return to me. Any questions regarding the Agreement can be addressed to either myself or Philippe Guiot (copied).

STATE-TO-STATE VERIFICATION SERVICE AGREEMENT

THIS STATE-TO-STATE VERIFICATION SERVICE AGREEMENT (“Agreement”) is made as of March 1, 2017 (“Effective Date”) between the undersigned driver licensing agency of the state of [INSERT JURISDICTION/AGENCY] (“DLA”) and the AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS, a District of Columbia nonprofit corporation (AAMVA). The DLA and AAMVA are individually referred to in this Agreement as a “Party” and collectively as the “Parties”.

BACKGROUND

- A. AAMVA has developed and operates the State to State Verification Service (“S2S”). S2S enables jurisdictions participating in the S2S program (“Participating Jurisdictions”) to help determine whether an applicant for a driver license or identification card holds a driver license or identification card issued by another Participating Jurisdiction.
- B. DLA desires to participate in the S2S program in accordance with the terms and conditions set forth in this Agreement.

AGREEMENTS

IN CONSIDERATION of the mutual promises made in this Agreement, the parties agree as follows:

- 1. Primary S2S Responsibilities.
 - a. Subject to the terms and conditions of this Agreement, AAMVA agrees to provide DLA with online driver license and identification card (DL/ID) issuance verification services using S2S.
 - b. DLA agrees to carry out its obligations under this Agreement and to comply with the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.
- 2. Onboarding.
 - a. DLA agrees to develop and maintain a coded interface to S2S that is compliant with the current version of the S2S Specifications. AAMVA agrees to provide reasonable assistance to DLA in order to facilitate interfacing with S2S. DLA agrees to consult with AAMVA prior to making any modifications to the coded interface during the term of this Agreement.

- b. Testing with AAMVA is limited to transactions between DLA and S2S. AAMVA shall have no responsibility for testing the DLA's graphical user interface (GUI) through which it will access S2S.
 - c. DLA agrees that it will not access S2S until AAMVA has completed, to its satisfaction, structured tests of DLA's application (including testing of the initial load process) and has issued written authorization for DLA to access S2S.
- 3. Fees. DLA agrees to pay for use of S2S on the basis of DLA's actual utilization of S2S in accordance with the charges set forth in the current AAMVA's Products & Services Government Rate Schedule (available on AAMVA website at <http://www.aamva.org/Network-Services/>). All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws.
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
 - i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
 - i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to

issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.

- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.
- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. Headings and Captions. Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. Force Majeure. In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. Notices. All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

To AAMVA:

To DLA:

[INSERT]

- d. Assignment. Neither Party may assign or transfer this Agreement without the prior written consent of the other Party.
- e. Severability. A determination that any provision of this Agreement is invalid

or unenforceable will not affect the validity or enforceability of any other part of this Agreement. Similarly, a determination that any provision is invalid or unenforceable in one application will not affect the validity or enforceability of the same provision in other contexts.

- f. Survival. The provisions of Sections 3, 4, 6, 7 and 8 shall survive the expiration or earlier termination of this Agreement.
- g. Governing Law. This Agreement shall be governed by the substantive laws of the Commonwealth of Virginia, without regard to its choice of law principles.
- h. Entire Agreement. This Agreement (including any exhibit or other attachment to this Agreement) constitutes the entire agreement between the parties pertaining to the subject matter herein, and supersedes all prior oral and written agreements and any proposals, correspondence and memoranda with respect thereto.
- i. Order of Precedence. In the event of conflicts among the terms of this Agreement and any attachment or exhibit, the provisions of the attachment or exhibit shall prevail.
- j. Modification. No modification to this Agreement will be effective unless it is in writing and signed by all of the Parties of this Agreement.

IN WITNESS WHEREOF, the undersigned have caused the Agreement to be executed by their authorized officials as of the Effective Date.

All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws.
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
 - i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
 - i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to

issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.

- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.
- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. Headings and Captions. Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. Force Majeure. In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. Notices. All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

Hello All,

I've learned over the past couple of days that several travel grant recipients have made their own hotel reservations. That's fine, but in order to ensure that we don't double book anyone, please be so kind as to shoot me a quick email and let me know if you've indeed made your own hotel reservations.

If you have, please keep the reservation and expense the cost after the Workshop.

Either way, please let me know as soon as you can!

Thanks!

Sheila

Subject: FW: S2S AAMVA agreement

Hi,

Nichole I think you took a run at this before an answered questions for Michael on this. Can you and Mina put together some quick answers on this? We are trying to get this signed as it is due back to AAMVA.

I took a stab at them based on what we talked about before.

I also have put the info that you sent me in an email here-

State to State is a verification service rather than a “database”. At the time of application DMV queries the applicant’s information in our system against other states (via the AAMVA central site) to see if there’s a potential match to the applicant.

State to State uses only the minimum amount of personally identifiable information to determine if an individual applying for a driver’s license, permit, or identification card may already have one from another state. The PII fields used are: full legal name, date of birth, and full SSN or partial SSN.

Other fields include the document type-driver’s license, permit, or ID number, state, DL/ID indicator, CDLIS indicator, and REAL ID indicator. For non-SPEXS states the DL/ID indicator and REAL ID indicator will be “unknown”.

PDPS and CDLIS also display applicable driver withdrawal information, issuance dates, in some cases endorsements/restriction/additional license class information, and if a CDLIS record-medical card information. This information will continue to display in query responses, in addition to the new S2S/SPEXS specific fields. Alaska DMV doesn’t scan any of this information into the batch work nor routinely “store” PDPS or CDLIS (SPEXS) data received from other states. Our system only allows an MVCSR to re-view any queries they sent earlier that same business day. The transaction messages themselves are then purged every month, and are not accessible to anyone other than DMV-IT. *However*, there are certain instances where data is stored to maintain a complete commercial driving history as required by federal law:

- When we find an out of state pointer while issuing a license or permit, we store the other state data in order to determine whether it is a duplicate record.
- When we perform a Change State of Record (CSOR), we store the other state’s license number, and any history sent by the other state, which consists of:
 1. Convicted violations
 2. License Actions (suspensions, revocations, cancellations, etc.)
 3. Accidents

We have no way to control what other states do. However, they do not have direct access to our database – they can only send us query messages. General inquiries (without a license number) from other states are routed through AAMVA to ensure a pointer exists. We only respond to an inquiry if it includes the license number. When other states send a search query, it goes through AAMVA to ensure a pointer exists. Once AAMVA determines it is a valid query (if a match is found), they forward the query request to us. We only release data to other state DMVs, and only if they provide us with the valid identifying information (including the license number).

With the exception of the Real ID indicator, this exact scenario (data storage and who stores it) has been in place for commercial drivers for well over a decade. The difference with SPEXS/S2S is, now it will also apply to non-commercial drivers and ID holders.

AWP

Let me know how best we can get in touch and address these concerns.

Sincerely,

Michael A. Stanker

Dear Ms. Thompson,

We have made some minor edits to the post-pilot S2S User Agreement and I have attached it for your review and signature. As mentioned in previous communication one of the changes we made is to insert the effective date of this Agreement to reflect March 1, 2017 which is the end date of the current pilot period.

Please review, and if the Agreement meets your approval enter your Jurisdiction/Agency in the preamble on the first page and the contact information in Section 8 on page 6 (highlighted). Once signed please return to me prior to March 1st and I will have the Agreement fully executed and returned to you.

If, after review, you have some edits/changes you would like to make to the document please track the changes and return to me. Any questions regarding the Agreement can be addressed to either myself or Philippe Guiot (copied).

STATE-TO-STATE VERIFICATION SERVICE AGREEMENT

THIS STATE-TO-STATE VERIFICATION SERVICE AGREEMENT (“Agreement”) is made as of March 1, 2017 (“Effective Date”) between the undersigned driver licensing agency of the state of [INSERT JURISDICTION/AGENCY] (“DLA”) and the AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS, a District of Columbia nonprofit corporation (AAMVA). The DLA and AAMVA are individually referred to in this Agreement as a “Party” and collectively as the “Parties”.

BACKGROUND

- A. AAMVA has developed and operates the State to State Verification Service (“S2S”). S2S enables jurisdictions participating in the S2S program (“Participating Jurisdictions”) to help determine whether an applicant for a driver license or identification card holds a driver license or identification card issued by another Participating Jurisdiction.
- B. DLA desires to participate in the S2S program in accordance with the terms and conditions set forth in this Agreement.

AGREEMENTS

IN CONSIDERATION of the mutual promises made in this Agreement, the parties agree as follows:

- 1. Primary S2S Responsibilities.
 - a. Subject to the terms and conditions of this Agreement, AAMVA agrees to provide DLA with online driver license and identification card (DL/ID) issuance verification services using S2S.
 - b. DLA agrees to carry out its obligations under this Agreement and to comply with the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.
- 2. Onboarding.
 - a. DLA agrees to develop and maintain a coded interface to S2S that is compliant with the current version of the S2S Specifications. AAMVA agrees to provide reasonable assistance to DLA in order to facilitate interfacing with S2S. DLA agrees to consult with AAMVA prior to making any modifications to the coded interface during the term of this Agreement.

- b. Testing with AAMVA is limited to transactions between DLA and S2S. AAMVA shall have no responsibility for testing the DLA's graphical user interface (GUI) through which it will access S2S.
 - c. DLA agrees that it will not access S2S until AAMVA has completed, to its satisfaction, structured tests of DLA's application (including testing of the initial load process) and has issued written authorization for DLA to access S2S.
- 3. Fees. DLA agrees to pay for use of S2S on the basis of DLA's actual utilization of S2S in accordance with the charges set forth in the current AAMVA's Products & Services Government Rate Schedule (available on AAMVA website at <http://www.aamva.org/Network-Services/>). All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws.
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
 - i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
 - i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to

issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.

- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.
- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. Headings and Captions. Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. Force Majeure. In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. Notices. All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

Subject: Workshop Hotel
Importance: High

Hello All,

I've learned over the past couple of days that several travel grant recipients have made their own hotel reservations. That's fine, but in order to ensure that we don't double book anyone, please be so kind as to shoot me a quick email and let me know if you've indeed made your own hotel reservations.

If you have, please keep the reservation and expense the cost after the Workshop.

Either way, please let me know as soon as you can!

Thanks!

Sheila

NMVTIS DATA CHANGE REQUEST FORM

1 VIN per Form

INSTRUCTIONS

Instructions: A request on state letterhead, signed by an authorized requester, must be faxed or scanned and sent via e-mail to the Director of Operations, along with a completed NMVTIS Data Change Request Form for each *record* to be changed. The completed form must also be emailed to the AAMVA Help Desk. Cover letter must include the requester name, title, and request date.

Email: helpdesk@aamva.org

I. Requester Information

- A. Your Name (required)
- B. Your Phone Number (required)
- B. C. Your State (required)
- D. Date of Request (required)

II. VIN

- A. Vehicle Identification Number of the Vehicle (required)

III. Required Information for Title Add/Modify/Deletes

- A. Title Number – Required if changing title data
- B. Title Issue Date – Required if changing title data
- C. Add (Option) – Check if adding a title record in NMVTIS
 - 1. If adding title for a VIN that is currently not in NMVTIS, was an MCO presented as proof of ownership: yes/no
- D. Modify (Option) – Check if modifying existing title record in NMVTIS
- E. Delete (Option) – Check if deleting existing title record from NMVTIS
- F. Was the title printed prior to this transaction: yes/no

IV. Title Information

- A. Title Issue Date
- B. State Titling Key – needed only if state is correcting state titling key
- C. Transaction Date
- D. Make – needed only if state is correcting Make
- E. Model Year –needed only if state is correcting Model Year
- F. Odometer Reading – needed only if state is correcting Odometer Reading
- G. Odometer Unit of Measure –needed only if state is correcting Odometer Reading
- H. Data Available Indicator –needed only if state is changing indicator

American Association of
Motor Vehicle Administrators

NMVTIS DATA CHANGE REQUEST FORM

1 VIN per Form

v. Required Information for Brand

- A. Brand Code on NMVTIS – Required if changing brand data
- B. Brand Date on NMVTIS – Required if changing brand data
- C. Select 1 of the following:
 - Add – Check if adding a brand record
 - Modify – Check if modifying existing brand record
 - Delete – Check if deleting existing brand record
- D. Make – needed only if state is correcting make on brand record
- E. Model Year – needed only if state is correcting model year on brand record

Subject: AK-WY Bulk Load Duplicates

Greetings,

Alaska has completed their production run exercise. These are the results of interest to Wyoming. The bulk add process identified 58 pairs of non-type-7 and 156 pairs of type-7 potential duplicates between Alaska and Wyoming. The files that contain the details about these records have been placed in the Wyoming's CD34 output FTP folder identified with the following filenames:

- WY_CD34_POTNL_DT7NA_20170128111338_ADD
- WY_CD34_POTNL_DUPLC_20170128111338_ADD

You may reach out to the contacts listed below to begin reviewing the duplicates.

Brianna Olzenak – Brianna.Olzenak@alaska.gov

Thanks,

Jesús [Tony] Bauza (PSEPM)

Subject: RE: AK-WY Bulk Load Duplicates

Good morning,

Do you know when Alaska's information will be available for the identified 58 pairs of non-type-7 and 156 pairs of type-7 potential duplicates between Alaska and Wyoming from the CD34 Bulk Load process back on January 29?

Thank you.

Deb

Subject: AK-WY Bulk Load Duplicates

Greetings,

Alaska has completed their production run exercise. These are the results of interest to Wyoming. The bulk add process identified 58 pairs of non-type-7 and 156 pairs of type-7 potential duplicates between Alaska and Wyoming. The files that contain the details about these records have been placed in the Wyoming's CD34 output FTP folder identified with the following filenames:

- WY_CD34_POTNL_DT7NA_20170128111338_ADD
- WY_CD34_POTNL_DUPLC_20170128111338_ADD

You may reach out to the contacts listed below to begin reviewing the duplicates.

Brianna Olzenak – Brianna.Olzenak@alaska.gov

Thanks,

Jesús [Tony] Bauza (PSEPM)

Comment:

Katie,

AAMVA OPS does not see the CSOT reset error message that you have reported for this vin. Please continue to work with the state (LA) to update SOT. Also, please work with your local network administrator to determine the reason for this error.

Regards,

Jonathan Sherman | Senior Operations Analysis | AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | w: 703.908.5861 | jsherman@aamva.org | www.aamva.org

To: Prior, Sheila
Subject: REAL ID

Sheila,

I'm looking for some assistance with getting information on these states DMV's regarding any stories or issues that I can retell here in Alaska about how their people are struggling to get on bases and federal buildings without an extension from Homeland Security or a REAL ID.

Maine, Minnesota, Washington, Missouri or Montana are the states I see that don't have the extensions.

Thanks,

Marla Thompson
Director, Division of Motor Vehicles
State of Alaska

AAMVA Workshop 2017 - Register Now and Save!

Register now for the 2017 Workshop and Law Institute! Early bird registration ends on February 21st. Take advantage of this low-rate registration price while it lasts. Attendees can network with colleagues from fellow member jurisdictions across the U.S. and Canada, as well as with industry organizations that provide the products and services you need. Visit the [2017 Workshop and Law Institute website](#) for more information and to register today!

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham at committees@aamva.org **no later than February 28**. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, **please send an email to narthur@aamva.org**. We have [nine PACE awards divisions containing 26 different categories](#). (Judging will take place later this month and into March.) All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

AAMVA Workshop 2017 - Register Now and Save!

Register now for the 2017 Workshop and Law Institute! Early bird registration ends on February 21st. Take advantage of this low-rate registration price while it lasts. Attendees can network with colleagues from fellow member jurisdictions across the U.S. and Canada, as well as with industry organizations that provide the products and services you need. Visit the [2017 Workshop and Law Institute website](#) for more information and to register today!

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham at committees@aamva.org **no later than February 28**. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, **please send an email to narthur@aamva.org**. We have [nine PACE awards divisions containing 26 different categories](#). (Judging will take place later this month and into March.) All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

AAMVA Workshop 2017 - Register Now and Save!

Register now for the 2017 Workshop and Law Institute! Early bird registration ends on February 21st. Take advantage of this low-rate registration price while it lasts. Attendees can network with colleagues from fellow member jurisdictions across the U.S. and Canada, as well as with industry organizations that provide the products and services you need. Visit the [2017 Workshop and Law Institute website](#) for more information and to register today!

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham at committees@aamva.org **no later than February 28**. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, **please send an email to narthur@aamva.org**. We have [nine PACE awards divisions containing 26 different categories](#). (Judging will take place later this month and into March.) All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

AAMVA Workshop 2017 - Register Now and Save!

Register now for the 2017 Workshop and Law Institute! Early bird registration ends on February 21st. Take advantage of this low-rate registration price while it lasts. Attendees can network with colleagues from fellow member jurisdictions across the U.S. and Canada, as well as with industry organizations that provide the products and services you need. Visit the [2017 Workshop and Law Institute website](#) for more information and to register today!

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham at committees@aamva.org **no later than February 28**. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, **please send an email to narthur@aamva.org**. We have [nine PACE awards divisions containing 26 different categories](#). (Judging will take place later this month and into March.) All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

AAMVA Workshop 2017 - Register Now and Save!

Register now for the 2017 Workshop and Law Institute! Early bird registration ends on February 21st. Take advantage of this low-rate registration price while it lasts. Attendees can network with colleagues from fellow member jurisdictions across the U.S. and Canada, as well as with industry organizations that provide the products and services you need. Visit the [2017 Workshop and Law Institute website](#) for more information and to register today!

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham at committees@aamva.org **no later than February 28**. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, **please send an email to narthur@aamva.org**. We have [nine PACE awards divisions containing 26 different categories](#). (Judging will take place later this month and into March.) All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

Human Trafficking On The Rise In Ohio

A new report from a nonprofit group that tracks human trafficking says the crime is on the rise here in Ohio and nationally. The Polaris Project says 375 trafficking cases from Ohio were reported to a national hotline last year. That's a 23% increase over the year before. Democratic Representative Teresa Fedor, who has worked to pass legislation to crack down on the problem, says she's not surprised. [Read the full story at StateNews.org.](#)

Ohio Lawmaker Seeks More Protection for Human-Trafficking Victims

A Democratic state lawmaker wants state law changed to protect more human trafficking victims. Rep. Teresa Fedor, D-Toledo, said today she will offer legislation to ensure 16- and 17-years-olds trapped in human trafficking don't face prostitution charges but instead are provided with services to escape their captors. Importance: High

Hello All,

I've learned over the past couple of days that several travel grant recipients have made their own hotel reservations. That's fine, but in order to ensure that we don't double book anyone, please be so kind as to shoot me a quick email and let me know if you've indeed made your own hotel reservations.

If you have, please keep the reservation and expense the cost after the Workshop.

Either way, please let me know as soon as you can!

Thanks!

Sheila

Subject: Arizona Joining AAMVA's State-to-State Verification

CDLIS and S2S Participants:

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). The associated timeline is shown below.

Please note that the times shown are tentative, and states are encouraged to avoid this weekend for performing maintenance or deployment activities that require the Central Site to be available. Please contact AAMVA if such activities are unavoidable.

1. Saturday, February 25, 8:00 PM ET: Central Site will be brought down. Messages to the Central Site will be rejected after this time. State-to-state messages (messages not going to the Central Site) will be functional.
2. Saturday, February 25, 8:30 PM ET: Central Site will be brought back up in an INQUIRY-ONLY mode. This will allow CDLIS and S2S users to send and receive inquiry messages to/from the Central Site (CD01/02/05/06/18).
3. Sunday, February 26, 2:00 AM ET: All applications using NCS will be unavailable for regularly scheduled weekend maintenance.
4. Sunday, February 26, 5:00 AM ET: Central Site will be brought back up in an INQUIRY-ONLY mode. This will allow CDLIS and S2S users to send and receive responses to all inquiry transactions to the Central Site (CD01/02/05/06/18). State-to-state messages (messages not going to the Central Site) will be functional.
5. Sunday, February 26, 11:00 AM ET – 4:00 PM ET: Central Site will be taken offline. Messages to the Central Site will be rejected after this time until the system is brought back online. State-to-state messages (messages not going to the Central Site) will be functional.
6. Sunday, February 26, no later than 11:00 PM ET: Full operations restored.

All other systems (PDPS, NMVTIS, SSOLV, etc.) will be up and running during their usual available hours with the exception of the regularly scheduled weekend maintenance (mentioned in #3). States that are scheduled to implement CDLIS 5.3.2 during this weekend will continue to do so.

AAMVA would like to remind our members that the US Federal Motor Carrier Safety Administration requires states to perform Central Site inquiries prior to making any CDL licensing decisions. Under US federal law, this inquiry must take place not greater than 24 hours prior to transfers and new

issuances, and not greater than 10 days prior to renewals and upgrades (See 49 CFR 384.205, and §383.73(a)(3)(ii)). Also, the US National Highway Traffic Safety Administration requires states to query the Central Site before the issuance of an original, renewal, temporary, or duplicate driver license (non-commercial) license (See 49 U.S.C. 30304(e)).

We apologize for the interruption of service and for any inconvenience that the S2S and CDLIS interruptions may cause. AAMVA is taking all steps possible to minimize service interruptions and will be sending alerts notifying states of Central Site availability throughout the process.

One of the benefits of S2S is that it is now possible to identify persons that hold credentials in different states at the same time. This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved. The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating from the S2S state. AAMVA will shortly be hosting new webinars to elaborate on this topic.

If you have any questions on the CDLIS/S2S downtime that need immediate attention please contact the AAMVA Operations Help Desk at helpdesk@aamva.org. For any inquiries relating to this matter, please contact Pam Dsa (pdsa@aamva.org).

CDLIS and S2S Participants:

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). The associated timeline is shown below.

Please note that the times shown are tentative, and states are encouraged to avoid this weekend for performing maintenance or deployment activities that require the Central Site to be available. Please contact AAMVA if such activities are unavoidable.

1. Saturday, February 25, 8:00 PM ET: Central Site will be brought down. Messages to the Central Site will be rejected after this time. State-to-state messages (messages not going to the Central Site) will be functional.
2. Saturday, February 25, 8:30 PM ET: Central Site will be brought back up in an INQUIRY-ONLY mode. This will allow CDLIS and S2S users to send and receive inquiry messages to/from the Central Site (CD01/02/05/06/18).
3. Sunday, February 26, 2:00 AM ET: All applications using NCS will be unavailable for regularly scheduled weekend maintenance.
4. Sunday, February 26, 5:00 AM ET: Central Site will be brought back up in an INQUIRY-ONLY mode. This will allow CDLIS and S2S users to send and receive responses to all inquiry transactions to the Central Site (CD01/02/05/06/18). State-to-state messages (messages not going to the Central Site) will be functional.
5. Sunday, February 26, 11:00 AM ET – 4:00 PM ET: Central Site will be taken offline. Messages to the Central Site will be rejected after this time until the system is brought back online. State-to-state messages (messages not going to the Central Site) will be functional.
6. Sunday, February 26, no later than 11:00 PM ET: Full operations restored.

All other systems (PDPS, NMVTIS, SSOLV, etc.) will be up and running during their usual available hours with the exception of the regularly scheduled weekend maintenance (mentioned in #3). States that are scheduled to implement CDLIS 5.3.2 during this weekend will continue to do so.

AAMVA would like to remind our members that the US Federal Motor Carrier Safety Administration requires states to perform Central Site inquiries prior to making any CDL licensing decisions. Under US federal law, this inquiry must take place not greater than 24 hours prior to transfers and new

issuances, and not greater than 10 days prior to renewals and upgrades (See 49 CFR 384.205, and §383.73(a)(3)(ii)). Also, the US National Highway Traffic Safety Administration requires states to query the Central Site before the issuance of an original, renewal, temporary, or duplicate driver license (non-commercial) license (See 49 U.S.C. 30304(e)).

We apologize for the interruption of service and for any inconvenience that the S2S and CDLIS interruptions may cause. AAMVA is taking all steps possible to minimize service interruptions and will be sending alerts notifying states of Central Site availability throughout the process.

One of the benefits of S2S is that it is now possible to identify persons that hold credentials in different states at the same time. This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved. The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating from the S2S state. AAMVA will shortly be hosting new webinars to elaborate on this topic.

If you have any questions on the CDLIS/S2S downtime that need immediate attention please contact the AAMVA Operations Help Desk at helpdesk@aamva.org. For any inquiries relating to this matter, please contact Pam Dsa (pdsa@aamva.org).

Subject: RE: AK-VA Duplicates File Processing

Hi Tony,

I am ready to start uploading our processed duplicate files. I assume the naming convention would be "AK_PROD_VA_AK_20170220" (the same name as the file I pulled, only with the new date). Is this correct? And if so, should I upload it back to the SFTP folder AK/CD34/GoLiveDuplicate, or somewhere else? I'm not finding any documentation on this. I ended up getting the configuration from Arkansas, who was very helpful.

We have files for AR and WY so far. I'm hoping to have all of them processed (or at least the ones I've received) before the end of the week.

Greetings Mina,

The files had a 'Text Document' extension that may have caused the problem. They have now the same type of extension 'File' as the other files, and we checked that there are records in those files. Could you please try to pull the records again and let me know if the issue was resolved?

Thanks,

Tony Bauza (PSEPM)

Subject: AK-VA Duplicates File Processing

Greetings,

Virginia has provided their duplicate information. The file AK_PROD_VA_AK_20170130 is available in Alaska's duplicate SFTP folder AK/CD34/GoLiveDuplicate.

Your state may now include your duplicate information and then let us know when the updated file is back in the SFTP folder so that we can move it to the appropriate folder and notify Virginia.

Thanks,

Sheila,

I tried to register today for the workshop but it would not allow me to confirm or continue without a credit card for the registration fee.

I have not made a hotel reservation -

Importance: High

Hello All,

I've learned over the past couple of days that several travel grant recipients have made their own hotel reservations. That's fine, but in order to ensure that we don't double book anyone, please be so kind as to shoot me a quick email and let me know if you've indeed made your own hotel reservations.

If you have, please keep the reservation and expense the cost after the Workshop.

Either way, please let me know as soon as you can!

Thanks!

Sheila

Subject: AAMVA Event - 2017 April CDL Coordinators & IT Meeting Registration Invitation

2017 CDL Coordinators /IT Meeting
April 11 - 13, 2017
St. Louis, Missouri

Dear Mina:

Thank you for letting us know that you plan on attending the CDL Coordinators /IT Meeting at the Hyatt Regency St. Louis at The Arch located at 315 Chestnut St., St. Louis, MO 63102; phone: 314-655-1234.

The following information is provided in order to assist you in registering and making hotel reservations.

Hotel Accommodations: AAMVA will make hotel reservations for all attendees at the Hyatt Regency St. Louis at The Arch located. Please do NOT contact the hotel directly. You will be asked to provide your check in and check out dates during the online registration process.

Airport: St. Louis Lambert International Airport

Arrival & Registration: Monday, April 10

Meeting Dates: Tuesday, April 11 - Thursday, April 13

Departure: After 7:00 pm on April 13 or anytime April 14

Meals: No meals will be provided during the meeting. Attendees will be responsible for all meals each day and will be reimbursed for meals on a per diem basis. Please see the January 31, 2017 meeting announcement email for the per diem amounts.

Attire: Casual

Meeting Registration: Please register online now using the link: [Register Now](http://www.aamva.org/workarea/DownloadAsset.aspx?id=4023) and complete your registration no later than Monday, March 13, 2017. AAMVA will forward all the names and arrival / departure dates to the hotel. Confirmation numbers will be emailed to all attendees closer to the meeting date. If you are having problems with logging into "My AAMVA" to register, please follow instructions in this link for assistance: <http://www.aamva.org/workarea/DownloadAsset.aspx?id=4023>

FMCSA Attendees Only - Once you get to the Hotel Reservation portion of the registration, please change the Payment Method to "All Charges to be Paid by Individual." The field has been defaulted otherwise to accommodate the large number of jurisdictional participants.

Airline Reservations for Jurisdictional Attendees Only - You will be receiving an email from AAMVA

(Member & Conference Services) asking you to make your airline reservation using our online reservation tool called Concur. Please follow the steps carefully to complete your reservation. Please note that your flight reservation will not be complete until you are at the end of the booking steps and click on the "purchase ticket" button. This will be mentioned in the instructions as well.

Transportation to Hotel: Reservations are strongly suggested but not required for the St. Louis, Missouri airport shuttle. Please call 24 hours a day to (877) STLGOVAN (785-4682). The cost is \$25 for one person one way or \$45 roundtrip for the St. Louis airport shuttle

Meeting & Program Questions: Kevin Lewis, [klewis@aamva.org](mailto:kewis@aamva.org), 703.908.2823

Travel Questions: Damian Bass, dbass@aamva.org, 703.908.5773

If you are a member of a hotel loyalty program please note that some hotels require that you self-pay your hotel room. Loyalty programs often entitle you to hotel points or other amenities. If you prefer to ensure point accumulation by paying for your lodging directly and then getting reimbursed by AAMVA (as opposed to having AAMVA pay the hotel directly), please change the Payment Method to "All Charges To Be Paid By Individual" as you register online for the meeting.

Hi Mina,

The correct naming convention for the processed duplicates --using your example-- should be 'AK_PROD_VA_AK_DUPL_20170220'. And yes, they should be uploaded to the AK/CD34/GoLiveDuplicate folder.

Thanks,

Tony Bauza (PSEPM)

Subject: RE: AK-VA Duplicates File Processing

Hi Tony,

I am ready to start uploading our processed duplicate files. I assume the naming convention would be "AK_PROD_VA_AK_20170220" (the same name as the file I pulled, only with the new date). Is this correct? And if so, should I upload it back to the SFTP folder AK/CD34/GoLiveDuplicate, or somewhere else? I'm not finding any documentation on this. I ended up getting the configuration from Arkansas, who was very helpful.

We have files for AR and WY so far. I'm hoping to have all of them processed (or at least the ones I've received) before the end of the week.

Subject: AK-VA Duplicates File Processing

Greetings,

Virginia has provided their duplicate information. The file AK_PROD_VA_AK_20170130 is available in Alaska's duplicate SFTP folder AK/CD34/GoLiveDuplicate.

Your state may now include your duplicate information and then let us know when the updated file is back in the SFTP folder so that we can move it to the appropriate folder and notify Virginia.

Thanks,

To: Bauza, Tony <TBauza@aamva.org>
Subject: RE: AK-VA Duplicates File Processing

Hi Tony,

I am ready to start uploading our processed duplicate files. I assume the naming convention would be "AK_PROD_VA_AK_20170220" (the same name as the file I pulled, only with the new date). Is this correct? And if so, should I upload it back to the SFTP folder AK/CD34/GoLiveDuplicate, or somewhere else? I'm not finding any documentation on this. I ended up getting the configuration from Arkansas, who was very helpful.

We have files for AR and WY so far. I'm hoping to have all of them processed (or at least the ones I've received) before the end of the week.

Subject: RE: AK-VA Duplicates File Processing

Greetings Mina,

The files had a 'Text Document' extension that may have caused the problem. They have now the same type of extension 'File' as the other files, and we checked that there are records in those files. Could you please try to pull the records again and let me know if the issue was resolved?

Thanks,

Subject: RE: AK-VA Duplicates File Processing

Greetings Mina,

The files had a 'Text Document' extension that may have caused the problem. They have now the same type of extension 'File' as the other files, and we checked that there are records in those files. Could you please try to pull the records again and let me know if the issue was resolved?

Thanks,

Tony Bauza (PSEPM)

Subject: AK-VA Duplicates File Processing

Greetings,

Virginia has provided their duplicate information. The file AK_PROD_VA_AK_20170130 is available in Alaska's duplicate SFTP folder AK/CD34/GoLiveDuplicate.

Your state may now include your duplicate information and then let us know when the updated file is back in the SFTP folder so that we can move it to the appropriate folder and notify Virginia.

Thanks,

Good morning,

All 11 duplicate files have been uploaded to AAMVA with the appropriate state name. I had pulled all the data yesterday, so they all have 20170220 date on it.

I don't show that we've received the duplicate processing file form Indiana yet, but all the others appear complete.

Subject: RE: AK-VA Duplicates File Processing

Hi Tony,

I am ready to start uploading our processed duplicate files. I assume the naming convention would be "AK_PROD_VA_AK_20170220" (the same name as the file I pulled, only with the new date). Is this correct? And if so, should I upload it back to the SFTP folder AK/CD34/GoLiveDuplicate, or somewhere else? I'm not finding any documentation on this. I ended up getting the configuration from Arkansas, who was very helpful.

We have files for AR and WY so far. I'm hoping to have all of them processed (or at least the ones I've received) before the end of the week.

Mina,

I'm showing that Indiana's file was moved to Alaska's duplicate folder on February 9. Could you please recheck to confirm that Indiana's file is missing. That file also had a 'Text Document' extension, but I thought that only the VA and AR files were giving you trouble and did not change the extension.

Subject: RE: AK-VA Duplicates File Processing

Hi Tony,

I show I did not receive notification of their file being available. However, if it has a .txt extension like the others, could you please fix that and let me know when it is done so I can pull it?

Thank you!

Regards,

Mina Peters

Subject: RE: AK-VA Duplicates File Processing

Mina,

I'm showing that Indiana's file was moved to Alaska's duplicate folder on February 9. Could you please recheck to confirm that Indiana's file is missing. That file also had a 'Text Document' extension, but I thought that only the VA and AR files were giving you trouble and did not change the extension.

Regards,

Tony Bauza (PSEPM)

Good morning,

All 11 duplicate files have been uploaded to AAMVA with the appropriate state name. I had pulled all the data yesterday, so they all have 20170220 date on it.

I don't show that we've received the duplicate processing file form Indiana yet, but all the others appear complete.

Hi Mina,

The correct naming convention for the processed duplicates --using your example-- should be 'AK_PROD_VA_AK_DUPL_20170220'. And yes, they should be uploaded to the AK/CD34/GoLiveDuplicate folder.

Thanks,

Tony Bauza (PSEPM)

Subject: RE: AK-VA Duplicates File Processing

Hi Tony,

I am ready to start uploading our processed duplicate files. I assume the naming convention would be "AK_PROD_VA_AK_20170220" (the same name as the file I pulled, only with the new date). Is this correct? And if so, should I upload it back to the SFTP folder AK/CD34/GoLiveDuplicate, or somewhere else? I'm not finding any documentation on this. I ended up getting the configuration from Arkansas, who was very helpful.

We have files for AR and WY so far. I'm hoping to have all of them processed (or at least the ones I've received) before the end of the week.

Subject: RE: AK-VA Duplicates File Processing

Greetings Mina,

The files had a 'Text Document' extension that may have caused the problem. They have now the same type of extension 'File' as the other files, and we checked that there are records in those files. Could you please try to pull the records again and let me know if the issue was resolved?

Thanks,

Tony Bauza (PSEPM)

Subject: AK-VA Duplicates File Processing

Greetings,

Virginia has provided their duplicate information. The file AK_PROD_VA_AK_20170130 is available in Alaska's duplicate SFTP folder AK/CD34/GoLiveDuplicate.

Your state may now include your duplicate information and then let us know when the updated file is back in the SFTP folder so that we can move it to the appropriate folder and notify Virginia.

Thanks,

Check out [AAMVA's Open RFPs here](#) for potential opportunities.

OUR SURVEYS

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

2016 IDEC Examiners of the Year Announced

Visit <http://www.aamva.org/IDEC-Examiner-of-the-Year/> to view the list of the 2016 IDEC Examiners of the Year! Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

Arizona To Join State-to-State Verification Service

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). For full information and the associated timeline, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

OUR SURVEYS

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

2016 IDEC Examiners of the Year Announced

Visit <http://www.aamva.org/IDEC-Examiner-of-the-Year/> to view the list of the 2016 IDEC Examiners of the Year! Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

Arizona To Join State-to-State Verification Service

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). For full information and the associated timeline, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

2016 IDEC Examiners of the Year Announced

Visit <http://www.aamva.org/IDEC-Examiner-of-the-Year/> to view the list of the 2016 IDEC Examiners of the Year! Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

Arizona To Join State-to-State Verification Service

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). For full information and the associated timeline, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

OUR SURVEYS

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

2016 IDEC Examiners of the Year Announced

Visit <http://www.aamva.org/IDEC-Examiner-of-the-Year/> to view the list of the 2016 IDEC Examiners of the Year! Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

Arizona To Join State-to-State Verification Service

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). For full information and the associated timeline, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

OUR SURVEYS

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

2016 IDEC Examiners of the Year Announced

Visit <http://www.aamva.org/IDEC-Examiner-of-the-Year/> to view the list of the 2016 IDEC Examiners of the Year! Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

Arizona To Join State-to-State Verification Service

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). For full information and the associated timeline, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

OUR SURVEYS

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

2016 IDEC Examiners of the Year Announced

Visit <http://www.aamva.org/IDEC-Examiner-of-the-Year/> to view the list of the 2016 IDEC Examiners of the Year! Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

Arizona To Join State-to-State Verification Service

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). For full information and the associated timeline, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

OUR SURVEYS

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

2016 IDEC Examiners of the Year Announced

Visit <http://www.aamva.org/IDEC-Examiner-of-the-Year/> to view the list of the 2016 IDEC Examiners of the Year! Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

Arizona To Join State-to-State Verification Service

Arizona will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, February 27, 2017. Tasks related to on-boarding Arizona will be conducted during the weekend of February 25, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM ET to 5:00 AM ET on Sunday, February 26, 2017). For full information and the associated timeline, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

CDLIS Timeliness and Accuracy- Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for January are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[Understanding and Using: New CD90.7.7 Selective DHR Validation Report](#)
Wednesday, February 22, 2017, 2:00 - 3:00 pm (ET)

The purpose of this webinar is to provide an overview of the new CD90.7.7 Selective DHR Validation Report. The webinar will also include information on report training and other resources at AAMVA.

[Understanding MEC Verification Inquiry \(NR01\) National Registry System Specification](#)

Thursday, February 23, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

NY Governor Cuomo Announces Significant Improvement in DWI Evidence Processing at State Police Lab

New York Governor Andrew M. Cuomo announced the State Police Forensic Investigation Center in Albany has made significant improvement in reducing the amount of time it takes to complete testing of evidence submitted in Driving While Intoxicated and Driving While Ability Impaired by Drugs cases. The improvements helped reduce the number of pending cases by nearly half over the past two years. This reduction was made possible by \$8.1 million in grants awarded by the Governor's Traffic Safety Committee, which allowed State Police to purchase new equipment and hire 14 new analysts and support staff. These additions helped improve case processing time by 26 percent in two years. [Read more here.](#)

FEDERAL NEWS

SAVE CaseCheck Available in English and Spanish

Many states' Departments of Motor Vehicles are referring benefit applicants to SAVE CaseCheck to track the status of their case. SAVE CaseCheck, which is now also available in Spanish, is secure, easy to use, and allows benefit applicants to track the progress of their immigration status verification case.

Please respond to these surveys from Pennsylvania, North Carolina, Kentucky, and Vermont.

Contrast Sensitivity Screening

(Ends 03/03/2017) Responses received from DE, FL, GA, IA, ID, IL, IN, LA, ME, MS, NE, NM, SC, VA.

No Owner Information on Registration Cards

(Ends 03/03/2017) Responses received from AL, CA, IA, ID, IN, KY, LA, MB, ME, MN, ND, NE, NH, NM, OH, OK, OR, PA, QC, SD, UT, VA, VT, WA, WI, WY.

Boat Hull Identification Numbers (HIN)

(Ends 02/24/2017) Responses received from AR, FL, IA, ID, IL, IN, LA, ME, MI, NC, ND, NE, NH, NM, OR, RI, SC, UT, VA, VT, WA, WI.

Central Issuance - Costs (Ends 02/23/2017) Responses received from AL, AR, GA, ID, IL, IN, KS, KY, LA, ME, MI, MN, MO, NC, NH, OR, PA, RI, SC, TN, TX, UT, VA, WA.

If you need a Web password or have any questions about using the survey tool, please send an e-mail to webportalsupport@aamva.org or call Janice Dluzynski at 703-908-5842. All online surveys can be found on the AAMVA Web site [here](#).

Applicants simply enter their date of birth and the number from one of the identifiers listed below:

- Verification Case Number (the agency must provide the benefit applicant with this number)
- Alien/USCIS Number
- Citizenship Certificate Number
- Naturalization Number
- SEVIS ID Number
- Passport Number

SAVE CaseCheck assists the agency and the benefit applicants who have verification cases that require additional processing times. This free service helps reduce visits to benefit-granting agencies while cases are ongoing, and informs benefit applicants when they should return to the benefit-granting agency.

To learn more, visit the [SAVE website](#) and [CaseCheck](#) in [Spanish](#).

NHTSA Young Driver Survey

NHTSA plans to conduct a survey of young drivers ages 16-20 during Spring 2017 that would cover a multitude of traffic safety areas. The drivers would initially be contacted through postal mail and asked to go to a NHTSA website to complete the survey online. Follow-up contacts would involve reminders as well as provide a paper copy of the questionnaire that respondents can return by mail. The frame from which the survey sample would be drawn would be the driver license databases of a small number of States. States participating in the survey would draw a random sample of young drivers ages 16-20, provide NHTSA with a file containing contact and general demographic information for the selected drivers, provide counts of the numbers of drivers in their database by major group category, and provide guidance on State-specific terminology to use in a small number of survey questions. NHTSA and its Contractor will analyze the collected data, with State-specific analyses made available to the participating States. A few States have expressed interest in participating in the survey. However, not all of the available slots have been filled. If your jurisdiction is interested in participating in the survey, please direct questions and expressions of interest about the survey to Mr. Alan Block at alan.block@dot.gov or 202-366-6401. Mr. Block is a Research Psychologist in NHTSA's Office of Behavioral Safety Research who is overseeing the survey.

Admin Call ...

Region IV Chief Administrator Meeting
February 21, 2017

Discussion Highlights

Attendees: Pat Kohler, WA; Ralph Powell, ID; Mark Francis, BC; Dennis Osborn, Terri Albertson, NV; Eric Jorgensen, AZ; Marla Thompson, AK; Jean Shiimoto, CA; Chris Caras, Brad Simpson, UT; Tom McClellan, OR; Roger Grove, AB; Earl Cameron, SK; Taylor Rosetti, WY; Anne Ferro, Ian Grossman, and Sheila Prior, AAMVA

AAMVA Update – Workshop will be held March 15-16 in Minneapolis. Anne expressed thanks to Region IV for making travel grant funding available. The CDL Coordinator’s Meeting will be held in April in St. Louis. DHS’ Verification of Lawful Status system has experienced numerous outages of late. AAMVA is working to escalate program within DHS. AAMVA Board met last month and signed off on several key standing committee projects, one being DMV Investigator Integration documents, which should be published in time for the Workshop. Kicked off a couple of new groups – Internet Vehicle Sales and Disability Placard Working Groups – for which membership for both should be announced soon. IDEC is working on a curriculum update. The Board held quite a debate at their recent meeting about autonomous vehicles. AAMVA’s working group has been very involved in partnerships with federal government agencies. Road to Zero initiative is gaining steam, sadly because the fatality rate continues to grow. 2016 numbers could exceed 40,000 lives lost. Couple of weeks away from final transition of state-to-state to AAMVA. With that comes transition out of a pilot program to full operations.

Technology and Trends - Pat offered to share numerous articles on technology trends. (*Two articles attached to the email containing these notes*). Request for submissions for future trends from industry have been sent and a showcase will be held during the Region IV conference with presentations from selected industry members. Jean said there will be a future trends session at the AIC as well.

Idaho State Police – Knee deep in legislative session. House bill defeated this morning to take \$17 million of ISP’s budget out of a dedicated account and put it into general fund. ISP is glad to have escaped that bullet. It equates to 96 troopers. Colonel Powell wished everyone well during their legislative session.

Washington State – Real ID legislation has been proposed and has passed out of Committee. Senate tomorrow. House legislation also moving along. Concerned that a new executive order by Trump may impact legislation. Real ID uses EDL as tier 1. Regular DL would contain a negative marking. CDL Non-domicile passed the House yesterday and now goes to the Senate. Target Zero plan includes DMV activities. Requires DOL to work with WSP and DOT on various efforts. Went live with first office last Friday with new DL. Back office previously rolled out. Phased roll-out with a new office roll out every couple of weeks. Will be fully implemented by July 30. Three weeks from stabilization of roll out #1 (vehicle system). Working to resolve issue. Biggest lesson learned is how big the OCM lift truly is and how large the impact on the agency.

Nevada Highway Patrol – Legislative session initially off to a rocky start with primary seat belt law, but things have changed. On February 3 NHP held an inaugural candlelight vigil to pay tribute to victims of highway death. NHP shared the statistic that 93% of fatalities were unbelted. That motivated a Las Vegas Senator to introduce a primary seat belt law. Fingers crossed. NHP now analyzes mileage death rate by annual vehicle miles driven which resulted in a decrease in deaths from NHP projections.

Nevada DMV - Piloting with Las Vegas justice court who has placed an employee in West Flamingo DMV Office. Allows customer to settle any outstanding issue with the court while at the DMV. Huge customer convenience. They're servicing about 20 customers per day. Terri asked if anyone passed a fee to customers to offset credit card fees. Nevada DMV pays over \$5 million in credit card fees and the legislature is not happy with that number. Utah and Washington said they do pass the cost along, but not 100% of the time, in exactly the same way. Utah exempts large motor carriers. Idaho charges a percentage of the total transaction cost. Eric said Arizona does not pass the cost along. They did at one time and on-line transaction use was low. They removed the fee and internet transactions skyrocketed. California absorbs the fees currently, but are starting the discussion of passing the cost on to their customers as their cost is \$30 million/year. Alaska pays \$1.3 million in credit card fees and are looking at changing regulations.

Utah Drivers – Legislature considering lowering BAC to .05% and surprisingly it has a pretty good head of steam. Zero tolerance regarding <21 and novice drivers (any age). Other legislation proposes lane splitting, eliminating the taxi endorsement, and forming an autonomous vehicle working group. A Senate joint resolution names numerous western states (specifically listed) to enable CDL holders 18 to 21 years of age to operate within those states vs. staying within state the licensing state's boundaries. Postal services considering allowing various state entities to conduct business on their property.

Utah Vehicles – Three separate safety inspection bills being considered. Brad asked how still does safety inspections? AAA tracks that information at <http://drivinglaws.aaa.com/tag/safety-inspection/>. He asked whether anyone has information on whether safety inspection programs are good or bad? Anne said Anita Wasko (PA) is starting informal conversations on inspection programs and suggested he reach out to her.

British Columbia – Still have a major focus on fixes following implementation of a new computer system in September. High degree of complexity as it also serves as insurance sales and tracking system. Common transactions are working fine, but others are challenging. Working to engage new BC senior leadership in AAMVA and hoping to get involved again. Implemented new license plates on BC Parks on January 29. Check out the well selling plate at <http://www.icbc.com/vehicle-registration/licence-plates/Pages/bc-parks-plates.aspx>. Facing significant financial challenges with skyrocketing cost of injury claims. Focus on how to counter rising costs, including moving to a no-fault system as every other jurisdiction in Canada has done.

California DMV – Will starting formal rulemaking process in March for testing of driverless autonomous vehicles and deployment of driverless vehicles.

Alberta – Recently completed review of disabled parking placard program. Only a few could approve their issuance. Have expanded number of outlets from which Albertan's can obtain parking placard. Several years ago, Hutterites filed suit to not have their images on DLs. After seven years, they have all agreed to have their image on a DL.

Oregon – Real ID three bills introduced, fourth in the works. More interest this year than in the past 10. DOT Introduced fee bill again; based on fee study. Being considered as part of bigger package. One bill proposes increases in minimum threshold for damage reporting. Would move from \$1,500 to \$3,000. Should result in some workload savings. Little resistance so far. Bill to expand Road Usage Charge to make mandatory with 2026 vehicles. Discussion about flat annual user charge as an alternative to those who don't want to be tracked. Pat said Washington is exploring the alternative option as part their pilot. Ready to do rulemaking for non-binary sex indicator. Have held several town halls to receive input and will start rulemaking process next month. System changes are required by DMV, state police, and other stakeholders who interface with their system. In contract negotiations with potential system mod vendor.

Saskatchewan – Looking at electronic registration pink cards like Alberta. Adopted tougher drinking and driving laws on January 1. Zero tolerance for under 21 and all novice drivers. SK leads the rest of the country in drinking and driving deaths and are working to lower their numbers.

Arizona – Working to implement e titling system in June. Will go live with dealers first and in addition to e lien and titling, will include dealer reassignments and consumer to dealer transactions. Early release of title and registration system now projected for the end of 2018.

Alaska – Real ID being considered by legislature. Progress lagging due to talk of federal repeal of program. Marla asked about state's experiences with denied entry to military bases for non-compliance. Pat said Washington has information to share.

Region IV Business – Pat advised that Region IV is looking for volunteers to serve on the Region IV Board. Those interested should contact Tom McClellan or Sheila. Region IV is providing travel grant funding to attend the Regional. Information was sent to Chief Administrators. Applications are due to March 24. Contact Sheila or questions or to submit an application. Pat advised that she asked CCMTA for input as to what they'd like to see on the Region IV agenda. Sheila said AAMVA hopes to have Region IV conference registration live by the end of the week.

Next call – The next call is scheduled for May 20 at 2;00 p.m. mountain.

THIS IS A GROUP DISTRIBUTION EMAIL. PLEASE DO NOT REPLY ALL

Thank you for applying to the Internet Vehicles Sales Working Group. We had many more applications than we had positions available. Unfortunately, we were not able to place you on the working group at this time. With your agreement, we will keep your application on file should a vacancy occur on this working group or another working group or committee.

Again, thank you for providing an application.

Subject: RE: State to State Service Agreement
Attachments: S2S Service Agreement rev Final 0221 (002).docx

Hal,

Sorry this has taken us so long. We are down to just a few additions that our legal counsel has requested inserted into the document.

Can you make changes to the first section?

We'd like to see the inclusions of AS 28.05.021 and 28.10.505(d)(1) into the agreement. Specifically, the introduction paragraph needs to have the following phrase:

Page 1, first paragraph, third line after ("DLA"): "pursuant to AS 28.05.021"

Page 3, paragraph #4.b.ii, third line after any applicable laws: "including AS 28.10.505(d)(1)."

I have included Michael Stanker our Attorney who works with the DMV.

If we can get this back tomorrow we can get it over for final signature.

Thanks,

Marla Thompson

Subject: State to State Service Agreement

Dear Ms. Thompson,

We have made some minor edits to the post-pilot S2S User Agreement and I have attached it for your review and signature. As mentioned in previous communication one of the changes we made is to insert the effective date of this Agreement to reflect March 1, 2017 which is the end date of the current pilot period.

Please review, and if the Agreement meets your approval enter your Jurisdiction/Agency in the preamble on the first page and the contact information in Section 8 on page 6 (highlighted). Once signed please return to me prior to March 1st and I will have the Agreement fully executed and returned to you.

If, after review, you have some edits/changes you would like to make to the document please track the changes and return to me. Any questions regarding the Agreement can be addressed to either myself or Philippe Guiot (copied).

STATE-TO-STATE VERIFICATION SERVICE AGREEMENT

THIS STATE-TO-STATE VERIFICATION SERVICE AGREEMENT (“Agreement”) is made as of March 1, 2017 (“Effective Date”) between the undersigned driver licensing agency of the state of Alaska (“DLA”) and the AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS, a District of Columbia nonprofit corporation (AAMVA). The DLA and AAMVA are individually referred to in this Agreement as a “Party” and collectively as the “Parties”.

BACKGROUND

- A. AAMVA has developed and operates the State to State Verification Service (“S2S”). S2S enables jurisdictions participating in the S2S program (“Participating Jurisdictions”) to help determine whether an applicant for a driver license or identification card holds a driver license or identification card issued by another Participating Jurisdiction.
- B. DLA desires to participate in the S2S program in accordance with the terms and conditions set forth in this Agreement.

AGREEMENTS

IN CONSIDERATION of the mutual promises made in this Agreement, the parties agree as follows:

- 1. Primary S2S Responsibilities.
 - a. Subject to the terms and conditions of this Agreement, AAMVA agrees to provide DLA with online driver license and identification card (DL/ID) issuance verification services using S2S.
 - b. DLA agrees to carry out its obligations under this Agreement and to comply with the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.
- 2. Onboarding.
 - a. DLA agrees to develop and maintain a coded interface to S2S that is compliant with the current version of the S2S Specifications. AAMVA agrees to provide reasonable assistance to DLA in order to facilitate interfacing with S2S. DLA agrees to consult with AAMVA prior to making any modifications to the coded interface during the term of this Agreement.

- b. Testing with AAMVA is limited to transactions between DLA and S2S. AAMVA shall have no responsibility for testing the DLA's graphical user interface (GUI) through which it will access S2S.
 - c. DLA agrees that it will not access S2S until AAMVA has completed, to its satisfaction, structured tests of DLA's application (including testing of the initial load process) and has issued written authorization for DLA to access S2S.
- 3. Fees. DLA agrees to pay for use of S2S on the basis of DLA's actual utilization of S2S in accordance with the charges set forth in the current AAMVA's Products & Services Government Rate Schedule (available on AAMVA website at <http://www.aamva.org/Network-Services/>). All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws.
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
 - i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
 - i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to

issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.

- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.
- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. Headings and Captions. Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. Force Majeure. In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. Notices. All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

To AAMVA:

Attention: Contracts Administration

Anchorage AK 99503

- d. Assignment. Neither Party may assign or transfer this Agreement without the prior written consent of the other Party.
- e. Severability. A determination that any provision of this Agreement is invalid or unenforceable will not affect the validity or enforceability of any other part of this Agreement. Similarly, a determination that any provision is invalid or unenforceable in one application will not affect the validity or enforceability of the same provision in other contexts.
- f. Survival. The provisions of Sections 3, 4, 6, 7 and 8 shall survive the expiration or earlier termination of this Agreement.
- g. Governing Law. This Agreement shall be governed by the substantive laws of the Commonwealth of Virginia, without regard to its choice of law principles.
- h. Entire Agreement. This Agreement (including any exhibit or other attachment to this Agreement) constitutes the entire agreement between the parties pertaining to the subject matter herein, and supersedes all prior oral and written agreements and any proposals, correspondence and memoranda with respect thereto.
- i. Order of Precedence. In the event of conflicts among the terms of this Agreement and any attachment or exhibit, the provisions of the attachment or exhibit shall prevail.
- j. Modification. No modification to this Agreement will be effective unless it is in writing and signed by all of the Parties of this Agreement.

IN WITNESS WHEREOF, the undersigned have caused the Agreement to be executed by their authorized officials as of the Effective Date.

Alaska. Your connection to the NCS application has disconnected abnormally. This disconnection was not initiated by AAMVA and only affects your site. Please check your system logs (UNI and/or Network and Firewall) to identify what initiated this disconnection and reestablish your connectivity. Please provide AAMVA detailed information on the cause of this loss of connectivity.

AAMVA is also checking all dedicated resources. If it is determined that the cause of the problem is at any of AAMVA's dedicated resources we will let you know.

For UNI users, if you cannot determine the cause then please send the UNI IP log to UniHelpDesk@aamva.org.

UNI IP Log for CICS is the TCPM (TCPDATA) CICS System log.
UNI IP Log for IMS is the UNI Error Log.

Subject: The National Driver Register will conduct a Cleanfile on March 19, 2017

Importance: High

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19th, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8th, 2017, and plan to send your file to NDR no later than March 15th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19th, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8th, 2017, and plan to send your file to NDR no later than March 15th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Subject: RE: REAL ID
Attachments: Patty Morneault.vcf; Dawn Olson.vcf; Pat Kohler.vcf; Jackie Bemboom.vcf; Sarah Garcia.vcf

Marla,

We don't have this specific information on state's experiences with Real ID and military bases. I have attached contact information for the states you reference in case you want to reach out directly.

Maine – Patty Morneault
Minnesota – Dawn Olson
Washington – Pat Kohler
Missouri – Jackie Bemboom
Montana – Sarah Garcia

Let me know if you need anything else.

Sheila

Subject: REAL ID

Sheila,

I'm looking for some assistance with getting information on these states DMV's regarding any stories or issues that I can retell here in Alaska about how their people are struggling to get on bases and federal buildings without an extension from Homeland Security or a REAL ID.

Maine, Minnesota, Washington, Missouri or Montana are the states I see that don't have the extensions.

Thanks,

Marla Thompson

Subject: Follow up from S2S WG call

Hello Mina,

I wanted to reach out to you on a few items raised during yesterday's S2S WG call. Do you have sometime this afternoon or tomorrow? I am available this afternoon except 3-4pm for the duplicate processing call.

Tomorrow I am available in the afternoon after 1:30pm ET. I can give you a call if that is convenient once I know your availability.

Thanks

Srividhya Prakash,

Subject: Post Implementation: Updates on Duplicate Resolution

When: Wednesday, February 22, 2017 3:00 PM-4:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where: Please dial into 703.908.2900 Passcode:5000

Greetings all,

Please feel free to forward the invite to anyone in your team who may benefit information shared in this meeting. This meeting is primarily to share knowledge and experience by other States who are live now and have started duplicate processing. AK, AZ, teams, please bring any questions you may have related to duplicate processing. The meeting should cover for business and technical solutions that have benefited other states.

I would like to request atleast one participant per state if possible in case you have conflicts.

<https://global.gotomeeting.com/join/336010693>

Agenda:

1. Duplicate Files Transmission Status
2. What priority States are giving for Duplicate pointer resolution (CDLIS, DLs, Real IDs)? CDLIS, DLs, Real IDs
3. Knowledge sharing on automation

4. Any feedback or suggestions on how to go about the duplicate resolution that would benefit teams involved in duplicate resolution
5. Expectation that along with go-live, even duplicates from online transactions will be resolved.
6. What technology being used to generate the duplicate files with additional supplemental information.

Subject: Follow up from S2S WG call

Hello Mina,

I wanted to reach out to you on a few items raised during yesterday's S2S WG call. Do you have sometime this afternoon or tomorrow? I am available this afternoon except 3-4pm for the duplicate processing call.

Tomorrow I am available in the afternoon after 1:30pm ET. I can give you a call if that is convenient once I know your availability.

Thanks

Subject: AK-WI Duplicate File Processing - Formatting issue

Greetings,

Wisconsin is having the same data formatting issue that they experienced during Nebraska's go-live. They are asking to please resend the file using the following transfer options:

Transfer options: clientcp=IBM-1047,linerule=crlf,mode=text,

For Wisconsin to be able to process the file, they need to have a CR (carriage return) and LF (line feed) character pair at the end of each record. Their system does not recognize 'end of record' markers, which is usually at the end of every record. The transfer option indicated above solved the problem for the NE-WI duplicates file processing.

I must warn you that Wyoming may experience the same problem.

Thanks,

Jesús [Tony] Bauza (PSEPM)

Subject: Reminder about S2S Surveys and Touch Point 4

The purpose of this email is to provide a reminder about providing information about Alaska's experiences with the S2S Pilot. We need this information to ensure the pilot report and best practices recommendations are as complete and accurate as possible.

All pilot states agreed to gather information through the surveys that were developed under the guidance of the S2S Pilot Working Group. There are three of these surveys, and they are all important because each has unique questions.

The Implementation Survey is intended to gather information about the state's deployment of S2S. Each state should submit this after it's go-live. Could Alaska please complete and send this survey as soon as possible?

The Monthly Survey gathers information about a pilot state's on-going usage of S2S. We particularly need information about situations discovered where S2S has uncovered attempts to obtain DL/ID cards to avoid driving restrictions or other types of fraud. This would include cases that were found during the resolution of potential duplicate lists. Since the pilot will soon end, Alaska only needs to submit a monthly survey covering February 2107, which is due on March 7?

The Survey after Operations gathers information about the state's views and experiences with S2S after it has had it running for some time. As we get closer to the end of the pilot, the amount of time a state has to operate the pilot is growing shorter, so we need to have states submit this survey sooner. Could Alaska please submit this completed survey at least a few days prior to our Touch Point #4 call?

Touch Point 4 is also an important tool for gathering information for the pilot evaluation report and best practices recommendations. This touch point primarily involves interviews with key personnel about a pilot state's experiences implementing and using S2S. While previously we visited pilot states, we have switched to doing these interviews by conference call. These conference calls usually last around 90 minutes. We would like to schedule Touch Point 4 with Alaska in late March, preferably between March 215 and March 28. Can you suggest some dates for this?

Subject: Post Implementation: Updates on Duplicate Resolution

When: Wednesday, February 22, 2017 3:00 PM-4:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where: Please dial into 703.908.2900 Passcode:5000

Greetings all,

Please feel free to forward the invite to anyone in your team who may benefit information shared in this meeting. This meeting is primarily to share knowledge and experience by other States who are live now and have started duplicate processing. AK, AZ, teams, please bring any questions you may have related to duplicate processing. The meeting should cover for business and technical solutions that have benefited other states.

I would like to request atleast one participant per state if possible in case you have conflicts.

<https://global.gotomeeting.com/join/336010693>

Agenda:

1. Duplicate Files Transmission Status
2. What priority States are giving for Duplicate pointer resolution (CDLIS, DLs, Real IDs)? CDLIS, DLs, Real IDs
3. Knowledge sharing on automation
4. Any feedback or suggestions on how to go about the duplicate resolution that would benefit teams involved in duplicate resolution
5. Expectation that along with go-live, even duplicates from online transactions will be resolved.
6. What technology being used to generate the duplicate files with additional supplemental information.

Subject: VOTE - MEC Inquiry Data Elements Survey

Dear CDLIS Working Group,

As per our call yesterday I am sending out a survey to obtain your state's preferences regarding what data elements should be included as **optional** data elements to search by for the MEC Inquiry.

The State/Driver License Number or Name/DOB combo will be required for the inquiry (meaning that one combination would be required).

Please respond to the survey no later than COB Wednesday March 1st.

Thank you!

Could one person from each state respond to the following questions:

1. Please indicate if your state would like any of the following data elements to be included as optional data elements for the inquiry message, if not please state why:
 - a. Medical Examiner's Last Name
 - Yes
 - No
 - b. Medical Examiner's State
 - Yes
 - No
 - c. Medical Examiner's City
 - Yes
 - No
 - d. Medical Examiner's ZIP
 - Yes
 - No
 - e. Medical Examiner's Registry Number
 - Yes

- No
- f. Medical Examiner's Certificate Issue Date
- Yes
 - No
- g. Driver's City
- Yes
 - No
- h. Driver's ZIP
- Yes
 - No
- i. Include Expired MEC info – This indicator could be set if the state would like to receive expired MEC data (active data would be default)
- Yes
 - No
- j. Include Pending/Incomplete MEC info – This indicator could be set if the state would like to receive incomplete MEC data (complete data would be the default)
- Yes
 - No
2. If your response to 1f (above) was yes, please answer the following:
- a. Do you think that searching an issue date by 'date range' would be beneficial? (i.e. Begin Date: 02/01/2017 and End Date: 02/28/2017). If not please indicate why-
- Yes
 - No
- b. Do you think that states should be able to enter a begin date and end date, or should the end date default to the current date?
- Begin and end dates
 - Only begin date
3. Do you think any other data elements should be added as optional elements for the inquiry? If yes, please choose from the list below which you think should be added and indicate why-
- Yes
 - No

Medical Certificate Expiration Date
 Medical Examiner Telephone Number
 Medical Examiner Specialty Code
 Medical Examiner License Number
 CLP/CDL Applicant/Holder
 Medical Examiner's Certificate Qualification Status
 Medical Examiner's Certification Decision

4. In the event that we must limit the number of optional data elements to include as a part of the inquiry, please list your preferences in priority order below:

Optional Data Elements – Priority Order	
1	
2	
3	
4	
5

Subject: RE: AK-WI Duplicates File Processing

Hi,

After the meeting today, we were able to play with linerule option in cozybatch to pull the duplicate file from Alaska in the appropriate format.

We were using the linerule as 'crlf' until now, but now we changed it to 'lf' and things started working for us.

No further action needed from Alaska on this.

Thanks and Regards,
Manish

Greetings Manish,

I have informed Alaska about you issue. I'll let you know when the file is back in your duplicates folder. It will probably have the same name as before, so take any precautions before we move it.

Thanks,

Tony Bauza (PSEPM)

Subject: RE: AK-WI Duplicates File Processing

Hello,

File has been retrieved, but we are having the same data formatting issue as we had with NE.
Could AK please resend AAMVA the file using Transfer options, referenced in the below note from Nebraska

" See that '.' Before the next State/DLN(NEH12980639) I am guessing that is a LF(line feed) character, that your system is not taking as an end of record marker. Most states do take it that way. But maybe you and WY need to have a CR(carriage return)/LF(line feed) pair at the end of the record.
WY gave me an option to put on my send to maybe supply this so let me try it.

I have put a new file into below folder, so AAMVA can you move it to WI again?
Folder NE/CD34/goliveduplicate/
File name NE_PROD_WI_NE_DUPL_20161222

It now has options
Transfer options: clientcp=IBM-1047,linerule=crlf,mode=text,"

Thanks and Regard,
Manish

Hello Administrators,

As you may be aware, AAMVA formed a Working Group last year to develop strategies to better integrate DMV investigators to the AAMVA community. The Working Group is slated to deliver the following in March 2017:

- DMV Investigator Integration white paper
- A DMV Investigator Resource Guide

One final effort by the Group is to gather contact information for each jurisdiction's investigation unit. To that end, we are asking you to provide a non-public telephone number and non-public email address that investigators from other agencies can use to contact your investigative staff. If you do not have a non-public phone or email, please consider establishing one.

We would appreciate receiving this information no later than January 23.

Please let me know if you have questions or need additional information. Thank you for your assistance.

Region IV Chief Administrator Meeting
February 21, 2017

Discussion Highlights V2

Attendees: Pat Kohler, WA; Ralph Powell, ID; Mark Francis, BC; Dennis Osborn, Terri Albertson, NV; Eric Jorgensen, AZ; Marla Thompson, AK; Jean Shiimoto, CA; Chris Caras, Brad Simpson, UT; Tom McClellan, OR; Roger Grove, AB; Earl Cameron, SK; Taylor Rosetti, WY; Anne Ferro, Ian Grossman, and Sheila Prior, AAMVA

AAMVA Update – Workshop will be held March 15-16 in Minneapolis. Anne expressed thanks to Region IV for making travel grant funding available. The CDL Coordinator’s Meeting will be held in April in St. Louis. DHS’ Verification of Lawful Status system has experienced numerous outages of late. AAMVA is working to escalate program within DHS. AAMVA Board met last month and signed off on several key standing committee projects, one being DMV Investigator Integration documents, which should be published in time for the Workshop. Kicked off a couple of new groups – Internet Vehicle Sales and Disability Placard Working Groups – for which membership for both should be announced soon. IDEC is working on a curriculum update. The Board held quite a debate at their recent meeting about autonomous vehicles. AAMVA’s working group has been very involved in partnerships with federal government agencies. Road to Zero initiative is gaining steam, sadly because the fatality rate continues to grow. 2016 numbers could exceed 40,000 lives lost. Couple of weeks away from final transition of state-to-state to AAMVA. With that comes transition out of a pilot program to full operations.

Technology and Trends - Pat offered to share numerous articles on technology trends. (*Two articles attached to the email containing these notes*). Request for submissions for future trends from industry have been sent and a showcase will be held during the Region IV conference with presentations from selected industry members. Jean said there will be a future trends session at the AIC as well.

Idaho State Police – Knee deep in legislative session. House bill defeated this morning to take \$17 million of ISP’s budget out of a dedicated account and put it into general fund. ISP is glad to have escaped that bullet. It equates to 96 troopers. Colonel Powell wished everyone well during their legislative session.

Washington State – Real ID legislation has been proposed and has passed out of Committee. Senate tomorrow. House legislation also moving along. Concerned that a new executive order by Trump may impact legislation. Real ID uses EDL as tier 1. Regular DL would contain a negative marking. CDL Non-domicile passed the House yesterday and now goes to the Senate. Target Zero plan includes DMV activities. Requires DOL to work with WSP and DOT on various efforts. Went live with first office last Friday with new DL. Back office previously rolled out. Phased roll-out with a new office roll out every couple of weeks. Will be fully implemented by July 30. Three weeks from stabilization of roll out #1 (vehicle system). Working to resolve issue. Biggest lesson learned is how big the OCM lift truly is and how large the impact on the agency.

Nevada Highway Patrol – Legislative session initially off to a rocky start with primary seat belt law, but things have changed. On February 3 NHP held an inaugural candlelight vigil to pay tribute to victims of highway death. NHP shared the statistic that 43% of fatalities were unbelted. That motivated a Las Vegas Senator to introduce a primary seat belt law. Fingers crossed. NHP now analyzes mileage death rate for their jurisdiction and for the state as a whole. That resulted in a decrease in deaths from NHP projections.

Nevada DMV - Piloting with Las Vegas justice court who has placed an employee in West Flamingo DMV Office. Allows customer to settle any outstanding issue with the court while at the DMV. Huge customer convenience. They're servicing about 20 customers per day. Terri asked if anyone passed a fee to customers to offset credit card fees. Nevada DMV pays over \$5 million in credit card fees and the legislature is not happy with that number. Utah and Washington said they do pass the cost along, but not 100% of the time, in exactly the same way. Utah exempts large motor carriers. Idaho charges a percentage of the total transaction cost. Eric said Arizona does not pass the cost along. They did at one time and on-line transaction use was low. They removed the fee and internet transactions skyrocketed. California absorbs the fees currently, but are starting the discussion of passing the cost on to their customers as their cost is \$30 million/year. Alaska pays \$1.3 million in credit card fees and are looking at changing regulations.

Utah Drivers – Legislature considering lowering BAC to .05% and surprisingly it has a pretty good head of steam. Zero tolerance regarding <21 and novice drivers (any age). Other legislation proposes lane splitting, eliminating the taxi endorsement, and forming an autonomous vehicle working group. A Senate joint resolution names numerous western states (specifically listed) to enable CDL holders 18 to 21 years of age to operate within those states vs. staying within state the licensing state's boundaries. Postal services considering allowing various state entities to conduct business on their property.

Utah Vehicles – Three separate safety inspection bills being considered. Brad asked who still does safety inspections? AAA tracks that information at <http://drivinglaws.aaa.com/tag/safety-inspection/>. He asked whether anyone has information on whether safety inspection programs are good or bad? Anne said Anita Wasko (PA) is starting informal conversations on inspection programs and suggested he reach out to her.

British Columbia – Still have a major focus on fixes following implementation of a new computer system in September. High degree of complexity as it also serves as insurance sales and tracking system. Common transactions are working fine, but others are challenging. Working to engage new BC senior leadership in AAMVA and hoping to get involved again. Implemented new license plates on BC Parks on January 29. Check out the well selling plate at <http://www.icbc.com/vehicle-registration/licence-plates/Pages/bc-parks-plates.aspx>. Facing significant financial challenges with skyrocketing cost of injury claims. Focus on how to counter rising costs and a sustainable business model.

California DMV – Will starting formal rulemaking process in March for testing of driverless autonomous vehicles and deployment of driverless vehicles.

Alberta – Recently completed review of disabled parking placard program. Only a few could approve their issuance. Have expanded number of outlets from which Albertan's can obtain parking placard. Several years ago, Hutterites filed suit to not have their images on DLs. After seven years, they have all agreed to have their image on a DL.

Oregon – Real ID three bills introduced, fourth in the works. More interest this year than in the past 10. DOT Introduced fee bill again; based on fee study. Being considered as part of bigger package. One bill proposes increases in minimum threshold for damage reporting. Would move from \$1,500 to \$3,000. Should result in some workload savings. Little resistance so far. Bill to expand Road Usage Charge to make mandatory with 2026 vehicles. Discussion about flat annual user charge as an alternative to those who don't want to be tracked. Pat said Washington is exploring the alternative option as part their pilot. Ready to do rulemaking for non-binary sex indicator. Have held several town halls to receive input and will start rulemaking process next month. System changes are required by DMV, state police, and other stakeholders who interface with their system. In contract negotiations with potential system mod vendor.

Saskatchewan – Looking at electronic registration pink cards like Alberta. Adopted tougher drinking and driving laws on January 1. Zero tolerance for under 21 and all novice drivers. SK leads the rest of the country in drinking and driving deaths and are working to lower their numbers.

Arizona – Working to implement e titling system in June. Will go live with dealers first and in addition to e lien and tilting, will include dealer reassignments and consumer to dealer transactions. Early release of title and registration system now projected for the end of 2018.

Alaska – Real ID being considered by legislature. Progress lagging due to talk of federal repeal of program. Marla asked about state's experiences with denied entry to military bases for non-compliance. Pat said Washington has information to share.

Region IV Business – Pat advised that Region IV is looking for volunteers to serve on the Region IV Board. Those interested should contact Tom McClellan or Sheila. Region IV is providing travel grant funding to attend the Regional. Information was sent to Chief Administrators. Applications are due to March 24. Contact Sheila or questions or to submit an application. Pat advised that she asked CCMTA for input as to what they'd like to see on the Region IV agenda. Sheila said AAMVA hopes to have Region IV conference registration live by the end of the week.

Next call – The next call is scheduled for May 20 at 2:00 p.m. mountain.

sp

Five megatrends and possible implications

November 2013

pwc

Introduction

The world is changing at a breathtaking pace. Never before has (r)evolution occurred in such short periods of time. In 2011—attributed to social media—the Egyptian government fell in 17 days; market dominance can be lost to completely new entrants; leaders who do not understand and listen to their stakeholders and who lack the willingness and ability to change will be passed by, as their markets and customers move without them.

There are several key trends acting together. They are inescapable and they are here now. Successful organisations will be the ones who can adapt to these trends and discover how to treat them as opportunities. We invite you to review these trends and consider how you will adapt and thrive.

Blair Sheppard
Strategy and Leadership, PwC

Megatrend *One*

Demographic shifts

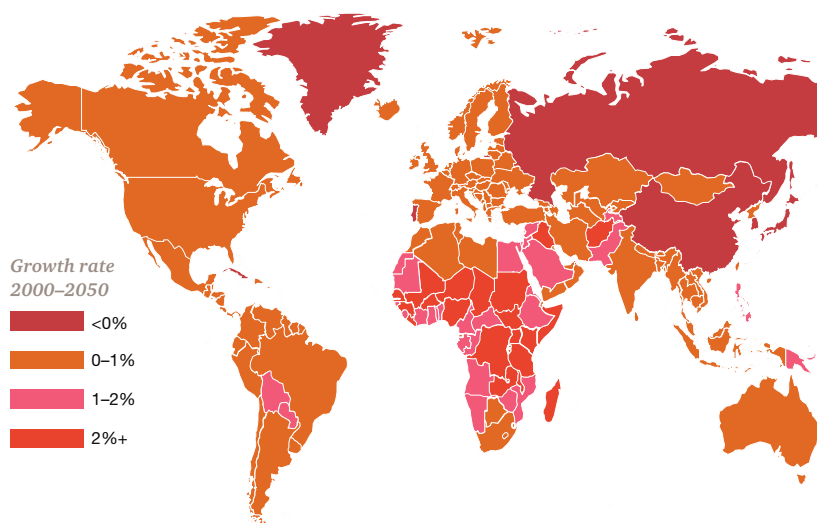

Explosive population growth in some areas against declines in others contributes to everything from shifts in economic power to resource scarcity to the changes in societal norms.

Countries have very different demographic trajectories. Some societies are aging rapidly and their workforces will be constrained as a share of the total population.

Other societies are young and growing, which will create ever larger labor forces and consumer markets.

Youthful, growing populations must be fed, housed, educated, and employed for productive potential to be realized.

Annual population growth rate, 2010–2050 (medium variant)

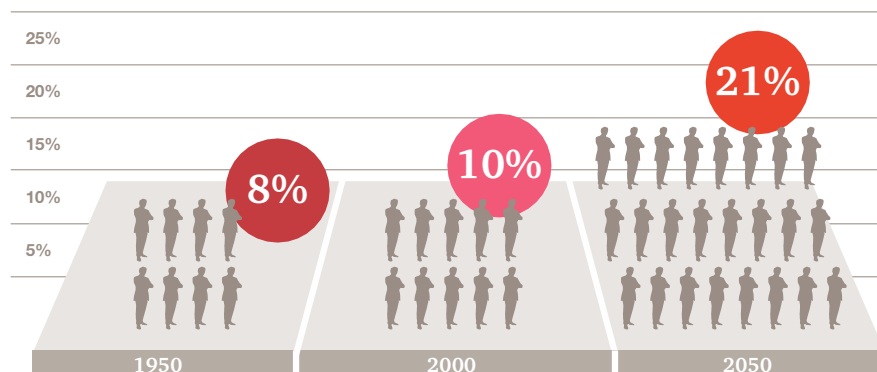

Source: UN Department of Economic and Social Affairs.

Possible implications

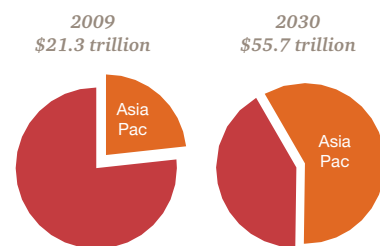

- As the population ages in mature economies and the ability to use debt is limited, governments may come under pressure to raise taxes to maintain social programs.
- Shifts in longevity may affect business models, pension costs, talent goals/ambitions.
- Societal and political pressure to create jobs may increase, especially for older workers and the “have nots.”
- Health systems may need to be re-engineered (and paid for) to handle many more participants in economies which will often see declining GDP.
- The workforce may need to be retooled in all parts of the world: in the aging economies, older workers will need to learn new skills and work longer, and their work may have to be supplemented by migrant populations. In emerging growth markets, the gaps between supply and demand for those with university-level education will have to be filled.

Proportion of the world population aged 60 years or more

Source: UN report World Population Ageing 1950–2050.

Spending of the global middle class, in 2005 US\$ PPP

Source: Data taken from OECD Development Centre Working Paper number 285, “The Emerging Middle Class In Developing Countries,” January 2010.

Megatrend *two*

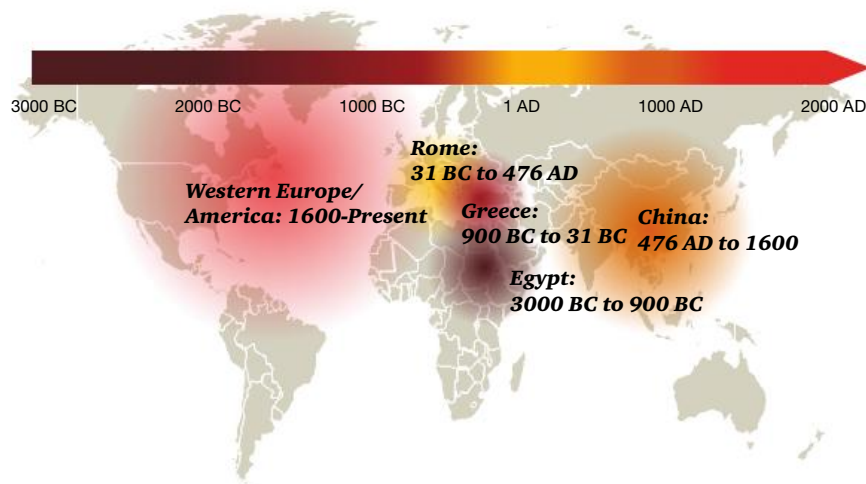

Shift in economic power

The focus of global growth has shifted. Western economic dominance is a relatively recent phenomenon and the developments we see are essentially a rebalancing of the global economies.

A realignment of global economic and business activity is transitioning BRIC and other growth countries from centers of labor and production to consumption-oriented economies. As they become exporters of capital, talent and innovation, the direction of capital flows is being adjusted.

Along with the growth and size of the emerging markets, it's important to appreciate the interconnectivity of the trade and investment flows between them, which are growing much faster than the traditional routes from developed-to-emerging and developed-to-developed countries.

Western economic dominance is a recent development

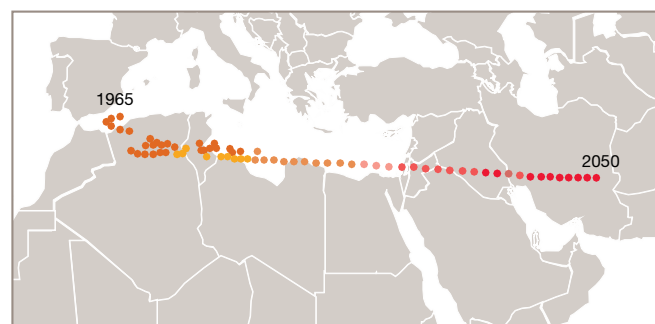

Source: PwC Analysis.

Possible implications

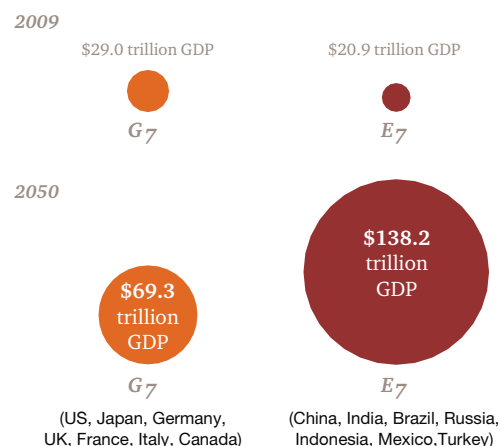

- The increasingly multi-polar world created by the shift from largely Western-led global organizations to regional players may reshape the competitive environment for companies.
- Competing versions of capitalism could arise as well as an array of planned economies. Planned economies could create/support new global champions in strategically important business sectors.
- Mature markets may lose influence and capital and become less attractive for talent and business. Governments increasingly may compete using tax and regulation as well as investment support.
- Competition generated from new geographies and sources may create different competitor profiles than those historically faced.

Megatrend *three*

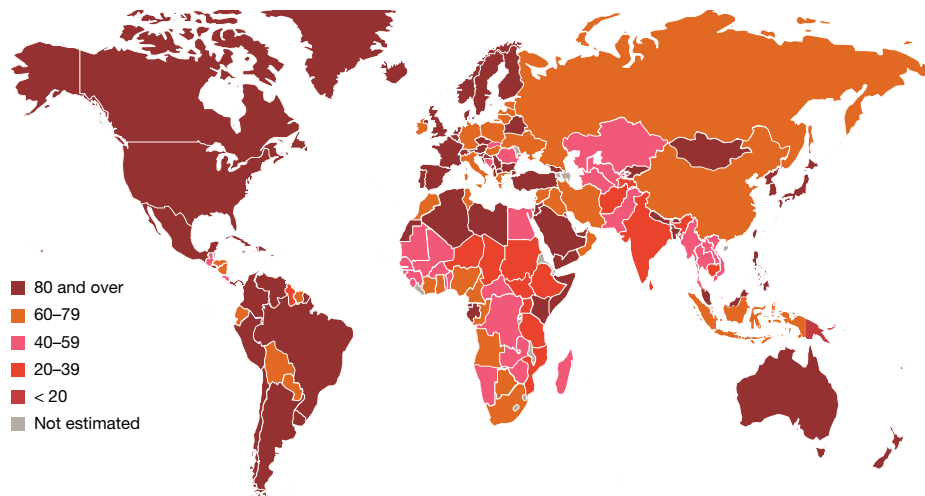

Accelerating urbanization

In the 1950s, less than 30% of the world's population lived in cities. Currently, that proportion has risen to 50% and, by 2030, the UN projects that some 4.9 billion people will be urban dwellers. By 2015, the UN estimates that there will be 22 mega-cities—those with populations of 10 million or more—with 17 located in developing economies. By 2050, the world's urban population will have increased by some 72%.¹

Much of the growth in urban population will likely take place in Asia and Africa. Large scale migrations from rural areas will power much of this growth.

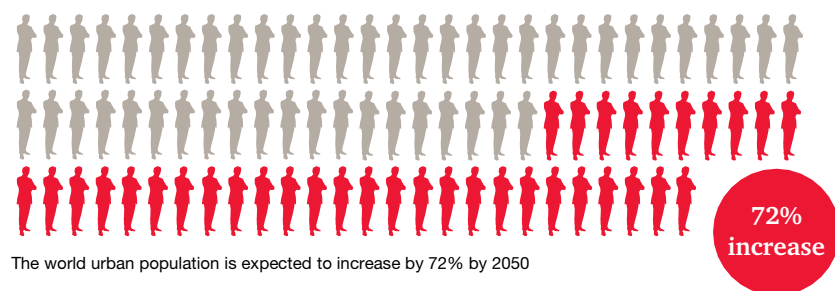

In developed economies and older cities in the developing world, infrastructure will be strained to the utmost—and beyond—as populations expand. Meanwhile, in emerging economies, new cities will rise rapidly and require massive investments in smart infrastructure to accommodate explosive growth.

Percentage of population in urban areas, 2030

Source: UN Department of Economic and Social Affairs.

World urban population

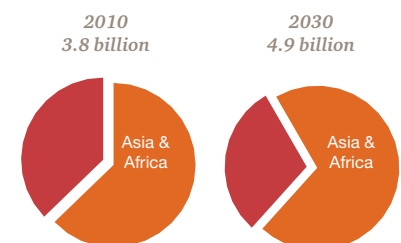

Source: World Urbanization Prospects: 2011 Revision, Produced by the UN Department of Economic and Social Affairs.

Possible implications

- As megacities grow in breadth and number, many analysts believe that their power will rival that of national governments due to the sheer size of their constituencies.
- Megaprojects will be required to build city infrastructure, support new trade flows (airports, sea ports), address education, health, security, employment demands, etc.
- Concentrated populations in city-states will increase the rate of information access and social media.

World urban population by major region

Megatrend *four*

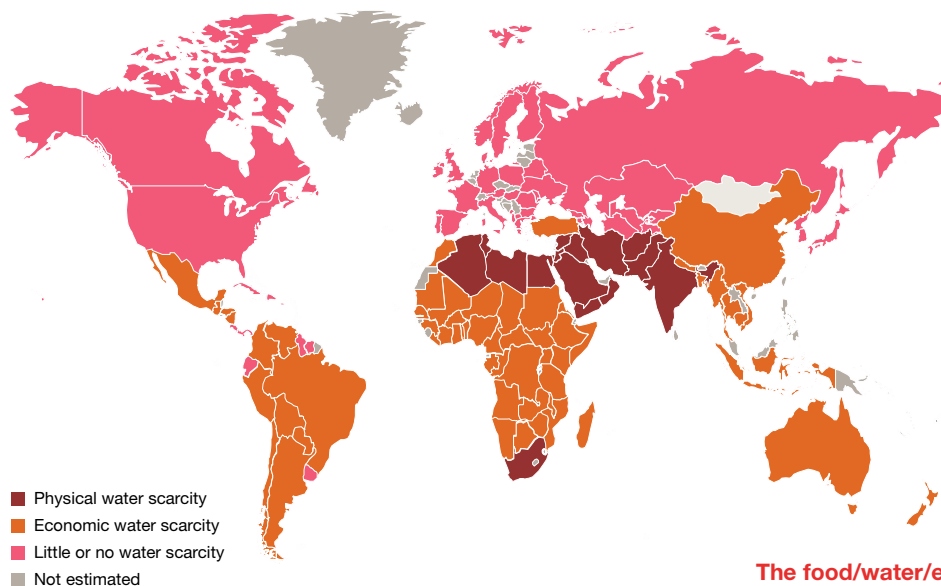

Climate change and resource scarcity

Scarcity of resources and the impact of climate change are of growing economic concern. Demand for energy is forecast to increase by as much as 50% by 2030, and water withdrawals by 40%¹

Impacts may include increases in extreme weather and rising sea levels, which could make traditional methods of farming, hunting and fishing difficult or impossible in some places.

The need for sustainable solutions may well be at odds with the need for resources to fuel growth and feed populations. Time-honored traditions will be challenged by changes to the physical environment.

Projected water scarcity in 2025

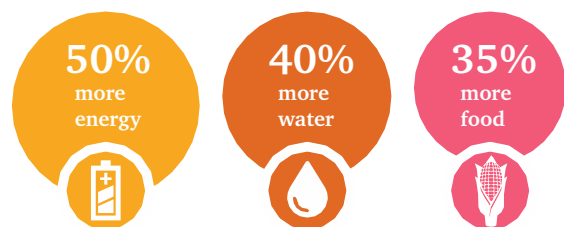

Source: International Water Management Institute.

Possible implications

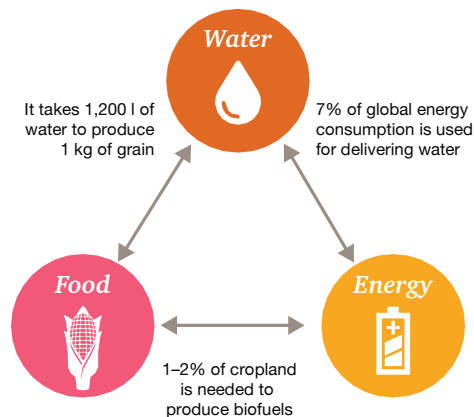

- Securing resources domestically and internationally via strategic relationships becomes even more critical for governments and businesses.
- Increased conflict and political tension especially over resources may occur as food, energy and water patterns change.
- Increased level of regulation, both directly relating to environmental changes and indirectly through taxation and similar types of incentives/disincentives.
- New industries created, or existing ones revolutionized, in response to energy scarcity, climate change and lack of resources; the pace of these changes will be accelerated by new technologies.

With a population of 8.3 billion people by 2030, we'll need...

Megatrend *five*

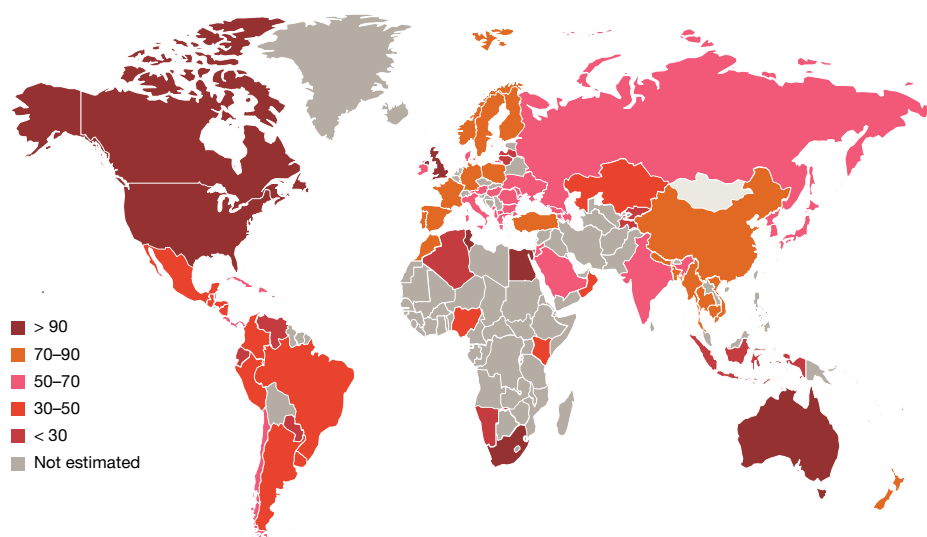

Technological breakthroughs

Breakthroughs in nanotechnology and other frontiers of research and development are increasing productive potential and opening up new investment opportunities.

Entire new industries are being created, which could have a significant impact on the size and shape of the world's manufacturing, and high-tech sectors and the companies that operate within them.

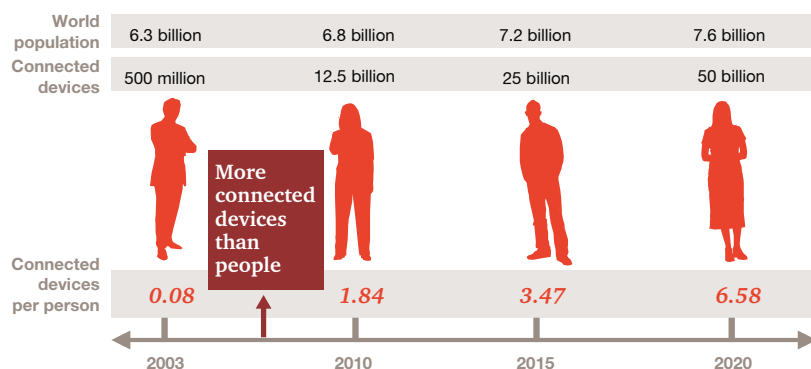

The combination of the internet, mobile devices, data analytics and cloud computing will continue to transform our world. Many companies across all sectors are grappling with how these developments will affect consumer expectations, the way they interact with their customers and the underlying business models that support this.

Venture capital and private equity country attractiveness index

Source: The Global Venture Capital and Private Equity Country Attractiveness Index, IESE Business School, 2013.

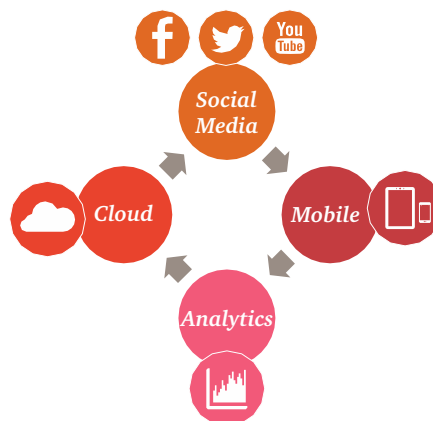

The rise of the "Internet of Things"

Source: Cisco Internet Business Solutions Group, April 2011.

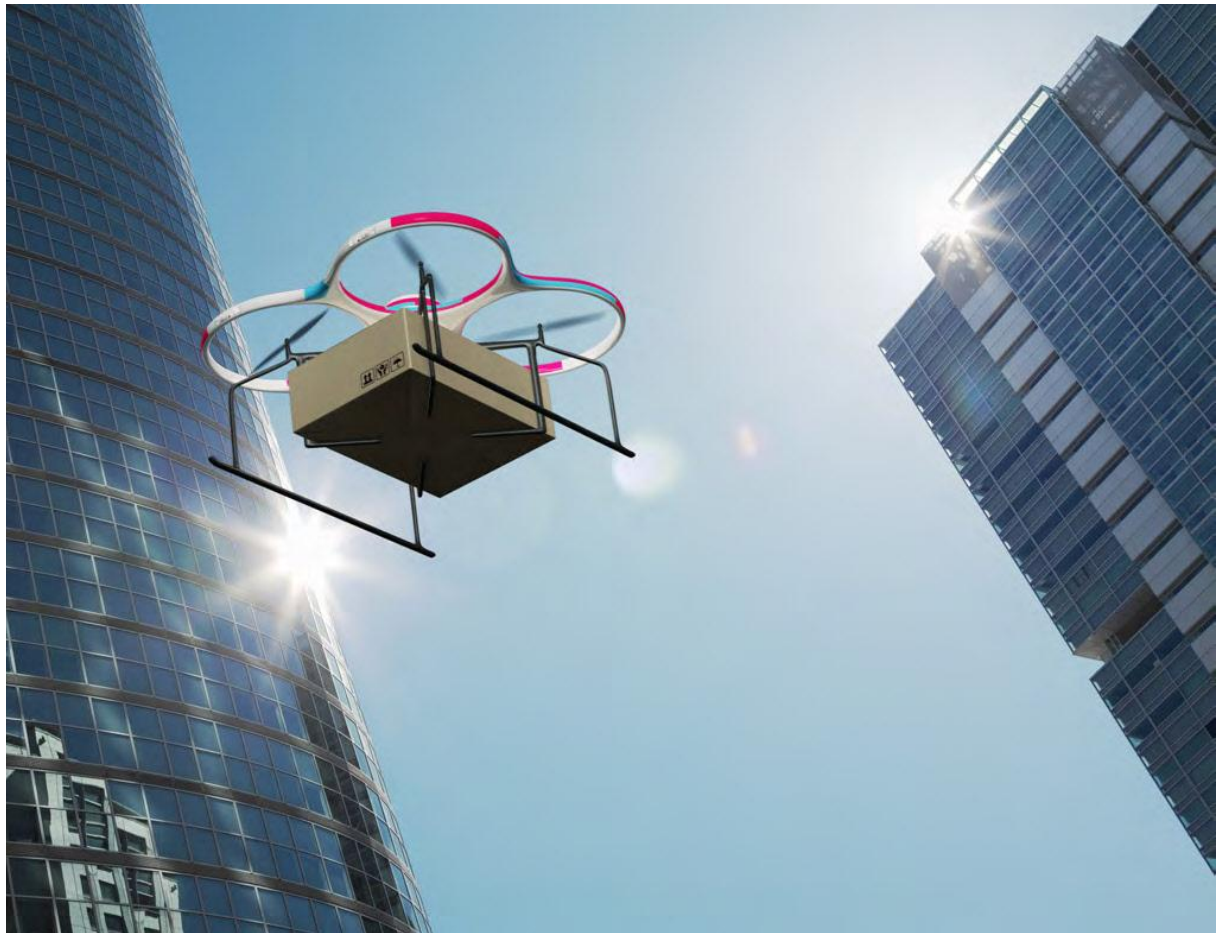

Possible implications

- Technology will enable virtual versus physical business and operating models.
- Assets (and liabilities) will be increasingly accessed on flexible terms: where previously assets were primarily available to own, adaptable businesses now provide them for rent in innovative ways.
- Access to systems and information should enable management models to flatten organizational structures.
- New competitors will emerge as technology and innovation create new competitive advantages and increase productivity across sectors and geographies.
- The ability to gather and analyze data in real time may become a requirement for doing business, rather than a competitive advantage.

Tech breakthroughs megatrend: how to prepare for its impact

How to prepare for the technological breakthroughs megatrend, and the eight technologies to start with

www.pwc.com/techmegatrend

The technological breakthroughs megatrend is manifesting itself in a proliferation of technologies. To remain relevant and to succeed, emerging technology strategy needs to be a part of every company's corporate strategy. The most pertinent technologies—and the corresponding strategy—will of course vary from company to company; but our analysis of more than 150 emerging technologies pinpoints the eight that most C-suites should start with. Here's a look at what sets those technologies apart—and what business leaders now need to do about them, and emerging technologies in general.

In this issue

- 2 What makes technological breakthroughs a megatrend?
- 5 The Essential Eight technologies that matter
- 9 A three-part guideline to help business leaders respond productively to emerging technologies

How can c-suites even begin to make sense of the swirl of technological breakthroughs affecting business today?

“Jim, how do all these AI breakthroughs impact our IoT strategy?”

That’s the kind of question that CEOs are much more likely to get these days from some board members. It’s rarely a comfortable question—whether it’s actually about artificial intelligence or any of dozens of fast-developing technologies, and whether it is asked conversationally or out of serious strategic concern.

Given the sheer pace and acceleration of technological advances in recent years, business leaders can be forgiven for feeling dazed and perhaps a little frustrated. When we talked to CEOs as part of our annual Global CEO Survey, 61% of them told us they were concerned about the speed of technological change in their industries.¹ Sure, more and more C-suite executives are genuinely tech-savvy—increasingly effective champions for their companies’ IT vision—and more and more of them know that digital disruption can be friend as well as enemy. But it’s fair to say that most struggle to find the time and energy necessary to keep up with the technologies driving transformation across every industry and in every part of the world.

To help CEOs on their technology journeys, we’ve been evaluating more than 150 technologies globally and developing a methodology to help identify the ones most pertinent to a given company or industry. Additionally, we’ve been filtering for those that will have the greatest impact on the widest range of industries over the coming years. This article shines the spotlight on those eight technologies that we contend will be the most influential on businesses worldwide in the very near future—the ones we call the “Essential Eight.” The article also sketches out a three-part guideline to help business leaders respond productively to emerging technologies by incorporating them into their overall strategy with the Essential Eight as a good starting point.

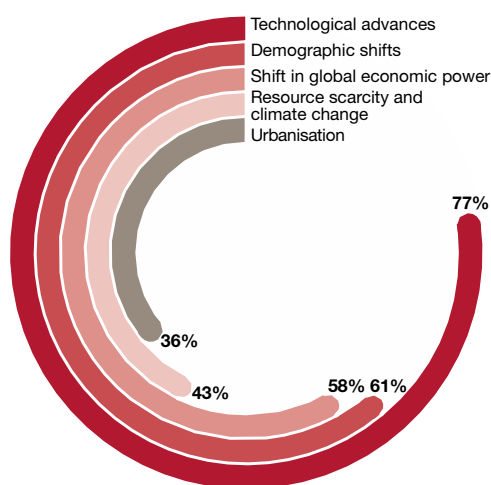

¹ PwC, 19th Annual Global CEO survey, January 2016

What makes technological breakthroughs a megatrend?

Figure 1: CEOs are certain about what will affect their businesses most¹

Q: Please rank the top three global trends which you believe will be most likely to transform wider stakeholder expectations of business within your sector over the next five years.

Source: PwC, 19th Annual Global CEO survey, January 2016

History is littered with companies that have waited out the *Next New Thing* in the belief that it's a technology trend that won't amount to much, or that won't affect their industries for decades. Yet disruption happens. It's safe to say that the history of humankind is a history of disruption—a stream of innovations that have tipped the balance in favor of the innovators. In that sense, technological breakthroughs are the original megatrend. What's unique in the 21st century, though, is the ubiquity of technology, together with its accessibility, reach, depth, and impact.

The technological breakthroughs megatrend directly impacts every other megatrend. Every industry feels its influence now, and so does every company, of every size—everywhere. There is still a significant digital divide, but for the first time, the developed and developing worlds are using similar platforms, including the Internet, social media, and mobile technologies. Farmers in India track crop prices on their mobile phones; Kenyan and South African entrepreneurs crowdfund their new ventures.^{2,3} There's new competition: Google and Uber are delving into driverless automobiles; Silicon Valley startups are competing with long-established defense contractors; and the health insurance industry is being overrun by companies that started out as SaaS (software-as-a-service) providers.⁴

Business leaders worldwide acknowledge these changes, and have a clear sense of their significance. We asked CEOs what they believe will most shape stakeholders' expectations about businesses in their industries over the next five years. Our respondents were unequivocal in pointing to technological advances as the most influential by far (see Figure 1).

² Vikas Vasudeva, "Agriculture Ministry launches two mobile apps for farmers," *The Hindu*, December 24, 2015

³ Gabriella Mulligan, "Africa discovers the power of crowdfunding," *BBC*, June 19, 2015

⁴ Strategy&, 2016 Technology Industry Trends, January 2016

CEOs don't single out any particular catalyst that leads them to that conclusion. But we maintain that technological advancements are appearing, rapidly and simultaneously, in fields as disparate as healthcare and industrial manufacturing, because of the following concurrent factors:

- **Cheaper access to technology.** The three fundamental technologies of computation, storage, and connectivity are exponentially cheaper and more capable today than just a few decades ago (see Figure 2). The rapid growth of the Internet, mobility, and cloud computing, combined with the open-source movement and increased access to capital, has lowered the barriers to entry for startups and nontraditional competitors, enabling them to scale swiftly and to upend the playing field in industry after industry.
- **Globalization of technology.** For the first time, the developed and developing worlds are creating, collaborating, communicating, and consuming on similar technology platforms, spurring global innovation. Of the 146 “tech unicorns” tracked by the *Wall Street Journal*, 27% come from the Asia-Pacific region, up from 20% two years ago.⁵ These highly valued, fast-growth newcomers have global ambitions and are developing innovative platforms for use in sectors as diverse as finance, online-to-offline services, and the sharing economy.
- **Increased comfort with technology.** The more we all use the Internet, laptops, mobile devices, collaboration tools, and other technologies in our personal and professional lives, the more society is comfortable with all things technology. Business users now expect the same ease of use in their workplace technologies that they experience with their personal devices, revealing consumer technology’s huge influence.⁶
- **The competitive advantage of technology.** Our Digital IQ survey found that companies that are technology leaders in their industries are twice as likely to achieve rapid revenue and profit growth as the laggards.⁷ Originally seen largely as a tool for improving efficiency—doing the same things better and more cheaply—technological innovations are now the fastest means of opening up new revenue streams and transforming traditional industries.
- **Multiplier effect of technology.** Individual technologies build on each other and amplify each other’s effects, setting the stage for what some are calling a “fourth industrial revolution.”⁸ As participants noted at a recent technology panel hosted by PwC, artificial intelligence—an emerging technology—is the motive force behind robots (another evolving technology) transitioning beyond the factory floor and into hotels and office suites.

The eight emerging technologies you should absolutely consider

Figure 3. The Essential Eight emerging technologies

Collectively, those driving factors are forcing big questions to the surface—questions that C-suite executives themselves are asking. Explains Chris Curran, PwC US's Chief Technologist: "Where should we start exploring emerging technologies? What technologies should we invest in? How do we stay current? How do we reduce the associated risks of failure? These are the types of questions we're getting from CEOs."

To help provide answers, we track more than 150 discrete technologies, and have developed a methodology to identify the most pertinent of those technologies; the aperture being flexible enough to scale from a business unit to a company, an industry, or even the global enterprise landscape as a whole. The multifactor criteria screens for business impact and commercial viability of these technological breakthroughs over the next five to seven years (and as little as three to five years in developed economies). Examples of these criteria include: the technologies' relevance to the company, the industry, or across multiple industries, ranging from banking and insurance to hospitality services and industrial process manufacturing; their global reach; their technical viability, including the potential to become mainstream; their market size and growth potential; and the pace of public and private investment in them (see Figure 3).

The Essential Eight technologies that matter now

1. **Artificial intelligence (AI).** Software algorithms that are capable of performing tasks that normally require human intelligence, such as visual perception, speech recognition, decision-making, and language translation. AI is an “umbrella” concept that is made up of numerous subfields such as machine learning, which focuses on the development of programs that can teach themselves to learn, understand, reason, plan, and act (i.e., become more “intelligent”) when exposed to new data in the right quantities.
2. **Augmented reality (AR).** Addition of information or visuals to the physical world, via a graphics and/or audio overlay, to improve the user experience for a task or a product. This “augmentation” of the real world is achieved via supplemental devices that render and display said information. AR is distinct from Virtual Reality (VR); the latter being designed and used to re-create reality within a confined experience.
3. **Blockchain.** Distributed electronic ledger that uses software algorithms to record and confirm transactions with reliability and anonymity. The record of events is shared between many parties and information once entered cannot be altered, as the downstream chain reinforces upstream transactions.
4. **Drones.** Air- or water-based devices and vehicles, for example Unmanned Aerial Vehicles (UAV), that fly or move without an on-board human pilot. Drones can operate autonomously (via on-board computers) on a predefined flight plan or be controlled remotely. (Note: This category is distinct from autonomous land-based vehicles.)
5. **Internet of Things (IoT).** Network of objects — devices, vehicles, etc. — embedded with sensors, software, network connectivity, and compute capability, that can collect and exchange data over the Internet. IoT enables devices to be connected and remotely monitored or controlled. The term IoT has come to represent any device that is now “connected” and accessible via a network connection. The Industrial IoT (IIoT) is a subset of IoT and refers to its use in manufacturing and industrial sectors.
6. **Robots.** Electro-mechanical machines or virtual agents that automate, augment or assist human activities, autonomously or according to set instructions — often a computer program. (Note: Drones are also robots, but we list them as a separate technology.)
7. **Virtual reality (VR).** Computer-generated simulation of a three-dimensional image or a complete environment, within a defined and contained space (unlike AR), that viewers can interact with in realistic ways. VR is intended to be an immersive experience and typically requires equipment, most commonly a helmet/headset.
8. **3D printing.** Additive manufacturing techniques used to create three-dimensional objects based on digital models by layering or “printing” successive layers of materials. 3D printing relies on innovative “inks” including plastic, metal, and more recently, glass and wood.

The specific technologies most impactful to a company can—and likely will—vary, of course, but when we analyzed for technologies with the most cross-industry and global impact over the coming years, eight technologies emerged (see “The Essential Eight: Technologies That Matter Now”). They are at varying degrees of maturity; some have been around for years but are finally hitting their stride, while others are maturing rapidly. None will be surprising to CEOs; they are regular subjects of often breathless coverage in popular newspaper coverage.

So what exactly do we mean by “impact”? We believe that these technologies will shake things up across all five aspects of your business model—some in very beneficial ways, and some in quite challenging ways, as seen in the following snapshots ⁹:

- **Strategy:** If strategy is about defining “what business to pursue,” then these technologies are opening up a slew of new opportunities and corresponding considerations. IoT (and Industrial Internet of Things, IIoT), for example, are giving manufacturers the ability to “sensorify” their existing products, creating “intelligent” new offerings with value-added analytics and software services to go with them.¹⁰ In some cases, these new offerings require a comprehensive rethink of innovation and portfolio strategies. In other cases, they may necessitate fresh go-to-market and even merger and acquisition strategies.

But the technologies can accelerate and amplify bigger shifts: manufacturers’ moves into service sectors, for instance, or fluid joint ventures with other corporate entities to leverage broad technology platforms for mutual advantage. For instance, John Deere recently purchased portions of Monsanto’s precision planting business unit, helping redefine Deere not just as a maker of big tractors but as a prime mover in the business of “digital agriculture.”¹¹

Customer engagement and robots

Nao is a customer service robot being piloted by Mitsubishi UFJ Financial Group, Japan’s biggest bank. Nao’s visual and auditory “senses,” connected to advanced artificial intelligence, allow it to “see” customers, recognizing them and the tone of their voices. Nao thus has rich interactions with customers, greeting them in their native language (it understands and speaks 19). It can support human staff during rush hours or special events that draw more foreigners to the bank. If Nao performs well, the bank is likely to employ more robotic staff in pursuit of better customer service.

- **Customer Engagement:** The Essential Eight technologies are already reshaping almost every dimension of companies' interactions with their customers, from sales and marketing to billing and after-sales support. Just one example: artificial intelligence, applied as machine learning, for instance, can help process volumes of customer-behavior data to identify patterns that enterprises can use to improve customer engagement (see sidebar on "Nao" the robot ¹²).
- **Operations:** Artificial intelligence, robots, drones, and 3D printing can all improve operational efficiency and provide significant competitive advantage. Consider the following data point: we've determined that in the hospitality industry, service robots can drive down the cost of deliveries by one or two orders of magnitude. ¹³ Is it any wonder therefore that we see continued adoption of robots across an array of business sectors? ¹⁴

At the same time, 3D printing is set to shrink supply chains, cut product development times, and broaden offerings for customers that expect products tailored to their preferences and needs.¹⁵ And early adopters of virtual reality and augmented reality are already reaping benefits (see Figure 4).¹⁶ The accompanying box showcases how Boeing and DHL are using augmented reality to be both faster and more efficient.¹⁷

Figure 4. Virtual reality and augmented reality get down to work

Q: How is your company using virtual and/or augmented reality technology? Please select all that apply

Number of respondents: 98
Source: PwC and Zpryme survey and analysis, "2015 Disruptive Manufacturing Innovations Survey," conducted in November 2015

Operations and augmented reality

At Boeing, factory trainees assembling a mock airplane wing worked 30% faster and 90% more accurately using AR-animated instructions on tablets than trainees using instructions in PDF documents. Meanwhile, DHL equipped its warehouse workers with AR-enabled smart glasses that guided them through item picking for order fulfillment, resulting in fewer errors and a 25% increase in efficiency.

Figure 5. More robots, new roles, fewer jobs?

Source: PwC, CEO Agenda: Pulse on Robotics, 2016

- **People and talent:** The Essential Eight technologies are creating brand-new job categories, but a worrying consequence may be slower job growth. Our CEO Pulse survey showed that 56% of global CEOs expect the widening use of robots to reduce head count over the next five years (see Figure 5).¹⁸ A recent Citibank report contended that the banking industry could lose up to 30% of its workforce over the next 10 years owing to technologies such as AI and blockchain.¹⁹ Concurrently, new technologies beget new companies (Google, just 18 years old, has more than 61,000 employees) and new job categories (the job of a data scientist was all but unknown a decade ago). So employers will have to determine how to integrate machines into their talent pools and, at the same time, determine how to hire, retain, and develop the talent they need—talent that may need to embrace their machine-colleagues rather than fear them.
- **Compliance:** This is an often overlooked aspect of the business model. We believe the shortlisted technologies will see many companies scrambling to adapt to—and trying to influence—the resulting regulatory landscapes. The regulators themselves are likely to be in a catch-up mode for a while. How do we protect the data collected by billions of IoT devices? How is blockchain regulated (see sidebar)? How do we plan for liability and insurance considerations as drones and service robots proliferate? Questions like these are no longer hypothetical. There have already been quite a few high-profile incidents where drones have entered airspace reserved for commercial aircraft, and have injured humans.

Compliance and blockchain

We anticipate that new blockchain technology will do much to transform the compliance practices of enterprises large and small. As we noted in our recent article, blockchain enables a “central, immutable ledger of transactions” that “would allow auditors and regulators to rapidly monitor the flow of financial data, avoiding after-the-fact verification.” However, there is still significant debate about how this technology gets monitored and regulated.²⁰

¹⁸ PwC, CEO Agenda: Pulse on Robotics, 2016

Your job now

So what should CEOs and their leadership teams do with such brief glimpses of the business impact of these influential technologies? For starters, it is best not to treat the technologies as a kind of checklist to delegate to the CIO or the CTO. Instead, CEOs must take very seriously their own obligations to turn these technologies to strategic advantage—and to protect their organizations against others using the technologies for advantage. If that sounds something like an arms race, that's because it is: technology must be viewed as a competitive weapon, one that merits regular discussion and decision-making in the C-suite.

Technological breakthroughs megatrend is manifesting itself as a proliferation of technologies - the Essential Eight, and hundreds more. The tracking, evaluation, and action plan development for these emerging technologies, while a complex and involved undertaking, should now be an integral component of the overall corporate strategy. To do so, there are three questions that the C-suite must find effective answers to:

- 1) Do we have a sustainable innovation strategy and process?
- 2) Have we quantified the impact of new technologies? If not, how can we do that—and how soon?
- 3) Do we have an emerging-technologies road map? If so, are we keeping it up to date?

Answers to these fundamental questions will give you the meta-actions—moves that enable the executive team as a whole to properly and effectively harness the best new technologies.

Tracking, evaluating, and developing the action plan for emerging technologies should be an integral component of the overall corporate strategy.

1.

Do we have a sustainable innovation strategy and process?

Our research shows ²¹ that the most successful companies shape their future by creating the change they want to see. They do not respond to external changes as rapidly as possible—which is another way of saying that they do not chase the next exciting emerging technology as soon as it emerges. It is therefore vital to build an innovation strategy, capability, and culture that allows you and your leadership team to engage in profitable pursuit of emerging technologies aligned to your “Way to Play” (i.e., how you create value for your customers in the market).²²

For a sustainable and repeatable innovation strategy and process, here are some things you will need to solve for:

- **Funding:** How will we fund the emerging-technology-driven innovation? Will there be a separate investment pool or will each organization be given flexibility to pursue investments within guidelines? If the former, will existing profit centers be taxed or will it be part of the corporate overhead?
- **Portfolio fit:** How will the emerging-technology pursuit fit within the overall product and services portfolio? Will it be under a separate unit or an overlay organization, or will there be incubation factories within existing organizations? Running innovation through the standard operating procedure is often a recipe for failure, so new development and go-to-market processes might be needed. What are the best ones for us? How do we mitigate risk? How do we convert successful experiments to mainstream products and services?
- **Accountability:** Emerging-technology strategy will require myriad business and technology trade-offs. Who is the senior executive on whose desk the buck finally stops? Should the CEO helm the process, or should the chief strategy officer? What about a business-line leader? Regardless of the choice, we suggest two things: the person should be experienced and seasoned in running a business, and the CEO’s involvement should be hands-on.
- **Metrics and monitoring:** What does success look like? How do you make it “safe to fail” ²³? What are the milestones—public and private—you are shooting for? What is the time frame for those milestones? How will you monitor progress against those milestones? How will you ensure that the monitoring is not stifling?

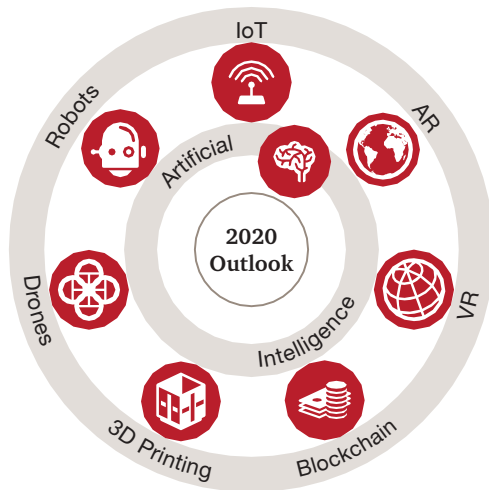

Our experience has shown that these answers have fundamental implications on both the capability systems and the culture of the company—so think hard, think well, and be bold but also pragmatic.

²³ *strategy+business*, “10 Principles of Strategic Leadership”, May 18, 2016

Figure 6. The Essential Eight emerging technologies

2.

Have we quantified the impact of new technologies? If not, how can we do that—and how soon?

Championed by the CEO, the corporate strategy team should quantify the effect of these emerging technologies on all aspects of the company's business model. The team has to look both externally (in terms of new products and services, new competitors, and new substitutes made possible by the technologies) and internally (using the technologies to improve operational efficiencies and to accelerate time to market).

The overarching task is to identify the technologies that provide the greatest opportunities for growth, including expansion into adjacent markets and increasing efficiencies, with the proviso that there is a net increase in value for the enterprise. We acknowledge that this is a complex task. We have highlighted the Essential Eight emerging technologies (see Figure 6) that should definitely be on your radar, but there are hundreds more out there. The timeline and number of technologies to emphasize will vary depending on multiple factors, such as the company's size and its capabilities, its culture, its shareholders, and the industry it is part of. This is exactly the kind of problem our emerging-technologies methodology is designed to help enterprises with.

The lead technologists in the company (e.g., the CTO and the CIO) should be an integral part of this identification process from the get-go. Finally, keep in mind: it is critical, early in the technology identification process, to involve influential leaders from select lines of business because they are often closer to customers than the top team is. One thing to watch out for, though: inclusiveness must not overshadow agility.

Once the technologies with highest impact have been shortlisted (as admitted, not an overnight exercise and one deserving sustained C-suite focus), it's time to involve the relevant line(s)-of-business executives who can help prototype them. This has to be an iterative process, changing as fresh opportunities come along. Prototypes that show promise should be expanded; those that don't work, halted. All along, CEOs should keep their hands on the steering wheel, so the effort doesn't turn into a functional crusade instead of a strategic endeavor.

3.

Do we have an emerging-technologies road map?

If so, are we keeping it up to date?

With confidence about the company's strategic vision, a sustainable innovation process in place, and a clear view of the technologies that will matter most to the company over the next half-dozen years, it's time to draw up the road maps that will guide the application and implementation of those technologies across the enterprise and the customer base. The company's product and technology organizations should collaborate on creating these product and service road maps. The process of creating the maps should be led by the business side of the house in order to create alignment to the enterprise goals and to cement broad buy-in across the organization.

The emerging-technology road maps cannot, of course, stand on their own; they've got to be aligned to your innovation strategy and integrated into your overall product and services portfolio. A road map that is not appropriately funded struggles to be much more than a great thought experiment. We are not saying that the road map execution necessarily needs to go through your regular development process, but we do contend that the cost and time allocation must be deliberate, clearly thought through, and continuously monitored (this is where broad business buy-in is very helpful).

A defining characteristic of the digital age is the rapid pace of change and disruption. The upshot? No technology plan is "one and done"; it must be continuously revisited, refreshed, and reworked. As pointed out, successful companies do not chase change. However, the days of static five-year road maps are over. You need a robust review mechanism of your product and services road maps and innovation strategy across your portfolio. It demands pragmatism in pruning parts of the product and services portfolio that are not delivering (and reallocating their funding)—and doubling down on the ones that show the most promise (with an eventual plan for mainstreaming should they demonstrate success). It means keeping the lines of business involved and the cross-organization lines of communication open.

This is a delicate balancing act; there's a real risk of creating more churn and uncertainty than the organization can handle. This is why choosing the right executive leader and the hands-on involvement of the CEO are critical.

No argument: it is not easy to stay ahead of emerging technologies

No argument: it is not easy to stay ahead of emerging technologies. But you really don't have a choice; your organization must adapt. By winnowing down the welter of possible technologies to a starting list of the Essential Eight, we hope we have helped provide some focus and clarity. More than that, we hope that we can begin to re-energize the C-suite's discussion of how best to leverage the right technologies in the right ways at the right time—for the right business reasons.

So, develop an innovation strategy and start making the exploration and quantification of emerging technologies (and planning for them) a core part of your corporate strategy. But before you do that, familiarize (or reacquaint) yourself with these technologies and what they can do: visit our Tech Breakthroughs Megatrend website to benefit from our experience, www.pwc.com/techmegatrend.

Subject: VOTE - MEC Inquiry Data Elements Survey

Dear CDLIS Working Group,

As per our call yesterday I am sending out a survey to obtain your state's preferences regarding what data elements should be included as **optional** data elements to search by for the MEC Inquiry.

The State/Driver License Number or Name/DOB combo will be required for the inquiry (meaning that one combination would be required).

Please respond to the survey no later than COB Wednesday March 1st.

Thank you!

Could one person from each state respond to the following questions:

1. Please indicate if your state would like any of the following data elements to be included as optional data elements for the inquiry message, if not please state why: *[Mina comment]* Yes to all of these in question 1.
 - a. Medical Examiner's Last Name
 - Yes
 - No
 - b. Medical Examiner's State
 - Yes
 - No
 - c. Medical Examiner's City
 - Yes
 - No
 - d. Medical Examiner's ZIP
 - Yes
 - No
 - e. Medical Examiner's Registry Number
 - Yes
 - No
 - f. Medical Examiner's Certificate Issue Date
 - Yes
 - No
 - g. Driver's City
 - Yes
 - No
 - h. Driver's ZIP
 - Yes
 - No
 - i. Include Expired MEC info – This indicator could be set if the state would like to receive expired MEC data (active data would be default)
 - Yes
 - No

- j. Include Pending/Incomplete MEC info – This indicator could be set if the state would like to receive incomplete MEC data (complete data would be the default)
 - Yes
 - No
2. If your response to 1f (above) was yes, please answer the following:
 - a. Do you think that searching an issue date by ‘date range’ would be beneficial? (i.e. Begin Date: 02/01/2017 and End Date: 02/28/2017). If not please indicate why-
 - Yes
 - No
 - b. Do you think that states should be able to enter a begin date and end date, or should the end date default to the current date?
 - Begin and end dates *[Mina comment]* begin and end dates only if end date can be left blank and default to today if begin date is entered. If this is not possible, then only begin date.
 - Only begin date
3. Do you think any other data elements should be added as optional elements for the inquiry? If yes, please choose from the list below which you think should be added and indicate why-
 - Yes
 - No

Medical Certificate Expiration Date
 Medical Examiner Telephone Number
 Medical Examiner Specialty Code
 Medical Examiner License Number
 CLP/CDL Applicant/Holder
 Medical Examiner’s Certificate Qualification Status
 Medical Examiner’s Certification Decision

4. In the event that we must limit the number of optional data elements to include as a part of the inquiry, please list your preferences in priority order below:

Optional Data Elements – Priority Order	
1	Medical Examiner’s Registry Number
2	Medical Examiner’s Last Name
3	Medical Examiner’s State
4	Medical Examiner’s City
5	Driver’s ZIP

Subject: RE: File naming
Attachments: UE message not working.docx

Good morning,

I am having an issue processing my files from the AK_CD34_REC_NOTUPDT_20170128080725_UPD list. I have tried deleting several of these (so I can re-add them properly) but even though I am matching AAMVA's RD record showing Realid conformant and doctype unknown (as a value 9), it is giving me errors:

INVALID STATE DOCUMENT TYPE
INVALID STATE DOCUMENT REAL ID CONFORMANT

However, if I try to put in the actual doc type and real id conformant it tells me that the record is not found. How should I correct these?

Attached is an example showing the RD and subsequent UE error, with PII redacted. What am I doing wrong?

Thank you!

Hi,

After the meeting today, we were able to play with linerule option in cozybatch to pull the duplicate file from Alaska in the appropriate format.

We were using the linerule as 'crlf' until now, but now we changed it to 'lf' and things started working for us.

No further action needed from Alaska on this.

Thanks and Regards,
Manish

Greetings Manish,

I have informed Alaska about you issue. I'll let you know when the file is back in your duplicates folder. It will probably have the same name as before, so take any precautions before we move it.

Thanks,

Tony Bauza (PSEPM)

Subject: RE: AK-WI Duplicates File Processing

Hello,

File has been retrieved, but we are having the same data formatting issue as we had with NE.
Could AK please resend AAMVA the file using Transfer options, referenced in the below note from Nebraska

" See that '.' Before the next State/DLN(NEH12980639) I am guessing that is a LF(line feed) character, that your system is not taking as an end of record marker. Most states do take it that way. But maybe you and WY need to have a CR(carriage return)/LF(line feed) pair at the end of the record.

WY gave me an option to put on my send to maybe supply this so let me try it.

I have put a new file into below folder, so AAMVA can you move it to WI again?

Folder NE/CD34/goliveduplicate/

File name NE_PROD_WI_NE_DUPL_20161222

It now has options
Transfer options: clientcp=IBM-1047,linerule=crlf,mode=text,"

Thanks and Regard,
Manish

Subject: VOTE - MEC Inquiry Data Elements Survey

Dear CDLIS Working Group,

As per our call yesterday I am sending out a survey to obtain your state's preferences regarding what data elements should be included as **optional** data elements to search by for the MEC Inquiry.

The State/Driver License Number or Name/DOB combo will be required for the inquiry (meaning that one combination would be required).

Please respond to the survey no later than COB Wednesday March 1st.

Thank you!

Could one person from each state respond to the following questions:

1. Please indicate if your state would like any of the following data elements to be included as optional data elements for the inquiry message, if not please state why: **[Mina comment] Yes to all of these in question 1.**

- a. Medical Examiner's Last Name
 - Yes
 - No
- b. Medical Examiner's State
 - Yes
 - No
- c. Medical Examiner's City
 - Yes
 - No
- d. Medical Examiner's ZIP
 - Yes
 - No
- e. Medical Examiner's Registry Number
 - Yes
 - No
- f. Medical Examiner's Certificate Issue Date
 - Yes
 - No
- g. Driver's City
 - Yes

- No
- h. Driver's ZIP
- Yes
 - No
- i. Include Expired MEC info – This indicator could be set if the state would like to receive expired MEC data (active data would be default)
- Yes
 - No
- j. Include Pending/Incomplete MEC info – This indicator could be set if the state would like to receive incomplete MEC data (complete data would be the default)
- Yes
 - No
2. If your response to 1f (above) was yes, please answer the following:
- a. Do you think that searching an issue date by 'date range' would be beneficial? (i.e. Begin Date: 02/01/2017 and End Date: 02/28/2017). If not please indicate why-
- Yes
 - No
- b. Do you think that states should be able to enter a begin date and end date, or should the end date default to the current date?
- **Begin and end dates** *[Mina comment]* begin and end dates only if end date can be left blank and default to today if begin date is entered. If this is not possible, then only begin date.
 - Only begin date
3. Do you think any other data elements should be added as optional elements for the inquiry? If yes, please choose from the list below which you think should be added and indicate why-
- Yes
 - No

Medical Certificate Expiration Date
 Medical Examiner Telephone Number
 Medical Examiner Specialty Code
 Medical Examiner License Number
 CLP/CDL Applicant/Holder
 Medical Examiner's Certificate Qualification Status
 Medical Examiner's Certification Decision

4. In the event that we must limit the number of optional data elements to include as a part of the inquiry, please list your preferences in priority order below:

Optional Data Elements – Priority Order	
1	Medical Examiner's Registry Number
2	Medical Examiner's Last Name

3	Medical Examiner's State
4	Medical Examiner's City
5	Driver's ZIP

Subject: VOTE - MEC Inquiry Data Elements Survey

Dear CDLIS Working Group,

As per our call yesterday I am sending out a survey to obtain your state's preferences regarding what data elements should be included as **optional** data elements to search by for the MEC Inquiry.

The State/Driver License Number or Name/DOB combo will be required for the inquiry (meaning that one combination would be required).

Please respond to the survey no later than COB Wednesday March 1st.

Thank you!

Could one person from each state respond to the following questions:

1. Please indicate if your state would like any of the following data elements to be included as optional data elements for the inquiry message, if not please state why:

a. Medical Examiner's Last Name

- Yes
- No

b. Medical Examiner's State

- Yes
- No

c. Medical Examiner's City

- Yes
- No

d. Medical Examiner's ZIP

- Yes
- No

e. Medical Examiner's Registry Number

- Yes
- No

f. Medical Examiner's Certificate Issue Date

- Yes
- No

g. Driver's City

- Yes
- No

h. Driver's ZIP

- Yes
- No

i. Include Expired MEC info – This indicator could be set if the state would like to receive expired MEC data (active data would be default)

- Yes
- No

j. Include Pending/Incomplete MEC info – This indicator could be set if the state would like to receive incomplete MEC data (complete data would be the default)

- Yes
- No

2. If your response to 1f (above) was yes, please answer the following:

a. Do you think that searching an issue date by 'date range' would be beneficial? (i.e. Begin Date: 02/01/2017 and End Date: 02/28/2017). If not please indicate why-

- Yes

- No
- b. Do you think that states should be able to enter a begin date and end date, or should the end date default to the current date?
- Begin and end dates
 - Only begin date
3. Do you think any other data elements should be added as optional elements for the inquiry? If yes, please choose from the list below which you think should be added and indicate why-
- Yes
 - No

Medical Certificate Expiration Date
 Medical Examiner Telephone Number
 Medical Examiner Specialty Code
 Medical Examiner License Number
 CLP/CDL Applicant/Holder
 Medical Examiner's Certificate Qualification Status
 Medical Examiner's Certification Decision

4. In the event that we must limit the number of optional data elements to include as a part of the inquiry, please list your preferences in priority order below:

Optional Data Elements – Priority Order	
1	Medical Examiner's Registry Number
2	Medical Examiner's Last Name
3	Medical Examiner's State
4	Medical Examiner's City
5	Driver's ZIP

S2S Pilot States Working Group.pdf; Survey on S2S Monthly Activities v1 2.docx

Good afternoon all,

Attached please find the minutes from Tuesday's Working Group call, along with a draft agenda for our next call. As mentioned on Tuesday, while our responsibilities as the pilot Working Group are complete, several states have requested that we continue meeting at our regularly scheduled time until the post-pilot WG subgroup is spun up. The purpose is to provide states with a venue for sharing information and suggestions related to S2S, talk about technical issues, potential duplicate situations, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send our way prior to the next call. Please note that our next call is scheduled for **Tuesday, March 7th, at 2pm eastern.**

Much thanks to all of you that have submitted your completed surveys throughout the S2S pilot. The information gathered has been extremely valuable in completing the S2S Pilot Evaluation Report and the S2S Best Practices document. **As a reminder, the Survey of S2S Pilot State Monthly Activities covering the month of February is due on March 7,** and is also attached to this email. The good news is that **this is the last monthly survey to fill out!!!** Woo hoo!!! If you are one of the states that is a month or two behind in submissions, feel free to just fill out one survey covering previous months – be sure to indicate the appropriate months in the "Months Covered" field. Information from this last survey will be used to complete a version 2 of the above two deliverables.

Thanks again to everyone for all your efforts and input throughout the pilot.

Nancy Carlson, PMP

AGENDA

1. Call to Order
The meeting was called to order by Steve Leak.
2. Approval of minutes from 02/07/2017 WG Call.
The minutes from the 02/07/2017 WG call were approved without revision..
3. Transition Plans (Pilot to Post-Pilot)
Philippe Guiot shared that the S2S Governance Working Group will conduct their kick-off meeting on February 28th from 3pm to 4pm eastern. He also shared that AAMVA is actively working execution of all outstanding post-pilot user agreements with respective states and anticipates all to be fully executed by March 1st.
4. WG Continuity and Continuous Improvement
Nancy Carlson shared that, with the exception of outstanding pilot survey responses, the Working Group has successfully fulfilled all of its obligations. She noted that,

while today's call is officially the last "pilot" WG call, several States have expressed an interest in continuing to meet regularly to collaborate on S2S-related topics and production issues. While DIVS officially ceases to exist as of March 3rd, to bridge the gap until AAMVA is able to spin up the S2S post-pilot sub-WG, Clerus will continue to provide the existing GTM bridge call to facilitate State discussions. Agenda topics to be determined by the States.

5. New Topics for State Discussion / Transition

a) Potential Identity Theft

Amy Metcalfe introduced a new topic for State discussion having to do with discovering potential identity theft and taking appropriate course of action to protect the innocent actor(s). She indicated that there have been two separate instances where an Iowa driver has had his/her driving privileges taken away due to his/her identity set being used by a different person (and the associated Iowa pointer has been pulled by the other state).

In the first case, the identity set for the Iowa driver was used by someone else to obtain a VA CLP or CDL. In the second case, the identity set for the Iowa driver was used by someone else to obtain an IN Ident Card.

Amy shared that, while each situation remains under investigation, both related pointers should be retained on SPEXS, and not pulled back and forth from one state to the other.

Andy Frey discussed how it would be helpful if there were a way for the involved states to mark both pointers in such a way that it would be known that an investigation is in progress. That way the pointers might also be screened or omitted from the State's Suspense Report, which would be helpful to states by eliminating some of the current 'rework' that they are experiencing.

Amy also suggested that it would be helpful if S2S participants could share procedure and policy information with each other as it relates to potential fraud investigation, so that States could provide better information to their customers and potentially help expedite communications and resolution to minimize negative impact to the State's customer. Some suggestions included sharing phone numbers for investigators and forms that need to be filled out, how long a case might take to be investigated, how to contact the other state to let them know of your findings, etc.

Cam Gutschall indicated that he would follow-up internally with the VA LE group to see if they can't escalate the investigation related to the IA-VA credentials.

Steve Leak indicated that he would follow-up internally with his folks to determine status of the IA-IN credentials. He also shared that his fraud unit can start their investigation well before actually receiving a formal report, which might be useful for other states to know.

The take-away from the discussion was that States should re-evaluate the process of always pulling a pointer based on having the most recent issue date without also considering whether or not the identity set is being used by the same person or different people. It appears that comparison of the person (photo or other) is a key component in the process. In addition, when potential identity theft is suspected, States should consider ways to stream-line the process and improve communication between the involved States so the innocent person is minimally effected.

Action Item: AAMVA to consider related enhancements to the service.

Action Item: S2S Governance Committee to collect related information as suggested above from all participating States, consider mechanism for sharing among States, consider best practices for related processes.

- b) Consolidate the ("Delete" + "CSOR") steps required when two pointers have been confirmed to need "Merging".

Mina Peters shared that it would be very helpful if the service could provide the capability to merge two pointers together after appropriate research has been done and a state confirms that they should actually be merged. Currently the state has to initiate a "Delete" on their pointer followed by a "CSOR" on the other pointer to reach the desired pointer "end-state". Other states shared that this would be a useful capability.

Action Item: AAMVA to consider related enhancements to the service.

- c) Adjust Search Algorithm to Optimize Potential Matches Returned

Mina shared that Alaska is experiencing large numbers of potential match responses to inquiries, many of which appear to be obvious mismatches, and suggests that the algorithm should be evaluated to better tune responses. She shared that their field officers have indicated it's not uncommon to get ten or more potential matches to a given inquiry. Because so many responses are being returned, the field officers sometimes miss pointers that should be looked at more closely.

Mina shared that an example of inappropriate responses is where the L5 of the SSN is totally different, the DOB is totally different, but the First and Last Name match.

Jamie Nelson shared that MD has experienced this as well, citing that in many cases it involves situations where there is no SSN.

Pam Dsa indicated that AAMVA will actively reach out to all states that are experiencing concerns with the number of responses received and will work one-on-one to determine why so many responses are being received. AAMVA wants to better understand what specific information is being provided on the inquiries to follow through with why the responses are being returned.

Loffie Jordaan shared that AAMVA actively monitors the number of hits returned as a result of the inquiries States make in production and to date has not seen activity that is disproportionate to CDLIS-only activity. He indicated that this kind of feedback from the States is very helpful and reiterated that AAMVA would like to hear from any States that feel they're getting more responses than they should.

Loffie also suggested that it would be helpful for AAMVA to provide more visibility / explanation to States on why specific responses are being returned.

Action Item: AAMVA to reach out to States with concerns, research potential issues, modify algorithm as deemed appropriate to optimize responses for States.

- d) Update Mark Unique Capabilities Related to Go-Live Activities

Andy Frey brought up that the Mark Unique functionality related specifically to Go-Live Potential Duplicates involving more than one “pair” of pointers is confusing and difficult. He mentioned that there’s no clear way based on the go-live information to tell which other pointer the State is marking their given driver unique from.

Jamie Nelson shared that MD has experienced similar issues. She described that they’ve run into issues where, even though MD has marked their person as unique to all identified potential duplicates, the pairs remain in a Pending status.

Action Item: AAMVA will reach out to IA and to MD to get more specific examples of each State’s issues and will look into how the service is currently supporting the Mark Unique functionality, providing examples to the WG where needed.

e) Visibility into 15+ Potential Matches without AAMVA Intervention

Steve Dietrich mentioned that MD has run into an issue when they’ve had more than 15 potential duplicates identified for a given pointer. In those cases, they’ve had to engage AAMVA to work the 16th or 17th occurrences because the service doesn’t currently support beyond the 15 limitation. Steve mentioned that this has happened 3 or 4 times so far for MD.

Mina suggested that tightening up the algorithm might help with this issue as well.

Action Item: AAMVA to monitor the frequency with which 15+ occurrences happen as more States join. AAMVA to look into options for increasing the current limitation and/or providing visibility to those >15 to the States without having to engage the Help Desk.

6. Arizona go-live scheduled for this weekend!!!

The Arizona team was wished well on their upcoming go-live weekend. Stephen Gaerig shared that the team is all set to go. They met earlier in the week with Madhu, their AAMVA point person for the weekend, and are finishing up user testing. AAMVA confirmed that Iowa and Ohio will be providing testing support for Arizona over the weekend.

Stephen shared that Arizona is not planning to load Customary Identification Cards. This is consistent with Virginia’s approach.

7. Next Steps / Action Items

Are noted within the minutes.

8. Adjourn Meeting

The meeting was adjourned by Steve Leak.

S2S Monthly Activities Survey Version 1.2

Instructions

This survey requests information about your State's experiences operating the State-to-State (S2S) pilot for a given month during the S2S Pilot evaluation. Your state should complete and submit this survey for each month it operates S2S during the pilot evaluation period. The information provided will be used to create important documents such as a pilot evaluation report and a best practices document. Please enter the date the survey was prepared, and your State. Also, please provide the name, email address, and phone number for a point-of-contact who can be contacted if clarification or additional information is needed regarding any of the answers to the survey questions.

Pilot State: [State]

Date Submitted: [Date]

Month(s) Covered: [Period Covered]

Point of Contact Information

Name: [Contact's Name]

Phone: [Phone Number]

Email: [Email]

Survey Questions

1. What specific benefits did you realize from the operation of S2S pilot? Examples of areas to consider might include customer service, accuracy of data, and timeliness.

[Answer]

Important information for answering questions 2 through 4:

The following four questions make a distinction between the parts of your implementation process that are **external** to your state and those that are **internal**. The **external** activities are those that involve cooperation and coordination with entities outside your state, such as operational support from AAMVA, AAMVA help desk responsiveness, and interaction with other states. The **internal** activities are those that involve only the state's own employees and contractors, such as operational support from in-state entities, local help desk responsiveness, and interaction among various in-state entities. If you have doubt about into which category an activity falls, just use your best judgment. Providing your information is more important than correctly categorizing it.

2. Describe those aspects of S2S operations related to **external** activities that you believe worked well

[Answer]

S2S Monthly Activities Survey Version 1.2

3. Describe those aspects of S2S operations related to external activities that you believe did not work well and provide any suggestions you have for improving these areas.

[Answer]

4. Describe those aspects of S2S operations related to your own state's **internal** activities that you believe worked well.

[Answer]

5. Describe those aspects of S2S operations related to your own state's **internal** activities that you believe did not work well and provide any suggestions you have for improving these areas.

[Answer]

Important information for answering questions 8 through 11:

If the answers provided were obtained using sampling, please include in your answer information about the sampling basis used. For example, "We sampled activity for 5 working days at a site that on average processes about 10% of our state's issuance applications."

6. Please provide the number of cases where a search of the S2S master pointer file indicated that the applicant might hold a driver license in another state. Also, please provide the number of cases where the individual did not provide information about the other state's driver license prior to the S2S search.

[Answer]

7. Please provide the number of cases where a search of the S2S master pointer file indicated that the applicant might hold a REAL ID card in another state. Also, please provide the number of cases where the individual did not provide information about the other state's REAL ID card prior to the S2S search.

[Answer]

8. Were any cases referred for investigation of possible fraud based at least in part on information obtained through S2S? If so, please provide a brief description of the case, taking care not to include any personally identifiable information (PII).

[Answer]

9. How many DL/ID cards that had been issued by your State were **cancelled** this month as a result of receiving a CSOR request or notification that another state had issued a DL/ID card to the cardholder?

[Answer]

S2S Monthly Activities Survey Version 1.2

10. If you encountered any problems as a result of the bulk load or other aspects of another state going live on the S2S Pilot, please briefly describe the problem.

[Answer]

Subject: Third discussion topic

Hi Mina,

While I was doing up the notes from Tuesday's WG call, I noticed that you had mentioned that Alaska is wrestling with three particular issues - yet as the WG conversation unfolded, I only heard two of them (as follows). Is there a third topic you want to bring up on the next call? BTW- Thanks for getting the discussions going. It was great hearing everyone share and suggest improvements. I'm not sure they would have been so forthcoming without you 'warming them up'.

- a) Consolidate the ("Delete" + "CSOR") steps required when two pointers have been confirmed to need "Merging"
- b) Adjust Search Algorithm to Optimize Potential Matches Returned
- c) ?

Subject: VOTE - MEC Inquiry Data Elements Survey

Dear CDLIS Working Group,

As per our call yesterday I am sending out a survey to obtain your state's preferences regarding what data elements should be included as **optional** data elements to search by for the MEC Inquiry.

The State/Driver License Number or Name/DOB combo will be required for the inquiry (meaning that one combination would be required).

Please respond to the survey no later than COB Wednesday March 1st.

Thank you!

Could one person from each state respond to the following questions:

1. Please indicate if your state would like any of the following data elements to be included as optional data elements for the inquiry message, if not please state why: **YES to All**
 - a. Medical Examiner's Last Name
 - Yes
 - No
 - b. Medical Examiner's State
 - Yes
 - No
 - c. Medical Examiner's City
 - Yes
 - No
 - d. Medical Examiner's ZIP
 - Yes
 - No
 - e. Medical Examiner's Registry Number
 - Yes
 - No
 - f. Medical Examiner's Certificate Issue Date
 - Yes
 - No
 - g. Driver's City
 - Yes
 - No
 - h. Driver's ZIP
 - Yes
 - No
 - i. Include Expired MEC info – This indicator could be set if the state would like to receive expired MEC data (active data would be default)
 - Yes
 - No
 - j. Include Pending/Incomplete MEC info – This indicator could be set if the state would like to receive incomplete MEC data (complete data would be the default)
 - Yes
 - No

2. If your response to 1f (above) was yes, please answer the following:
 - a. Do you think that searching an issue date by 'date range' would be beneficial? (i.e. Begin Date: 02/01/2017 and End Date: 02/28/2017). If not please indicate why-
 - Yes
 - No
 - b. Do you think that states should be able to enter a begin date and end date, or should the end date default to the current date?
 - Begin and end dates
 - Only begin date
3. Do you think any other data elements should be added as optional elements for the inquiry? If yes, please choose from the list below which you think should be added and indicate why-
 - Yes
 - No

Medical Certificate Expiration Date
 Medical Examiner Telephone Number
 Medical Examiner Specialty Code
 Medical Examiner License Number
 CLP/CDL Applicant/Holder
 Medical Examiner's Certificate Qualification Status
 Medical Examiner's Certification Decision

4. In the event that we must limit the number of optional data elements to include as a part of the inquiry, please list your preferences in priority order below:

Optional Data Elements – Priority Order	
1	Medical Examiner's Registry Number
2	Medical Examiner's Last Name
3	Medical Examiner's State
4	Medical Examiner's City
5	Driver's ZIP

Subject: RE: Third discussion topic

Hi Nancy,

Good ear! LOL..I feel less like the warm-up act and more like a rabble-rouser. But hey, if it gets the job done...right?

My third issue was basically resolved, so I ended up not mentioning it again. It was about formatting challenges with the duplicate resolution layout - different states having special needs, and not knowing the field layout. Sri sent me the layout immediately after the meeting, and Wisconsin resolved their issues with our file. I noticed some minor discrepancies in the files I received from state to state, but was able to compensate.

Unfortunately, it's just me doing everything, and there are only so many hours in the day.

Hi Mina,

While I was doing up the notes from Tuesday's WG call, I noticed that you had mentioned that Alaska is wrestling with three particular issues - yet as the WG conversation unfolded, I only heard two of them (as follows). Is there a third topic you want to bring up on the next call? BTW- Thanks for getting the discussions going. It was great hearing everyone share and suggest improvements. I'm not sure they would have been so forthcoming without you 'warming them up'.

- a) Consolidate the ("Delete" + "CSOR") steps required when two pointers have been confirmed to need "Merging"
- b) Adjust Search Algorithm to Optimize Potential Matches Returned
- c) ?

Subject: AAMVA Survey Request - AAMVA is seeking feedback on SAVE/VLS

Dear Members,

AAMVA would like to gather information about the “lawful status” electronic verification services operated by the US Dept. of Homeland Security known as SAVE/VLS. In recent weeks, repeated outages of the DHS service have made it impossible for our members to conduct regular business for their customers. In fact, since the beginning of this year, AAMVA has recorded 12 VLS outages. We want to know whether states that are not using VLS have also experience interruptions to their verification service and if so, the impact and workarounds they’ve used. We have escalated the issue within DHS’ management hierarchy and ask that you respond to this survey right away in order to provide us with data we can use to emphasize the problem and need for a complete fix. If you have any questions about this survey, please contact Nalini Rangaraju at nrangaraju@aamva.org.

Please respond to this survey:

[Verification of Lawful Status](#) (Ends 03/23/2017)

AAMVA appreciates your response.

Thank you.

Janice Dluzynski | American Association of Motor Vehicle Administrators
(703) 908-5842 | jduluzynski@aamva.org

Note: All [open surveys](#) and [survey responses](#) can be accessed by going to www.aamva.org and clicking on the **Solutions & Best Practices** tab on the navigation bar or the **New Surveys** tab in the box on the left side of the screen.

NMVTIS Conference Call

February 15, 2017

The purpose of the call was to provide updates on various aspects of the project. Present on the call: AZ, CA, FL, ID, IN, KY, MD, MI, MN, MO, ND, NE, NH, NV, OH, PA, SD, TX, VA, VT, WI, WY and AAMVA staff.

Help keep the NMVTIS_ALL State Distribution list up-to-date

AAMVA maintains a distribution list of state contacts for all system and operational issues. We have asked states to verify that the NMVTIS_ALL distribution list is up-to-date. The list was attached with the January 2017 meeting minutes. We have extended the deadline to March 15th. Please send your revisions to: helpdesk@aamva.org

New Webinar: How to accurately post state titling activity into the NMVTIS Batch Interface Files

Audience:

Titling Operations Managers, Implementation Managers, IT Business Analyst, Systems Analyst, Quality Assurance

Description of Webinar:

For states choosing to update NMVTIS in batch mode the titling activity that occurs throughout the business day must be recorded and subsequently submitted to NMVTIS each evening. State title issuance activity is communicated to NMVTIS using four distinct interface file formats. They are referred to as: VINADD, VINMOD, VINUNDO and VINPURGE. Business rules related to each titling operation dictate which file format to use. The intent of this webinar is for the state implementer to learn how to post each state titling transaction to the correct interface file. This will be accomplished by presenting "real world" titling scenarios then use the business rules to post the titling activity to the appropriate interface file.

Coming March 2017

Webinar: How to Fill Out and Send the NMVTIS Change Request Data Form to AAMVA Help Desk

Audience:

State Help Desk, State NMVTIS Data Correction Personnel

Description of Webinar:

This webinar will focus on how to accurately fill out and send the NMVTIS change request data form to AAMVA Help Desk. The webinar includes: When to use the change request data form, Instructions on how to fill out the change request data form, How to send the form to AAMVA Help Desk, How to send corrections to the form to AAMVA Help Desk when needed, Understand how to request different types of changes to the NMVTIS data using change request data form.

Ongoing thru March 2017

Open forum:**Ardis from Wisconsin - Ardis.Wells@dot.wi.gov**

When a lien is involved Illinois is issuing titles without receipt of a clear title. The concern here is that there should be one current title for the vehicle. No representative on the call from Illinois. During the meeting Tracy from TX mentioned that he received a correspondence from Illinois regarding the Out of State Hold procedures in Illinois. He will forward a copy of the correspondence to Ardis and Neil.

Nancy from Pennsylvania requested the NMVTIS state contact for Ohio.

Subject: WEBINAR: New CD90.7.7 Selective DHR Validation Report

Good afternoon,

Thank you for joining the Understanding and Using: New CD90.7.7 Selective DHR Validation Report Webinar yesterday. Below is a brief summary to recall some points on this report along with the questions and answers asked during the webinar. I've also included the steps involved to receive this report. It is as simple as adding GAP code and doing some testing with us. Please let me know if you are interested in this report. Thank you.

Report Description and Benefit:

Assist SDLAs in identifying missing or incorrect data on the Driver History Records (DHR)s of a given State of Record (SOR). The report performs CDN1 – Apply Common Validations on the received Driver History Record and determines if the Driver History Record (DHR) passes the validations. Allows SDLAs to ensure that the Driver History Records (DHR)s are complete and accurate.

Questions/Answers Asked During Webinar:

What again is the purpose of this report? Purpose of the report is to identify missing and incorrect data in a sample DHR's of the state.

Can we get only the errored transaction only? The report will include all records that are validated and the outcome of each validation. This allows the SOR to ensure all of their records were validated. If there is 'No Error' on the DHR, the SOR knows the DHR was validated but didn't have any errors. The SOR can also apply filters to filter out those error texts that say 'No Error'.

How do you achieve the random sampling? Based on the input parameters provided (number or percentage), the process randomly extracts the MPR records.

Can you request by percent of DHR records and not by an absolute number? Yes, you can either request by percentage of DHR's or absolute.

When requesting the report, the state or FMCSA rep should supply the following information:

State code and Number of Records—specifies the absolute number of driver history records the state is requesting. The report will randomly select this number of DLNs out of the total MPRs for the state at the Central Site to build the report

OR

State code and Percentage—specifies the percentage of driver history records the state is requesting. The report will randomly select this percentage of DLNs out of the total MPRs for the state at the Central Site to build the report

Can we request 100%? The process does not stop a jurisdiction from requesting 100% but the intention of the report is to perform random sampling of the DHRs of a specific state and to identify missing or incorrect data in those DHRs.

And as an FMCSA Division, when would we know that our state would be capable of this report? **FMCSA Rep can either reach out to the state or ask AAMVA if that state can receive this report (state is required to implement a new gap code). NOTE: So far we have 5 states that have added new GAP code and have performed 90.7.4 testing with AAMVA. Out of these 5 states, one of the state has also performed testing 90.7.7 testing with AAMVA and so as of today, we have one state that is capable of receiving this report, once this has been deployed to production. We are planning to deploy this report to production by end of April 2017. AAMVA has received the approval to send SB requests to the state and is reviewing it. Once this is done, the report will be deployed to production and the states that have implemented the new gap code and tested with us are capable of receiving this report.**

Frequency:

Only by request sent via email to AAMVA Helpdesk

Steps Involved:

1. Authorize the New gap code in your UNI site tables in both CERT and Prod environments. AAMVA's UNI team will help the interested states to add the new Gap Code.
 - a. Some states may require minimal code changes at their end since it is a Non-standard Jurisdiction Gap code. In this case, the states would need to deploy the code first in the CERT environment. Once the code is tested/verified, the states can deploy the code to production environment.
2. Perform Gap Code testing with AAMVA for approximately 1-2 days (Configuration changes can be made in the CERT environment to reduce the "11th day" wait period to as short as 1 day). AAMVA QA team will reach out to you to share the test cases and coordinate the testing effort.
 - a. New Gap Code (XZ) will be used by AAMVA to send the SB requests to states.
 - b. The Gap Code testing will only include few cases to check:
 - i. If the state has received the convictions/withdrawals and responded back.
 - ii. State has received the SB request sent from the new Gap Code.
 - iii. State is able to provide the driver history response back to AAMVA.
3. Once testing is completed, start to request the report. State or FMCSA will need to request the report by sending an email to the AAMVA Helpdesk (helpdesk@aamva.org).

If you want to receive this report, please send a request to ReportingGroup@aamva.org to perform the gap code testing!

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.
22203 | 703.908.8264 | jrogers@aamva.org | www.aamva.org

Subject: AAMVA Workshop 2017 - Less Than Three Weeks Away!

Less Than Three Weeks Away!
Don't miss out, register now and book your travel

The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. Register today and plan your trip to Minneapolis!

REGISTER NOW

You'll be prompted to login to AAMVA before registering.

Exciting Session Topics

Mobile DL - Where is it Today?

Find out how mobile DL pilots in jurisdictions are progressing and learn about the early results of the mDL Proof of Concept between AAMVA and the DMV of the Netherlands. Workshop attendees will be the first to learn how AAMVA members can leverage the work of this international collaboration for their own mDL initiatives.

Facilitator:
Geoff Slagle, Director of Identity Management, AAMVA

Presenter:
Loffie Jordaen, Sr. Project Manager, AAMVA

Motor Carriers and Transportation Network Companies

A unique opportunity to hear from a representative from Otto (an Uber subsidiary) regarding their business model, vision for delivering passengers and products, and plans in the trucking and freight movement area. There will also be a discussion on current motor carrier initiatives, including the AAMVA Motor Carrier Working Group and the International Registration Plan credential effort.

Facilitator:

What to Expect at the Workshop

Click the link below and get geared up for this year's Workshop!

Still Looking for a Room?

The hotel reservation cut-off date for the Hyatt Regency in Downtown Minneapolis was **February 21, 2017.**

Visit the Workshop travel page for information on additional hotels.

[Workshop Hotel & Travel Page](#)

Chris Kiyoshi, Motor Vehicle Unit Supervisor, Idaho Transportation Department and Member, AAMVA Vehicle Standing Committee

Presenters:

Bob Rowland, CDL/Motor Carrier Coordinator, Massachusetts Registry of Motor Vehicles and Chair, AAMVA Motor Carrier Working Group

Glen Turner, Communications and Membership Associate, International Registration Plan, Inc.

Ognen Stojanovski, Head of Policy and Government Relations, Otto (Uber)

PROGRAM

Exhibit & Sponsorship Opportunities

Companies and organizations can support the Workshop in a variety of ways. Rent exhibit space and demonstrate your products and services. Sponsor meeting materials or events and get recognition.

Less Than Three Weeks Away!
Don't miss out, register now and book your travel

The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. Register today and plan your trip to Minneapolis!

REGISTER NOW

You'll be prompted to login to AAMVA before registering.

Exciting Session Topics

Mobile DL - Where is it Today?

Find out how mobile DL pilots in jurisdictions are progressing and learn about the early results of the mDL Proof of Concept between AAMVA and the DMV of the Netherlands. Workshop attendees will be the first to learn how AAMVA members can leverage the work of this international collaboration for their own mDL initiatives.

Facilitator:
Geoff Slagle, Director of Identity Management, AAMVA

Presenter:
Loffie Jordaen, Sr. Project Manager, AAMVA

Motor Carriers and Transportation Network Companies

A unique opportunity to hear from a representative from Otto (an Uber subsidiary) regarding their business model, vision for delivering passengers and products, and plans in the trucking and freight movement area. There will also be a discussion on current motor carrier initiatives, including the AAMVA Motor Carrier Working Group and the International Registration Plan credential effort.

Facilitator:

What to Expect at the Workshop

Click the link below and get geared up for this year's Workshop!

Still Looking for a Room?

The hotel reservation cut-off date for the Hyatt Regency in Downtown Minneapolis was **February 21, 2017.**

Visit the Workshop travel page for information on additional hotels.

[Workshop Hotel & Travel Page](#)

Chris Kiyoshi, Motor Vehicle Unit Supervisor, Idaho Transportation Department and Member, AAMVA Vehicle Standing Committee

Presenters:

Bob Rowland, CDL/Motor Carrier Coordinator, Massachusetts Registry of Motor Vehicles and Chair, AAMVA Motor Carrier Working Group

Glen Turner, Communications and Membership Associate, International Registration Plan, Inc.

Ognen Stojanovski, Head of Policy and Government Relations, Otto (Uber)

PROGRAM

Exhibit & Sponsorship Opportunities

Companies and organizations can support the Workshop in a variety of ways. Rent exhibit space and demonstrate your products and services. Sponsor meeting materials or events and get recognition.

Less Than Three Weeks Away!
Don't miss out, register now and book your travel

The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. Register today and plan your trip to Minneapolis!

REGISTER NOW

You'll be prompted to login to AAMVA before registering.

Exciting Session Topics

Mobile DL - Where is it Today?

Find out how mobile DL pilots in jurisdictions are progressing and learn about the early results of the mDL Proof of Concept between AAMVA and the DMV of the Netherlands. Workshop attendees will be the first to learn how AAMVA members can leverage the work of this international collaboration for their own mDL initiatives.

Facilitator:
Geoff Slagle, Director of Identity Management, AAMVA

Presenter:
Loffie Jordaen, Sr. Project Manager, AAMVA

Motor Carriers and Transportation Network Companies

A unique opportunity to hear from a representative from Otto (an Uber subsidiary) regarding their business model, vision for delivering passengers and products, and plans in the trucking and freight movement area. There will also be a discussion on current motor carrier initiatives, including the AAMVA Motor Carrier Working Group and the International Registration Plan credential effort.

Facilitator:

What to Expect at the Workshop

Click the link below and get geared up for this year's Workshop!

Still Looking for a Room?

The hotel reservation cut-off date for the Hyatt Regency in Downtown Minneapolis was **February 21, 2017.**

Visit the Workshop travel page for information on additional hotels.

[Workshop Hotel & Travel Page](#)

Chris Kiyoshi, Motor Vehicle Unit Supervisor, Idaho Transportation Department and Member, AAMVA Vehicle Standing Committee

Presenters:

Bob Rowland, CDL/Motor Carrier Coordinator, Massachusetts Registry of Motor Vehicles and Chair, AAMVA Motor Carrier Working Group

Glen Turner, Communications and Membership Associate, International Registration Plan, Inc.

Ognen Stojanovski, Head of Policy and Government Relations, Otto (Uber)

PROGRAM

Exhibit & Sponsorship Opportunities

Companies and organizations can support the Workshop in a variety of ways. Rent exhibit space and demonstrate your products and services. Sponsor meeting materials or events and get recognition.

Hello CDLIS Working Group,

The prior webinar series we had for this meeting has expired. Please use the information below to register for the new webinar series through the end of the year:

Please register for CDLIS Working Group NR II Discussion on Jan 24, 2017 11:00 AM EST at:

<https://attendee.gotowebinar.com/register/2690123801956856324>

Review/Discuss NRII Documentation

After registering, you will receive a confirmation email containing information about joining the webinar.

Brought to you by GoToWebinar®
Webinars Made Easy®

~~Hello CDLIS Working Group,~~

~~The prior webinar series we had for this meeting has expired. Please use the information below to register for the new webinar series through the end of the year:~~

~~Please register for CDLIS Working Group NRII Discussion on Jun 28, 2016 11:00 AM EDT at:~~

~~<https://attendee.gotowebinar.com/register/6959646195356952836>~~

~~Discuss project solution. Review specifications and SPM updates.~~

~~After registering, you will receive a confirmation email containing information about joining the webinar.~~

~~Brought to you by GoToWebinar®
Webinars Made Easy®~~

~~Please remember that there is a separate webinar series for each weekly meeting. Registering for this webinar series will only register you for the fourth Tuesday of the month.~~

~~Thank you!~~

~~_____

_____~~

~~Dear CDLIS WG,~~

Please register for the GoToWebinar on the 4th Tuesday of the month:

Please register for CDLIS Working Group NR Discussion on Jan 26, 2016 11:00 AM EST at:

<https://attendee.gotowebinar.com/register/7494878557035076098>

After registering, you will receive a confirmation email containing information about joining the webinar.

Brought to you by GoToWebinar®
Webinars Made Easy®

Purpose:

Discuss the National Registry II Final Rule

1. Please join my meeting.

<https://global.gotomeeting.com/join/215500253>

2. Use your microphone and speakers (VoIP) – a headset is recommended. Or, call in using your telephone.

Dial +1 (872) 240-3412

Access Code: 215-500-253

Audio PIN: Shown after joining the meeting

<i>Name</i>	<i>Jurisdiction/Organization</i>	<i>Attended</i>
Justine Gonzales	Colorado	<input type="checkbox"/>
Kami Beers	Delaware	<input type="checkbox"/>
Amy Anthony		<input checked="" type="checkbox"/>
Erin Murphey	New York	<input type="checkbox"/>
Karen Poitras		<input checked="" type="checkbox"/>
Mina Peters	Alaska	<input checked="" type="checkbox"/>
Abbey Valentine		<input checked="" type="checkbox"/>
Camdon Gutshall	Virginia	<input checked="" type="checkbox"/>
Stephan Yssel		<input type="checkbox"/>
Andy Frey	Iowa	<input checked="" type="checkbox"/>
JoLynn Peck	Michigan	<input checked="" type="checkbox"/>

Katie Bartelt	Wisconsin	<input type="checkbox"/>
Steve Pazynski		<input checked="" type="checkbox"/>
David Birchman	California	<input checked="" type="checkbox"/>
Russ Casler	Oregon	<input type="checkbox"/>
Josh Jones		<input checked="" type="checkbox"/>
Patrick McJannet	Montana	<input checked="" type="checkbox"/>
Beverly Pellen		<input type="checkbox"/>
Bob Rowland	Massachusetts	<input type="checkbox"/>
Robin Hamilton	FMCSA	<input checked="" type="checkbox"/>
Christine Hydock		<input type="checkbox"/>
Chuck Horan		<input type="checkbox"/>
Carlos Dequina		<input checked="" type="checkbox"/>
Larry Schillberg	VOLPE	<input checked="" type="checkbox"/>
Nina Prikazsky		<input checked="" type="checkbox"/>
Walter Frank		<input checked="" type="checkbox"/>
Marianne Barry		<input checked="" type="checkbox"/>
Stacy Kalivas		<input type="checkbox"/>
Manny Cuevas		<input checked="" type="checkbox"/>
Trevor Koon		<input checked="" type="checkbox"/>
Pam Dsa (Sr. Project Director)	AAMVA	<input checked="" type="checkbox"/>
Loffie Jordaan (Sr. Project Manager)		<input type="checkbox"/>
Mindy Stephens (Sr. Business Analyst)		<input type="checkbox"/>
Ashish Regmi (Lead Business Analyst)		<input type="checkbox"/>
Madhu Chandrasekharan (Sr. BA)		<input type="checkbox"/>
Pat McNaughton (Sr. Business Analyst)		<input type="checkbox"/>
Kevin Lewis (Program Director)		<input type="checkbox"/>

Meeting Schedule/Agenda:

- a. MEC Verification Inquiry Webinars.....05 mins
 - Thursday February 23rd 2:00-3:00 ET
- b. MEC Inquiry.....50 mins
 - Discuss search inquiry data elements
- c. Next Steps.....10 mins
 - Target dates -
 - February 21st – Discuss MEC Inquiry, search data elements
 - February 28th – Review NR Specification (Request to cancel monthly meeting to discuss NRII) The next NR monthly meeting is scheduled for Tuesday, March 14th.
 - March 14th – Review SPM Updates

- CDLIS Working Group review and approval of specifications 02/28-03/06
- FMCSA review and approval of specifications 03/06-03/10
- CDLIS Working Group review and approval of SPM Updates –DTBD

Note: The target dates for the project have been modified to fit the adjusted project schedule. There were no objections to Mindy’s schedule changes.

Notes, Decisions, Issues:

For this meeting, it was originally planned for attendees to review the MEC Transmission VOLPE Specification. However, key AAMVA staff was out of office for the day so the meeting was repurposed to review/discuss the data elements for the MEC Search Inquiry Transaction.

Also, AAMVA will be hosting a webinar at 2 p.m., Thursday, February 23rd, which will cover the MEC Verification Specification. Please go to the [webinar sign up page](#) of the AAMVA website to register. (A recording of the webinar will be archived.)

Review of the data elements for the MEC Search Inquiry Transaction:

- An MEC search inquiry will require the following data elements:
 - STATE and DRIVER LICENSE NUMBER
 - or
 - NAME and DOB
- Attendees discussed whether or not to include these data elements as optional as part of the MEC Search Inquiry Transaction:
 - Medical Examiner’s Name—should we full name (first and last name), or only the last name? Should any other part of the examiner’s name be part of the search?
 - Medical Examiner’s State, and/or city, and/or zip code
 - Medical Examiner’s Registry Number
 - MEC Issue Date—should it be a date range, with a begin and end date, or a default to current date?
 - Driver’s City and/or zip code
 - Expired MEC Information—active would be the default
 - Pending or incomplete MEC information – complete would be the default

Action: Mindy to distribute a survey that asks respondents whether the data elements listed above should be included as optional search elements as part of the search inquiry transaction, and if not why. The survey will also allow respondents to add data element fields that they do not see and why. Respondents will be given a week to respond. Mindy will distribute the survey results via an Excel spreadsheet.

Andy Fey (Iowa) indicated that he would like to see how VOLPE intends to handle these data element parameters in their search inquiry algorithms.

Action: Mindy to work with Robin Hamilton (FMCSA) and VOLPE on this issue.

Action Items:

<i>Action Item</i>	<i>Assigned To</i>	<i>Status</i>
---------------------------	---------------------------	----------------------

1. Follow up on duplicate MECs and doctor shopping	AAMVA/FMCSA	In progress
2. Mindy to distribute a survey asking repondents whether not the data elements listed above should be included optional search elements as part of the search inquiry transaction.	AAMVA	Complete
3. Mindy to work with FMCSA and VOLPE on providing States with an explanation on how their search algorithms with handle the data elements listed above.	AAMVA/VOLPE	In progress

Next Meeting: Tuesday February 28th 2017

Subject: Ad-Hoc FMCSA CDL Roundtable
Location: Call: 877-336-1829 Passcode 3660677#

Start: Tue 3/7/2017 9:00 AM
End: Tue 3/7/2017 10:30 AM
Show Time As: Tentative

Recurrence: (none)

Organizer: Marra, Isabella (FMCSA)

I apologize for the confusion, due to some technical difficulties outlook had mistakenly canceled the Ad-Hoc FMCSA CDL Roundtable. The roundtable meeting will still be held at the planned date, March 7 at 1pm. Thank you all and we look forward to having you with us.

Dear Partners,

Please join us for an Ad-Hoc FMCSA CDL Roundtable on March 7th. The Roundtables are normally scheduled bimonthly with our next meeting slated for June 6th. As we were unable to cover all of the topics listed in the FMCSA CDL Roundtable on February 7; we have scheduled an Ad-Hoc FMCSA CDL Roundtable to cover the remaining topics on March 7th. Some of the topics include:

- FMCSA Medical Division Updates
- Defining ‘Birth Certificate’
- Determining When to Apply the “O” Restriction.

The purpose of these calls is to discuss topics on relevant issues that affect our Divisions, Service Centers, and State partners, as it relates to the Federal Motor Carrier Safety Regulations, specifically Parts 383, 384, and 391.

To ensure our roundtable is valuable for our participants, the FMCSA CDL Division is requesting that you submit agenda items, questions, topics, and ideas that you would like discussed. Please submit them as soon as possible to allow the CDL Division sufficient time to prepare a response. Items should be sent to: CDLcompliance@dot.gov

Call: 877-336-1829 Passcode 3660677#

As a reminder, the calls are 1:00-2:30 pm ET.

CDL Roundtable Web Meeting: <https://www.webmeeting.att.com>

Meeting Number: 6366510002 or 8773361829

Access Code: 3660677

Should you have any questions or concerns, please send your requests to:

Subject: RE: S2S Governance Committee kick off meeting
Attachments: S2S Governance Committee kick off meeting agenda 2.28.2017.pdf

Dear S2S Governance Committee members:

Welcome to the first meeting of the S2S Governance Committee. I, and the rest of the S2S team, want to thank you for volunteering your time to ensure a smooth transition from a successful S2S pilot into a full blown nationwide verification service.

Please find attached the agenda for the S2S Governance Committee kick-off meeting on February 28th from 3 to 4 pm. Some meeting materials have already been posted to a dedicated S2S Governance Committee SharePoint site. Only S2S Governance Committee members have access to this site.

- To access the meeting documents, please use this URL: <https://share.aamva.org/membersvc/commwg/aamvaboard/s2sgc/SitePages/Home.aspx>
- You will be prompted to enter your **email address and AAMVA password**.
- On the right side of the screen, click on "**February 2017 Meeting materials**" to view the meeting documents.
- SharePoint also allows you to download the meeting documents to your own device and/or USB drive.
- If you cannot access SharePoint, please send an email to: jdulzynski@aamva.org and someone will contact you.

Materials for the following item will be added later:

- 4. Financial report

Please look at the proposed schedule of meetings ahead of the meeting so we can address any conflicts on the 28th. We will also be looking for volunteers to serve on a nominating committee and/or as an officer of the Committee. Please note that volunteering for the nominating committee does not prevent you from volunteering for an officer position.

Looking forward to talk to you all on the 28th,
Thanks – PG

This is a Subtask to Master Problem 890.

Progress:

Entered on 02/24/2017 at 15:34:51 EST (GMT-0500) by Jessie Rogers:

Congratulations! Alaska has remained green for three consecutive months in the CDLIS Data Quality of Pointer Deletions tab.

Closing ticket.

Entered on 10/26/2016 at 10:27:11 EDT (GMT-0400) by Jessie Rogers:

Good morning,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by November 16th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **September** data, AAMVA noticed the following issues:

CDLIS Data Quality of Pointer Deletions

- Alaska had a 57.14% error rate (4 out of 7) Delete Driver (UE) messages

Please find the September monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 09 September CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Pointer Deletion messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

2016 IDEC Examiners of the Year Announced

We are pleased to announce the [2016 IDEC Examiners of the Year](#). Annually, the International Driver Examiner Certification (IDEC) Board and AAMVA recognizes outstanding examiners through the IDEC Examiner of the Year award. Each member jurisdiction nominates one examiner for outstanding performance as a driver's license examiner. Examiners are selected for their excellence in adhering to the principles and recommended practices of driver examining (the Examiner's Code of Ethics) and for their high level of conduct in their profession. Congratulations to all the selected examiners!

The statewide project is designed to identify and address unsafe driving behaviors in and around large commercial motor vehicles. [Read the NSP press release.](#)

South Dakota's Vehicle Fatality Rate Again Among Lowest in Nation

South Dakota had the nation's fourth lowest motor vehicle fatality rate in 2016, according to a national organization. The National Safety Council says in its annual report released this week that the number of motor-vehicle deaths in the United States during 2016 totaled 40,200, an increase of 6 percent. But South Dakota's 116 traffic fatalities was a decrease of 13 percent from the state's total of 133 fatalities in 2015. [Read the DPS press release.](#)

One of the most powerful and visible members of the U.S. Senate wants to make it easier for members of the military leaving service to get civilian jobs, including those as truck drivers. [Read the full article in ccjdigital.com.](#)

Supreme Court Ratifies Police As Experts In Drug-Impaired Driving Trials (Canada)

Police officers trained to recognize if drivers are high can be treated as experts in drugged-driving trials without a preliminary examination of the evidence, the Supreme Court has ruled in a decision that could help expedite such prosecutions once marijuana is eventually legalized. [Read the full story at TheGlobeandMail.com.](#)

Subject: RE: S2S Governance Committee kick off meeting

Dear S2S Governance Committee members:

Welcome to the first meeting of the S2S Governance Committee. I, and the rest of the S2S team, want to thank you for volunteering your time to ensure a smooth transition from a successful S2S pilot into a full blown nationwide verification service.

Please find attached the agenda for the S2S Governance Committee kick-off meeting on February 28th from 3 to 4 pm. Some meeting materials have already been posted to a dedicated S2S Governance Committee SharePoint site. Only S2S Governance Committee members have access to this site.

- To access the meeting documents, please use this URL: <https://share.aamva.org/membersvc/commwg/aamvaboard/s2sgc/SitePages/Home.aspx>
- You will be prompted to enter your **email address and AAMVA password**.
- On the right side of the screen, click on "**February 2017 Meeting materials**" to view the meeting documents.
- SharePoint also allows you to download the meeting documents to your own device and/or USB drive.
- If you cannot access SharePoint, please send an email to: jdruzynski@aamva.org and someone will contact you.

Materials for the following item will be added later:

- 4. Financial report

Please look at the proposed schedule of meetings ahead of the meeting so we can address any conflicts on the 28th. We will also be looking for volunteers to serve on a nominating committee and/or as an officer of the Committee. Please note that volunteering for the nominating committee does not prevent you from volunteering for an officer position.

Looking forward to talk to you all on the 28th,

Thanks – PG

Subject: AAMVA Alert – Arizona Joining S2S

Dear CDLIS and S2S Participants:

A reminder that implementation activities to bring Arizona onboard with State-to-State (S2S) begins tonight at 8:00 PM ET. The CDLIS/S2S Central Site will be brought down. Messages to the CDLIS/S2S Central Site will be rejected after this time.

Messages being transmitted directly between states (CD03 and CD04) will continue to flow normally. The CDLIS/S2S Central Site will be brought up in an INQUIRY-ONLY mode shortly after 8:00 PM ET. We will inform you when this happens. Migration activities will continue through Sunday, February 26th, 2017. We will continue to keep you posted of the progress.

If you have any questions on the CDLIS downtime or the S2S implementation, please contact the AAMVA Operations Department at 1-888-AAMVA80 option 1 or Helpdesk@aamva.org

Subject: AAMVA Alert – Arizona Joining S2S

Dear CDLIS and S2S Participants:

A reminder that implementation activities to bring Arizona onboard with State-to-State (S2S) begins tonight at 8:00 PM ET. The CDLIS/S2S Central Site will be brought down. Messages to the CDLIS/S2S Central Site will be rejected after this time.

Messages being transmitted directly between states (CD03 and CD04) will continue to flow normally. The CDLIS/S2S Central Site will be brought up in an INQUIRY-ONLY mode shortly after 8:00 PM ET. We will inform you when this happens. Migration activities will continue through Sunday, February 26th, 2017. We will continue to keep you posted of the progress.

If you have any questions on the CDLIS downtime or the S2S implementation, please contact the AAMVA Operations Department at 1-888-AAMVA80 option 1 or Helpdesk@aamva.org

Dear CDLIS Working Group,

This is a reminder that implementation activities to bring Arizona on board with State-to-State (S2S) will commence at 8:00 pm ET. At that time the CDLIS/S2S Central Site will be brought down. The Central Site is scheduled to be brought up again in inquiry-only mode at around 8:30pm ET. From that point forward CDLIS/S2S users will be able to successfully conduct all inquiry transactions involving the Central Site (CD01, CD02, CD05, CD06 and CD18). Messages being transmitted directly between states (CD03 and CD04) will continue to flow normally, even when the Central Site is down.

Migration activities will continue through Sunday, February 26th, 2017. We will continue to keep you informed of the progress.

If you have any questions or concerns, please contact the AAMVA Operations Department at 1-888-AAMVA80 option 1 or helpdesk@aamva.org.

Thanks,

Loffie Jordaan

Subject: AAMVA Alert – Arizona Joining S2S

Dear CDLIS Working Group,

The migration of Arizona to become a S2S state is continuing to proceed according to schedule. The CDLIS/S2S Central Site has just been taken off-line and is now unavailable. The next step will be to start testing with Arizona and with two volunteer states. Communication to and from the Central Site will remain suspended for the duration of the testing. Messages being transmitted directly between states (CD03 and CD04) will continue to flow normally, with the exception of messages to and from Arizona.

Migration activities will continue throughout the rest of today, Sunday, February 26th, 2017. We will continue to keep you informed of the progress.

If you have any questions on the CDLIS/S2S downtime or the S2S implementation, please let me know.

Thanks,
Pam

Pamela Dsa, PMP, CSQA

Subject: AAMVA Alert – Update: Arizona Joining S2S

Dear CDLIS and S2S Participants:

AAMVA congratulates Arizona on successfully implementing S2S during the weekend of February 26th, 2017 and becoming the 11th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among others, limiting any person to only one driver's license.

All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now.

Mississippi is planning to use the State-to-State Verification Service (S2S) beginning June 4th, 2017. Other Jurisdictions will also begin using the State-to-State Verification Service (S2S) in the upcoming months and AAMVA looks forward to support them during their onboarding process.

One of the benefits of S2S is that it is now possible to identify persons that hold credentials in different states at the same time. This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved.

The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating from the S2S state. Please consult the AAMVA website for a webinar on this topic (see "Overview of SPEXS Master Specification Format & Duplicate Pointer Processing" at <http://www.aamva.org/Webinar-Archives/>).

If you have any questions or concerns, please contact the AAMVA Operations Department at 1-888-AAMVA80 option 1 or Helpdesk@aamva.org.

Subject: Arizona becomes the 14th State to use State-to-State Verification Service (S2S)

Dear CDLIS Working Group,

AAMVA congratulates Arizona on successfully implementing S2S during the weekend of February 26th, 2017 and becoming the 13th participant using the new service. All migration activities have completed on schedule. CDLIS and S2S services are fully operational now. AAMVA would also like to thank volunteer states Iowa and Ohio who assisted with Arizona's migration.

Arizona will henceforth be able to use SPEXS to perform its CDLIS and S2S functions. This means, among other things, that Arizona can now track pointer information related to its Base Driver Licenses, Permits for Base Driver Licenses, and Identification Cards. This supports the goal of limiting any person to only one driver's license.

Mississippi is scheduled to begin using the State-to-State Verification Service (S2S) on June 4, 2017. Other Jurisdictions will also begin using the State-to-State Verification Service (S2S) in the upcoming months and AAMVA looks forward to support them during their onboarding process.

One of the benefits of S2S is that it is now possible to identify persons that hold credentials in different states at the same time. This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved.

The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating

from the S2S state. Please consult the AAMVA website for a webinar on this topic (see “Overview of SPEXS Master Specification Format & Duplicate Pointer Processing” at <http://www.aamva.org/Webinar-Archives/>).

If you have any questions or concerns, please let me know.

Thanks,
Pam

This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved.

The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating from the S2S state. Please consult the AAMVA website for a webinar on this topic (see "Overview of SPEXS Master Specification Format & Duplicate Pointer Processing" at <http://www.aamva.org/Webinar-Archives/>).

If you have any questions or concerns, please contact the AAMVA Operations Department at 1-888-AAMVA80 option 1 or Helpdesk@aamva.org.

Subject: Arizona becomes the 14th State to use State-to-State Verification Service (S2S)

Dear CDLIS and S2S Participants:

AAMVA congratulates Arizona on successfully implementing S2S during the weekend of February 26th, 2017 and becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among others, limiting any person to only one driver's license.

All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now.

Mississippi is planning to use the State-to-State Verification Service (S2S) beginning June 4th, 2017. Other Jurisdictions will also begin using the State-to-State Verification Service (S2S) in the upcoming months and AAMVA looks forward to support them during their onboarding process.

One of the benefits of S2S is that it is now possible to identify persons that hold credentials in different states at the same time. This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved.

The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating from the S2S state. Please consult the AAMVA website for a webinar on this topic (see "Overview of SPEXS Master Specification Format & Duplicate Pointer Processing" at <http://www.aamva.org/Webinar-Archives/>).

If you have any questions or concerns, please contact the AAMVA Operations Department at 1-888-AAMVA80 option 1 or Helpdesk@aamva.org.

Subject: AZ Bulk Load Results: Potential Duplicates

Greetings,

Arizona successfully implemented S2S during the weekend of February 26th, 2017 and became the 14th participant using the new service.

The Bulk Add process identified **4566 pairs of non-type-7** and **1681 pairs of type-7** potential duplicates between Arizona and Alaska.

The files that contain the details about these records have been placed in the Alaska CD34 output FTP folder identified with the following filenames:

AK_CD34_POTNL_DT7NA_20170225101620_ADD

AK_CD34_POTNL_DUPLC_20170225101620_ADD

You may reach out to the contacts listed below (also copied on this email), to begin reviewing the duplicates.

- Rachelle Johnson - RJohnson3@azdot.gov
- Angie Richardson - ARichardson@azdot.gov

It is with great pleasure that I extend an invitation to join me in Seattle for this year's Region IV conference. We are diligently working to ensure this year's conference is informative, educational, and exceptionally worthy of your time. The program will focus on relevant and timely topics of importance to both DMV and law enforcement communities. The schedule will include plenty of networking opportunities for everyone! I hope you can join us for a conference not to be missed!

Pat Kohler
Region IV President

Conference Schedule

This year's conference schedule is as follows. Please note the arrival day is Sunday.

- Sunday, May 21 - Board meeting, attendee fly-in, exhibit hall set-up, Sponsor/Exhibitor/Jurisdiction Reception
- Monday, May 22 - Opening session, full day of conference sessions, President's Reception
- Tuesday, May 23 - Half day of sessions, networking activities, free evening
- Wednesday, May 24 - Past President's Breakfast, full day of sessions, charity auction and reception, Washington State Banquet
- Thursday, May 25 - Fly-out

Westin Reservations and Rates

Westin Seattle
1900 5th Avenue | Seattle, WA 98101

Make reservations [on-line](#) or by calling 1.888.327.8513

Room types and rates:

- traditional - \$189

Registration Open

Registration for the conference is now open. Early bird rates are valid until April 17. Why wait? [Register now.](#)

Memorial Service

Please share information on those who have passed on since we met last year in Portland. Send information to be included in the memorial service to [Sheila Prior](#).

Come early! Stay late! See the city!

Seattle is known as the Emerald City because nature's green is on full

display. It's a vibrant city with lots to see and do. Come early, stay late, tour around on the free afternoon.

Check out [Visit Seattle](#) for a glimpse of some of the city's many sites.

Catch a Mariners Game

The Mariners are in town the weekend before the conference. They play the White Sox on Saturday night and Sunday afternoon. Visit the [Mariner's website](#) for details.

Did you know . . . On April 6, 1977

Major League Baseball returned to Seattle when the Mariners played the California Angels before a Kingdome crowd of 57,762. The Mariners lost the game, 7-0 and finished the inaugural season with a 64-98 record.

The Link, an Option

Catch the light rail from SeaTac for \$2.50. The hotel is one block from Westlake Station. Visit their [website](#) to learn more.

- deluxe city view - \$219
- deluxe water view - \$239
- plus state and local taxes of 15.6% plus \$2 / night STIA fee

Rates are valid three days prior and three days post conference. The hotel cut-off date is April 24, 2017. The hotel has advised the date will NOT be extended, so we recommend you make your hotel reservations soon.

Support the Charity Auction and the WSP!!

Proceeds from this year's charity auction benefits the Washington State Patrol Memorial Foundation. Your support of this worthy cause, through your donation to the auction, and by bidding on auction items, is most appreciated.

The WSP Memorial Foundation provides financial assistance to Washington State Patrol employees who become disabled in the line of duty, surviving spouses and children of Fallen Officers and employees who die in the line of duty, and families of employees impacted by catastrophic injury or illness.

Sponsor and Exhibitor Opportunities

We invite our industry partners to sponsor an item or event, and to consider exhibiting during this year's conference. There are lots of great sponsorship opportunities still available. Please note, the exhibit hall is 85% sold. Benefits may include complimentary conference registration, participation in QuickConnect, an invitation to Monday's Sponsor, Exhibitor, Jurisdiction Reception, access to pre-registration lists, and more. Contact [Sheila Prior](#) for more information.

Travel Grant Funding Available

The Region IV Board, with some help from the Industry Advisory Board, have once again made travel grant funding available to assist those Region IV jurisdictional members who would not otherwise be able to attend due to budget constraints. Travel grant applications are due no later than March 24, 2017. Sooner is of course better as funding is awarded on a first come, first served basis. Contact [Sheila Prior](#) for more information or to request an application.

For more information, visit the [Region IV Conference Webpage](#) or contact Sheila Prior at 480-275-4584 or sprior@aamva.org

AAMVA, 4401 Wilson Boulevard, Suite 700, Arlington, VA 22203

Dear Fraud Specimen Contacts~

You are receiving this email because your jurisdiction designated you as the Contact for Training Exemplars. If you are no longer the person of contact, please notify me immediately.

AAMVA knows how important it is for each jurisdiction to have sample documents to use with their training programs and has been working with the federal agencies to obtain sample documents suitable for training. I am happy to announce the United States Department of State /Bureau of Consular Affairs/Office of Fraud Preventions have provided AAMVA with the new **Service Passports**.

Due to security reasons, we must request that each jurisdiction identify a primary and secondary contact in their jurisdiction to monitor and track the exemplars in order for us to disseminate these materials. By filling out and faxing in the form below, the individuals identified are accepting responsibility for the exemplars the jurisdictions receive. If they are stolen or misplaced they will need to notify AAMVA immediately.

If your jurisdiction is interested in obtaining training samples, please fill out the attached form and email it back to me.

Your assistance is appreciated. If you have any questions or concerns, please feel free to contact me at 703.908.5767 or dhanchulak@aamva.org

Problem: Alaska's Monthly Timeliness and Data Accuracy For CDLIS Messages Review

Problem Number:890

Status: Analysis **Date:** 02/27/2017
Time: 14:20:15 **Creation Date:**07/31/2015
Creation Time:11:27:54 **Created By:** JShifflett

This is a Master Problem with Subtasks.

Progress:

Entered on 02/27/2017 at 14:20:15 EST (GMT-0500) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by March 13th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the January data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 60% of its successful Report Out-of-State Convictions (HA) transactions (3 out of 5) within the federal time limit of 10 days

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 19.83% overall error rate (71 out of 358) Updates to MPR Personally Identifiable Information

Please find the January monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 01 January CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction or Updates to MPR PII messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 09/29/2016 at 11:58:22 EDT (GMT-0400) by Jessie Rogers:

Good morning,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by October 14th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **August** data, AAMVA noticed the following issues:

CDLIS Data Quality of Pointer Deletions

- Alaska had a 28.57% error rate (2 out of 7) Delete Driver (UE) messages

Please find the August monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 08 August CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Pointer Deletion messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:

Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham
Driver Services Manager

According to MAP-21, States are required to be green by September 2015. Your SDLA should have resolved all the CDLIS issues. Your SDLA is expected to reply to this message by October 15th with an analysis of the issues noted and a plan to address them. This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported. If you need any help to develop the plan, please let us know.

In our review for the **August** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 6.67% of its successful Report Out-of-State Convictions (HA) transactions (6 out of 90) within the federal time limit of 10 days

CDLIS Data Quality of Convictions

- Alaska had a 18.90% error rate (24 out of 127) Conviction (HA) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 22.22% error rate (2 out of 9) Delete Driver (UE) messages

Please find the August monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2015 08 August CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Convictions or Pointer Deletion messages.

This is a Master Problem with Subtasks.

Progress:

Entered on 02/27/2017 at 14:20:15 EST (GMT-0500) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by March 13th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **January** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 60% of its successful Report Out-of-State Convictions (HA) transactions (3 out of 5) within the federal time limit of 10 days

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 19.83% overall error rate (71 out of 358) Updates to MPR Personally Identifiable Information

Please find the January monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 01 January CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction or Updates to MPR PII messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va. 22203 | 703.908.8264 | jrogers@aamva.org | www.aamva.org

Entered on 04/21/2016 at 10:05:16 EDT (GMT-0400) by Jessie Rogers:

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by May 5th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **March** data, AAMVA noticed the following issues:

CDLIS Timeliness of Withdrawals Sent Successfully

- Alaska sent 0% of its successful Report Out-of-State Withdrawals (HW) transactions (0 out of 1) within the federal time limit of 10 days

CDLIS Data Quality of Withdrawals

- Alaska had a 88.89% error rate (8 out of 9) Withdrawal (HW) messages

Please find the March monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 03 March CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal messages.

Thanks,

Entered on 10/16/2015 at 10:41:44 EDT (GMT-0400) by JShifflett:

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:

Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham
Driver Services Manager

Progress:

Entered on 02/27/2017 at 14:20:15 EST (GMT-0500) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by March 13th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the January data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 60% of its successful Report Out-of-State Convictions (HA) transactions (3 out of 5) within the federal time limit of 10 days

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 19.83% overall error rate (71 out of 358) Updates to MPR Personally Identifiable Information

Please find the January monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 01 January CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction or Updates to MPR PII messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va. 22203 | 703.908.8264 | jrogers@aamva.org | www.aamva.org

Entered on 12/29/2016 at 10:00:37 EST (GMT-0500) by Jessie Rogers:

Good morning,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by January 16th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **November** data, AAMVA noticed the following issues:

CDLIS Data Quality of Convictions

- Alaska had a 16.67% error rate (1 out of 6) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 33.33% error rate (1 out of 3) Withdrawal (HW) messages

Please find the November monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 11 November CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction and Withdrawal messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **November** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 5.17% of its successful Report Out-of-State Convictions (HA) transactions (3 out of 58) within the federal time limit of 10 days

Please find the November monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2015 11 November CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction messages.

Thanks,

Entered on 12/01/2015 at 12:51:03 EST (GMT-0500) by JShifflett:

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by December 15th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **October** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 7.69% of its successful Report Out-of-State Convictions (HA) transactions (5 out of 65) within the federal time limit of 10 days

Please find the October monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2015 10 October CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction messages.

Entered on 10/16/2015 at 10:41:44 EDT (GMT-0400) by JShifflett:

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:
Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham

AAMVA Workshop 2017 - Less Than Three Weeks Away!

The 2017 AAMVA Workshop and Law Institute is getting closer! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

unnecessary, or ineffective; impose costs that exceed benefits; create serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; or derive from or implement executive orders or other Presidential directives that have been subsequently rescinded or substantially modified. Agencies will be responsible for measuring and reporting on their progress to the President.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). AAMVA Workshop 2017 - Less Than Three Weeks Away!

The 2017 AAMVA Workshop and Law Institute is getting closer! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

FEDERAL NEWS

President Trump Signs Executive Order on Regulatory Reform

President Donald Trump has signed an [executive order](#) seeking to alleviate unnecessary regulatory burdens placed on the American people. The executive order directs each federal agency to create a task force to identify and recommend changes to "unnecessary, burdensome and harmful" regulations. Each Regulatory Reform Task Force will evaluate existing regulations and identify candidates for repeal or modification and focus on eliminating costly and unnecessary regulations. At a minimum, each Regulatory Reform Task Force shall attempt to identify regulations that eliminate jobs or inhibit job creation; are outdated,
